## ARKS DEPARTMENT BEGINS SUMMER EVENTS

The Parks and Recreation Department has planned the "Best Summer," with the launching of a Gala Sailing Event. Celebrities, kids, and professional athletes mixed with artists, dancers, park staffers, as the Boston Parks and Recreation Department kicked off most complete summer programming season in decades with an afternoon celebration on Tuesday, June 28, 1988, at Jamaica Pond.

Scheduled from noon to 2 p.m. the event offered a sampling of what Commissioner William B. Coughlin calls "the most comprehensive and community-based summer programming this city has seen." In addition to Parks programs like sailing, sports clinics, fishing and nature tours, the event also featured programs of the Mass. Audubon Society, Very Special Arts, Boston Children's Theater, the Mass. College of Arts, and other cultural and environmental groups have planned programs in the city's parks this summer. The Police Athletic League and the Boston Park Rangers were also present at this opening event.

Channel 4 sports director Bob Low was master of ceremonies, and guests included Red Sox players, neighborhood groups, schoolchildren, and other citizens, people from the business community and government, and local media. Boston Mayor Raymond L. Flynn, whose commitment to the Parks has fueled their celebration, greeted the 350 people expected to attend.

The 1988 summer programming, says Coughlin, is a result of efforts throughout the winter and spring by his staff to get input from nearly 200 profit and neighborhood organizations.

According to Programming Director William Barrett, the Parks Department has budgeted \$3 million for summer programs, and anticipates that over a quarter million people will use the parks this summer, a 30 percent increase over last year.

The pop-funk group "Freedom" provided music, and the Roxbury Center for Performing Arts unveiled a piece especially choreographed for the Parks opening. The event was open to the public, and refreshments were served.

### COMMUNITY SCHOOLS PILOT KAMP

Mayor Raymond L. Flynn announced the creation of a pilot summer program for Boston youth. Kamp for Kids East, a day-camp program, located on the City of Boston's Mary P. C. Cummings Estate in Burlington, Massachusetts, provides a unique opportunity for inner-city youth to experience a variety of recreational, gardening and environmental education activities in a rural, natural environment.

An outgrowth of the Association for the Support of Human Services' Kamp for Kids in Westfield, Massachusetts, Kamp for Kids East maintains a philosophy of integrating children with disabilities and children without disabilities. This early learning experience allows children to focus on one another's similarities and individuality. Participating youths learn to accept and help one another through daily activities that include expressive arts, nature exploration, swimming, the "challenge curriculum" and new games.

Kamp for Kids East is managed by Boston Community Schools and Recreation Centers and receives funding through the City of Boston Trust Office.

Transportation and meals are included in the sliding-scale fee.

"This is an exciting chance to create opportunities for kids to interact with one another and to learn that differences amongst them based on perceived disabilities, is really insignificant," said William P. Doherty, Executive Director of Boston Community Schools and Recreation Centers. "Community Schools is proud to pilot a program of this quality."

For information on Kamp for Kids East contact Hillary Combs, Boston Community Schools and Recreation Centers at 725-4920.

### COMMUNITY SCHOOLS' DAY CAMPS TO OPEN

Mayor Raymond L. Flynn has announced the opening of Boston Community Schools and Recreation Centers' Summer Day Camp Program on Tuesday, July 5. Twenty-six neighborhood day-camp programs will serve nearly 24,000 children between the ages of five and thirteen. The camps provide various structured activities, as well as recreational sports, arts and crafts, swimming, day trips and more. The fee for these camps is based on a sliding scale depending on each family's income level.

Community Schools' Summer Day Camps are located in Allston/Brighton, Chinatown, the South End, North End, Charlestown, Dorchester, Hyde Park, East Boston, Jamaica Plain, Mattapan, Roxbury, South Boston, Roslindale, West Roxbury, and Mission Hill. "Community Schools' Summer Day-Camp programs provide not only a vital recreational service for the youths in our neighborhoods, but in many cases, a child care service for families," said William P. Doherty, Executive Director of Boston Community Schools and Recreation Centers.

## DAY CAMPS TO OPEN...

(Continued from front page)

Doherty continued, "many of our young participants come from two working parents and single parent homes, and Community Schools' day camps allow parents to continue working and be assured that their children are being cared for in a safe environment throughout the summer months."

Managed locally, summer day camps have different schedules. To find out more about the camp programs and the nearest location to you, contact the central office of Boston Community Schools and Recreation Centers at 725-4920.

## CITY SITES HOMES FOR MENTALLY RETARDED

The Public Facilities Department (PFD) designated the last of six sites throughout the city to be used as housing for mentally retarded adults. The housing will be constructed on two vacant lots on Clifton Street in Roxbury by the Boston Housing Authority with funding from the State. The homes will be operated by the Department of Mental Health.

"This is another example of Mayor Flynn's commitment to taking care of the city's special needs population," said Lisa G. Chapnick, PFD director. "We applaud the residents of the neighborhoods who have opened their arms to these vulnerable individuals."

The homes for the mentally retarded will be located in Charlestown, Roslindale, South Boston, Dorchester, Roxbury and Mission Hill. When complete, the six homes will accommodate forty-eight individuals who have been released from State institutions. Preference will be given to those who have prior ties to one of the designated neighborhoods. The homes will be fully staffed by mental health professionals. Residents are required to be involved in therapeutic day programs or employed full time.

"We congratulate the City of Boston on its successful efforts to site these facilities," said Amy S. Anthony, Massachusetts Secretary of Communities and Development. "The state and the city share a common goal to provide community-

based housing for the mentally retarded."

The six Boston facilities are part of the state's chapter 689, the plan developed to site homes for mentally retarded at fifty-one locations throughout the Commonwealth. The homes in Boston are expected to be ready for occupancy by December of 1989.

## COMMUNITY SCHOOLS EXPAND POOL HOURS

Boston Community Schools and Recreation Centers' Pools across the city were opened for extended summer hours throughout the summer months. In addition, two outdoor pools, the Mirabella, located in the North End, and the Clougherty, located in Charlestown, will open for the summer season.

A variety of swimming programs and open swims for residents of all ages are scheduled at each community pool location. To find out the nearest pool to you and more specific information contact the Central Office of Boston Community Schools and Recreation Centers at 725-4920.

#### CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following information:

#### AFFAIRS OF THE ELDERLY Ceramics Instruction and Bus Trips

Dear Mr. Mayor:

Your permission is hereby requested to award a contract, without advertising, to ABCD, 178 Tremont Street, for recreational/cultural and travel programs for the elderly of East Boston, through the Anna DiFronzo Senior Center, in the amount of \$10,000 for the period June 1, 1988, through December 31, 1988.

The Commission on Affairs of the Elderly has been awarded \$10,000 by the Mass. Executive Office of Elder Affairs in Discretionary Grant Funds to allow the Anna DiFronzo Senior Center to provide ceramics instruction and bus trips to the senior citizens of East Boston.

Since this contract is to be awarded to the vendor and for the purpose for which it was awarded to the Commission, and at a rate I deem reasonable, I hereby request that the Commission be allowed to dispense with public advertising in awarding this contract.

Sincerely,

Diane Payne,  
Commissioner.

#### JOBS AND COMMUNITY SERVICES Teenage Women Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the Cardinal Cushing Center, a nonprofit corporation, located at 1375 Washington Street, to provide a comprehensive program of services for approximately twenty pregnant and parenting teenage women between the ages of sixteen to nineteen who are members of households receiving welfare benefits. The goal of the program is to maximize the teenagers' chances of becoming self-sufficient. The participants will receive training in the areas of comprehensive assessment, education, personal and vocational counseling, support services and job development and placement services.

The contractor was selected based upon an evaluation of its refunding proposal submitted to the Mayor's Office of Jobs and Community Services. Other selection criteria include the results of site monitoring visits conducted by JCS staff, an overall review of the contractor's performance during the prior contract period, administrative capability, reasonableness of cost, and the ability to serve the targeted population.

Compensation under the terms of this contract shall not exceed \$29,555, payment being provided by the State Department of Public Welfare through the Office of Training and Employment Policy. The period of performance shall be from January 1, 1988, until June 30, 1988. This request has been delayed due to late notification of funding availability from the state.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose. I, therefore, request permission to dispense with sealed bids by advertising in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Sincerely,

Neil H. Gordon,  
Associate Director.

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the Ecumenical Social Action

Committee (E.S.A.C.), a nonprofit corporation, located at Jamaica Plain, to provide a comprehensive program of services for approximately twenty pregnant and parenting teenage women between the ages of sixteen to nineteen who are members of households receiving welfare benefits. The goal of the program is to maximize the teenagers' chances of becoming self-sufficient. The participants will receive training in the areas of comprehensive assessment, education, personal and vocational counseling, support services and job development and placement services.

The contractor was selected based upon an evaluation of its refunding proposal submitted to the Mayor's Office of Jobs and Community Services. Other selection criteria include the results of site monitoring visits conducted by JCS staff, an overall review of the contractor's performance during the prior contract period, administrative capability, reasonableness of cost, and the ability to serve the targeted population.

Compensation under the terms of this contract shall not exceed \$34,207, payment being provided by the State Department of Public Welfare through the Office of Training and Employment Policy. The period of performance shall be from January 1, 1988, until June 30, 1988. This request has been delayed due to late notification of funding availability from the state.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose. I, therefore, request permission to dispense with sealed bids by advertising in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Sincerely,

Neil H. Gordon,  
Associate Director.

#### Clinical Training, etc.

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the Dimock Community Health Center, a nonprofit corporation, located at 55 Dimock Street, Roxbury. Under the terms of the contract, the contractor will operate a third party biller training program for approximately seventeen eligible residents of Charlestown. The program will consist of classroom, skills, and clinical training.

This program is being funded in conjunction with Massachusetts General Hospital, and the Raymond Group, developer of Building 149 in the Charlestown Navy Yard, where MGH has relocated its billing operations department. The Raymond Group expressed an interest in working with the local community, and was committed to hiring local residents. MGH identified an ongoing need for third party billers, and the Mayor's Office of Jobs and Community Services was able to refer the contractor to MGH and assist in developing an appropriate curriculum.

Compensation under the terms of this contract shall not exceed \$41,320, payment being made from funds received under the city's Linkage program and the State's Department of Public Welfare. The period of performance shall be from March 1, 1988, until June 30, 1989. This request has been delayed due to the length of time involved in contract and budget negotiations.

The Dimock Community Health Center has operated similar programs funded by the city for several years, and has a proven track record. The cost of the services being provided are reasonable, and comparable to those of similar programs. As this is

a negotiated contract at a reasonable cost, I believe that public advertising would serve no useful purpose. I, therefore, request permission to dispense with sealed bids by advertising in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Sincerely,  
Kristen J. McCormack,  
Director.

#### Carpentry Training

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the Boston Carpenters Summer Training Corporation, a nonprofit corporation, located at 385 Rear Market Street, Brighton, for the purpose of providing skills training to minority participants. Under the terms of the contract, the contractor will provide pre-apprenticeship training in carpentry to approximately ten minority participants for placement into the union's apprenticeship training program.

The Mayor's Office of Jobs and Community Services has been selected by the Executive Office of Economic Affairs/Office of Training and Employment Policy to administer its Minority Employment Initiative Program. This contractor has been selected by the state to participate in this program. Compensation under the terms of this contract shall not exceed \$39,650, payment being provided to the city by EOEA/OTEP. The period of performance shall be from February 1, 1988, until June 30, 1988. The submission of this request has been delayed due to the time involved in negotiations and the late notification of funding availability from the State.

As this is a negotiated contract at a reasonable cost, based upon an recommendations made by the State to JCS, I believe that public advertising would serve no useful purpose. I, therefore, request permission to dispense with sealed bids by advertising in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Sincerely,  
Neil H. Gordon,  
Associate Director.

#### Furniture Rental

Dear Mayor Flynn:

On or about October 27, 1987, your Honor approved the award of a contract to Direct Office Furniture, located at 215 Sydney Street, for the purpose of providing furniture rental services to the Mayor's Office of Jobs and Community Services. Compensation was for an amount not to exceed \$4,900, payment being made from funds received under the Job Training Partnership Act for the period of October 1, 1987, until June 30, 1988.

Your approval is requested to amend this contract in terms of compensation. Additional funds are requested to allow JCS to continue to use the services of this contractor until the end of the current fiscal year. These funds are needed as JCS's move to its new location has been delayed and due to the fact that additional staff has been hired. Additional furniture has been needed for a longer than anticipated period of time. I, therefore, respectfully request your Honor's permission to increase compensation in the amount of \$2,000. Total compensation under the terms of this contract, as amended, shall not exceed \$6,900. All other terms and conditions of the original contract shall remain the same.

As this is a negotiated contract amendment for professional services at a reasonable cost, I believe that public advertising would serve no useful

purpose. I, therefore, request permission to dispense with inviting sealed bids by advertising in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Sincerely,  
Neil H. Gordon,  
Associate Director.

#### Senior Managers and Staff Seminar

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the Insight Consulting Group, located at Arlington, for the purpose of providing professional training services to the Mayor's Office of Jobs and Community Services.

Under the terms of the contract, the contractor will conduct its Managing Accelerated Productivity Seminar for JCS senior managers and staff, conduct a follow-up session for JCS staff that participated in the seminar conducted by Insight in April of 1987, and provide other services as requested by JCS. The contractor was selected based upon an evaluation of its proposal submitted in response to a legal advertisement in the *Boston Globe* on November 5, 1987. As one of two respondents to the advertisement, Insight submitted the most appropriate proposal and the cost was reasonable.

Compensation under the terms of the contract shall not exceed \$20,000. The period of performance shall be from March 1, 1988, until June 30, 1988. The initial encumbrance shall be \$10,000. The submission of this letter has been delayed due to the fact that contract documents sent to the contractor in late January were not returned to JCS until May 9, 1988.

The Insight Consulting Group offered its Managing Accelerated Productivity seminar to over thirty JCS staff persons last spring, under a FY 87 contract. A survey was issued to all MAP participants, and all respondents felt that the seminar met their expectations and that the Time/Design system used would enhance their on-the-job performance. In my opinion the training provided is excellent, and JCS has benefited enormously from this wise investment. As this is a negotiated contract at a reasonable cost, based upon an extensive proposal review, I believe that public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids by advertising in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Sincerely,  
Neil H. Gordon,  
Associate Director.

#### LAW DEPARTMENT

##### Expert Testimony Services

Dear Mr. Mayor,

I respectfully request your permission to dispense with public advertising and to award a contract to Carr, Lynch Associates, a corporation located at Cambridge, for urban planning expert, services in the case of *National Amusement vs. City of Boston*, Land Court CA 123588.

Under the terms of the contract, Gary Hack of Carr, Lynch Associates will serve as an urban planning expert witness: make site visits, review planning and policy documents of the City of Boston and Boston Redevelopment Authority; develop a pro forma model for residential housing; attend trial sessions to review plaintiff experts' testimony, and provide expert testimony in the trial of the above-mentioned case.

Gary Hack is uniquely qualified to do this work because he is a professor of Urban Design at MIT; has a Master's of Urban Planning and Doctorate in

Urban Studies and Planning, has professional experience in urban planning; and familiarity with planning policy and procedures in the City of Boston.

Compensation under this contract shall not exceed \$5,000 to be paid at the rate of \$100 per hour, which I have determined to be reasonable for the work to be performed.

The term of this contract shall be April 23, 1988 to June 30, 1988.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

This contract is being submitted late because originally it was thought these services could adequately be provided under a service order for \$2,000. However, both the complexity and length of the trial have doubled from what was originally planned for. Therefore, this contract is now a necessity for the City of Boston to present its defense in this case at trial.

Very truly yours,  
Joseph I. Mulligan, Jr.,  
Corporation Counsel.

#### PARKS AND RECREATION DEPARTMENT

##### Citywide Survey

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to the Atlantic Research Company, 77 North Washington Street, for the period April 25, 1988, June 30, 1988.

Under the terms of the proposed contract, Atlantic Research Company will conduct a citywide survey of Boston residents on the demand for Parks and Recreation resources. The contract will provide for a statistical study based on a questionnaire by telephone interview of 1,800 residents in Boston, located in nine neighborhoods of the city for the purposes of understanding the population demand for Parks and Recreation Department services and facilities. This study, upon completion, will help the Parks and Recreation Department develop plans that respond to the needs and expectations of Boston's residents.

Atlantic Research Company is a general market research firm, offering a full service research capability from study design to report presentation. They also have broad experience in government planning and research and specific experience in recreation demand estimation.

Atlantic has conducted major planning and evaluation research projects from state and local government agencies. They are currently conducting major recreation demand assessment for Massachusetts Department of Environmental Management. This project for DEM is closely related to the Parks and Recreation Department needs.

Very truly yours,  
William B. Coughlin,  
Commissioner.

#### PENAL INSTITUTIONS DEPARTMENT

##### Evaluation of Programs, etc.

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and award a contract to William F. Callahan, an individual, residing in North Easton, to evaluate the overall operation of the Suffolk County House of Correction, Dedham.

Under the terms of this contract, Mr. Callahan will work directly with the Commissioner, Deputee Commissioner, Superintendent and other management staff of the Penal Institutions Department.

nd the Suffolk County House of Correction in evaluating inmate programs and services at the SCHC and in the areas of planning, supervision and other administrative matters. He will also present to the Penal Institutions Department his proposals and recommendations on how this department can improve the operation of the Suffolk County House of Correction. Mr. Callahan is uniquely qualified to perform this work because of his extensive experience in corrections (twenty-six years) including the period of time spent as Associate Commissioner of Field Services for the Massachusetts Department of Correction.

Mr. Callahan has previously provided supervisory training to the command staff of the SCHC via service order, total not to exceed \$1,990. Mr. Callahan has not worked for the Penal Institutions Department previously to fiscal year 1988.

Compensation under this contract shall not exceed \$3,990, which includes the service order for \$1,990, which I have determined to be reasonable for the work to be performed. The term of this contract shall be from January 28, 1988, through June 30, 1988.

Because of the professional services to be performed and Mr. Callahan's knowledge and experience in corrections, I believe that public advertising would serve no useful purpose. This contract is being submitted late because this department did not anticipate contracting with Mr. Callahan previous to fiscal year 1989.

Very truly yours,

Robert G. Walsh, Jr.,  
*Commissioner.*

**PUBLIC FACILITIES DEPARTMENT  
Renovations Design Services**

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on February 11, 1988, I respectfully request your Honor's written permission to dispense with further public advertising and award a contract to Graham/Meus, Inc., a Massachusetts corporation, with offices at 224 Clarendon Street, providing design services for renovations to homeless shelters at Long Island Hospital and Boston City Hospital. Scope of work to include preliminary drawings, design development, working drawings and construction supervision.

Compensation under this contract shall not exceed \$119,520, including \$20,000 for supplementary services, which is a fixed fee of 12.44 percent based on an estimated cost of construction of \$1,000,000, which I have determined to be a reasonable cost for the work to be performed. The term of this contract shall be for eighteen months from date of execution.

Following the advertisement of this project in the *Boston Globe* on November 23, 1987, and receipt of proposals, the contractor was selected on the basis of a rating system undertaken by the Public Facilities Designer Selection Committee in accordance with MGL c.7, s. 38A 1/2 et seq. The committee evaluated twelve proposals submitted by the applicants and determined Graham/Meus, Inc. most qualified and competent to complete said design work. The numerical matrix rating for a firm reflects the combined score of each committee member's ranking of this firm and thus the recommended firm has the lowest number.

The numerical matrix rating summary of the three finalists, in order of rank, was as follows: Graham/Meus, Inc., 224 Clarendon St. — 3; Rothman, Rothman & Heinman, 711 Atlantic Ave. — 7; Arnold Cobson & Associates, Inc., 22 Drydock Ave. —

I believe Graham/Meus, is qualified to perform the services required.

In view of the technical and professional nature of the services, and the selection process used, it is my judgement that further public advertising would serve no useful purpose in this instance.

Sincerely,

Lisa G. Chapnick,  
*Director.*

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on March 15, 1988, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to Taskin, Inc., a Massachusetts corporation, with offices at North Reading, providing design services for renovations to the kitchen and cafeteria areas, including replacement of windows and flooring and renovations to Adult Day Care at Mattapan Chronic Disease Hospital. Scope of work to include preliminary drawings, design development, working drawings and construction supervision.

Compensation under this contract shall not exceed \$29,768, (including \$5,000 for supplementary services) which is a fixed fee of 13.76 percent based on an estimated cost of construction of \$180,000, which I have determined to be a reasonable cost for the work to be performed. The term of this contract shall be for twelve months from date of execution.

Following the advertisement of this project in the *Boston Globe* on November 23, 1987, and receipt of proposals, the contractor was selected on the basis of a rating system undertaken by the Public Facilities Designer Selection Committee in accordance with MGL c.7, s. 38A 1/2 et seq. The committee evaluated five proposals submitted by the applicants and determined Taskin, Inc. most qualified and competent to complete said design work. The numerical matrix rating of this firm reflects the combined score of each committee member's ranking of this firm and thus the recommended firm has the lowest number. The numerical matrix rating summary of the three finalists, in order of rank, was as follows: Taskin, Inc., North Reading — 3; Sheladia/Bridges, 719 Boylston Street — 7; Graham/Meus, Inc., 224 Clarendon Street — 8.

I believe Taskin, Inc. is qualified to perform the services required.

In view of the technical and professional nature of the services, and the selection process used, it is my judgement that further public advertising would serve no useful purpose in this instance.

Sincerely,

Lisa G. Chapnick,  
*Director.*

**Electrical Inspection Services**

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on March 24, 1988, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to Joseph F. Fanara, an individual, with offices at Revere, providing electrical inspection services for code compliance, as well as plan and specification requirements at various sites on an as-needed basis. Scope of work will consist of inspection services during construction phase for electrical work, documentation of site visits and interpretation of plans and specifications.

Compensation under this contract shall not exceed \$8,000, which is a negotiated fee based on hourly rates of \$39 per hour, which I have determined to be a reasonable cost for the work to be

performed. The term of this contract shall be from April 1, 1988, to June 30, 1988.

Following the advertisement of this project in the *Boston Globe* on January 22, 1988, and receipt of proposals, the contractor was selected on the basis of a rating system undertaken by the Public Facilities Designer Selection Committee in accordance with MGL c.7, s. 38A 1/2 et seq. The committee evaluated two proposals submitted by the applicants and determined Joseph F. Fanara most qualified and competent to complete said design work. The numerical matrix rating of this firm reflects the combined score of each committee member's ranking of this firm and thus the recommended firm has the lowest number. The numerical matrix rating summary, in order of rank, was as follows: Joseph F. Fanara, Revere — 3; J. F. Broderick Co., Inc., Randolph — 6.

I believe Joseph F. Fanara is qualified to perform the services required.

In view of the technical and professional nature of the services, and the selection process used, it is my judgement that further public advertising would serve no useful purpose in this instance. The submission of this request has been delayed due to lengthy vendor negotiations.

Sincerely,

Lisa G. Chapnick,  
*Director.*

**SCHOOL DEPARTMENT  
Evaluation Project**

Dear Mayor Flynn:

As superintendent of the Boston Public Schools, I respectfully request your authorization for the award of a contract to Rick L. Leon, an individual residing at Weston.

This contract shall be in effect during the period May 23, 1988, to June 30, 1988, and shall occur at a cost not to exceed \$3,300, which I have determined to be reasonable. He will be compensated for his services at the rate of \$100 per day.

Under the term of this contract, the contractor will work on a formulative evaluation project of the District A Early Learning Center and the Wheelock College Curriculum Collaborative, both funded from chapter 188. He will work under the supervision of the coordinator of Early Childhood Education, the director of the Office of Research and Development, and the senior program director of the Department of Program Evaluation to: document the status of projects in question, evaluate the extent to which specified project goals have been achieved, identify factors which have been fostered or inhibited project success, assess the impact of curriculum trainings and practice, and prepare a draft of an evaluation report containing recommendations for programmatic and operational improvements.

The contractor was selected to provide these services because he is capable of performing statistical operations using SPSSx and SPSS PC+. He has both a theoretical and hands-on knowledge of early childhood education programs. He also has considerable experience in the area of program evaluation at the early childhood level.

This is the first contractual agreement between this vendor and the Boston Public Schools.

Very truly yours,

Laval S. Wilson,  
*Superintendent.*

**Xerox Copiers**

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Xerox Corporation, located at 155 Federal Street, for outright purchase, installment pur-

chase, term lease or rental of new Xerox copiers, duplicators and Memorywriters for the period July 1, 1988, through June 30, 1989, as needed by the School Department in an amount not to exceed \$250,000. In most cases, new copiers or duplicators will represent replacement of old Xerox copiers returned to the manufacturer for trade-in credit. Equipment acquired with federal monies will be placed on term lease or rental plans.

Xerox Corporation was awarded publicly advertised contracts by the Commonwealth of Massachusetts in October, 1986 for one calendar year for the purchase of copiers, duplicators and Memorywriters. The Purchasing Agent of the City of Boston has conducted an extensive study of its reprographic equipment and requirements, and determined that the City needs to standardize its purchase of copiers and duplicators.

Prices charged to the School Committee will be the same as those charged to the Commonwealth of Massachusetts and the City of Boston and I consider these prices reasonable. In view of the above, it is my opinion that no useful purpose would be served by further public advertisement for bids.

Compensation to this vendor during the past two fiscal years in the form of unadvertised contracts is as follows: 1985 — 1986 \$75,000; 1986 — 1987 \$200,000; and 1987 — 1988, \$210,000.

Very truly yours,

Leo J. Burke,  
Business Manager.

#### Educational Services

Dear Mr. Mayor:

As superintendent of the Boston Public Schools, I respectfully request your authorization for the award of a contract to Boston Zoological Society, Franklin Park Zoo, for educational services to be provided to students at the Charles Taylor School.

This contract shall be in effect during the period June 1, 1988, to June 30, 1988, and shall occur at a cost not to exceed \$3,600, which I have deemed to be reasonable.

Under the terms of this contract, the contractor will provide a two-week Natural History Program for students attending the Taylor Elementary School. The program will enable the instructors to incorporate reading, math, and critical thinking skills into a hands-on experience program with live animals.

The contractor was selected to provide these services the Franklin Park Zoo is the only facility of its type within close proximity to the Taylor School; in addition, the zoo has provided similar services in the past at the school and is familiar with the needs of the student population.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing these services, it is my determination that the public interest would not be served by publicly advertising for bids.

Compensation to this vendor during the past three fiscal years in the form of unadvertised contracts is as follows: 1988 — \$24,000; 1987 — \$21,925; 1986 — \$2,446.48.

Very truly yours,

Laval S. Wilson,  
Superintendent.

#### CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

#### BUDGET AND PROGRAM EVALUATION

#### Consultant Services

Dear Mayor Flynn:

On February 11, 1988, your Honor approved the award of an advertised contract to Lynch, Ryan and Associates Inc. of Westborough, to improve the service delivery process of the Worker's Compensation Division, to design an automated case-load management system, enhance the city's loss control and risk control systems, analyze the cost of providing worker's compensation and evaluate the appropriateness of Boston's separate city, police and fire worker's compensation systems for the period of December 1, 1987, through June 30, 1988, at a cost not to exceed \$81,000.

As the initial study progressed, it became increasingly clear that a large portion of outstanding worker's compensation cases resided in the Transportation and Penal Departments. The city concluded that it would be useful to pilot a number of the remedies from the initial report in these departments. Under the terms of the amendment, the consultant will assist the Transportation and Penal Departments in developing specific methods of reducing worker's compensation costs and will identify and recommend solutions to administrative and employee problems including case settlements in the departments and internal case management systems. The cost of this amendment shall be \$24,000 to be charged to the Office of Budget and Program Evaluation appropriation code 011-140-0141-BP01-0290. The contract as amended shall not exceed \$105,000 and the period of performance shall be extended through September 30, 1988.

Since the period of performance for this agreement extends over two fiscal years, I request that only \$12,000 be encumbered from the FY'88 budget to cover anticipated costs through June 30, 1988. At that time, I shall request a further encumbrance to cover Fiscal Year 1989 costs subject to the city auditor's certification of an available appropriation.

The original contract was awarded to the sole respondent, Lynch Ryan and Associates, Inc. through as Request for Proposals issued by the Office of Budget and Program Evaluation dated September 18, 1987, and through an advertisement in the *City Record*, on September 28, 1987. Given the fact that another public bidding process would inevitably lead to the same result based on the consultant's experience and familiarity with the project and the likely unwillingness of the other firms to bid on the project, I therefore request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the City of Boston Code St. 4, s. 5.

Sincerely,

Robert J. Ciolek,  
Director.

#### Budgeting and Evaluation Process

Dear Mayor Flynn:

On March 10, 1988, your Honor approved the award of an unadvertised contract for the period of February 22, 1988, through June 30, 1988, to Trainor and Company of 77 North Washington Street, to assist the director of the Office of Budget and Program Evaluation in the design, implementation and subsequent critique of a program budgeting and evaluation process and to assist in the development and production of the City of Boston's operating budget.

Your approval is requested to amend this contract to provide for an increase in the number of hours required to carry out the specifications detailed on Addendum 1, Revised Task Orders, amended May 10, 1988. The maximum number of

hours under Task 2 will increase from 100 to 400 hours to provide program evaluation support. Task 3 and Task 4 will increase from 100 to 150 hours. Task 7 to provide all-funds budget development support will increase from 100 to 500 hours.

Compensation under the terms of this amendment will not exceed \$72,000 and services will continue to be provided on a task order basis at the rate of \$75 per hour. Payment for these services will be made from appropriation code MY-030-140-897-0290 \$40,000, and 011-140-0141-BP02-02 \$32,000 by the Office of Budget and Program Evaluation. The period of performance will remain the same.

As stated in the approved award letter, the original contract was competitively awarded, by means of an RFP, prebid conference and the active solicitation of proposals. This is a negotiated contract at a reasonable cost and no purpose would be served through public advertising. Given the fact that the team won the award of the contract on a competitive basis, their one and a half years of experience working on this project, their reduction in hours of compensation, and the likely unwillingness of other consulting firms to bid on the project, I therefore request permission to dispense with inviting sealed bids in the *City Record* pursuant to authority granted under the City of Boston Code St. 4, s. 5.

Sincerely,

Robert J. Ciolek,  
Director.

#### HEALTH AND HOSPITALS DEPARTMENT

##### X-ray Tubing

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I hereby request your Honor's permission to amend the contract with United X-Ray Corporation of Massachusetts Fall River, for the period July 1, 1987, through June 30, 1988, at a cost not to exceed \$221,080.

This amendment will increase the contract cost by \$26,000, thereby increasing the city's total liability under this contract, as so amended, to amount not to exceed \$247,080.

This amendment is necessary to increase the portion of the contract for the purchase of X-ray tubing which was underestimated.

In view of the above, and as the cost, in my opinion, is reasonable, I recommend approval of this amendment.

Very truly yours,

Lewis W. Pollack,  
Commissioner.

#### Telephone System Maintenance

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to amend the contract with Star Datacom, Inc. (formerly Henke McCoy), Pennsylvania for the period July 1, 1987 through June 30, 1988, at a cost not to exceed \$517,445.

This amendment will increase the contract cost by \$50,000, thereby increasing the city's total liability under this contract, as so amended, to amount not to exceed \$567,445.

Under this contract, Star Datacom, Inc. provides maintenance for the Department of Health Hospitals telephone system. The contract also covers the expense for moves, changes and additions to the system.

The original contract cost included \$257,445 for maintenance and an estimated amount of \$260,000 for moves, changes, etc. The department has underestimated the expense for the

changes, etc., and needs an additional \$50,000 added to the contract.

In view of the above, because the cost, in my opinion, is reasonable, I recommend approval of this amendment.

Very truly yours,  
Lewis W. Pollack,  
*Commissioner.*

**INSPECTIONAL SERVICES DEPARTMENT**  
**Demolition of Unsafe Building**

Dear Mr. Mayor:

An advertised bid was held on Friday, April 22, 1988, at 11 a.m., for the demolition of an unsafe and dangerous building located at 41 Maywood Street, Ward 12. The low bidder was Napoli Wrecking Company, Inc., 71 Proctor Street, Roxbury.

Upon the proofreading of bids held at the Auditing Department, it was discovered that the low bidder Napoli Wrecking Company, Inc. had neglected to sign the bid sheet they had deposited with the Auditing Department, although copies of the same had been signed and deposited before time of bid in the Inspectional Services bid box located at 10 Massachusetts Avenue, Boston.

Because this is an unsafe and dangerous building and the time element that would have to be extended, we feel it would serve no useful purpose to bid this building for razing and would like to award to Napoli Wrecking Company, Inc.

The bids on April 22, 1988 were as follows:  
Napoli Wrecking Co., Inc., \$21,900; Jay-Mor Wrecking, \$24,400; Mystic Wrecking Co., Inc. \$3,000; Four Brothers, \$29,100.

Very truly yours,  
Gary P. Moccia,  
*For Inspectional Services Commissioner.*

**JOBS AND COMMUNITY SERVICES**  
**Skills Training Program**

Dear Mayor Flynn:

On or about October 26, 1987, your Honor approved the award of a contract to the Boston Carver's Summer Training Corporation, a nonprofit corporation, located at Brighton, for the purpose of providing a skills training program as part of the city's BostonWorks program. Compensation was an amount not to exceed \$79,300, payment being made from funds received under the Community Development Block Grant program for the period of October 1, 1987, until June 30, 1988. Under the terms of this contract, the contractor is providing pre-apprenticeship training in carpentry to twenty program participants, resulting in placement into the union's apprenticeship training program.

Your approval is requested to amend this contract in terms of compensation. The purpose of this amendment is to allow the contractor to provide the training program to ten additional participants. The cost per participant remains unchanged. I, therefore, respectfully request your Honor's permission to increase compensation in the amount of \$9,650. Total compensation under the terms of this contract, as amended, shall not exceed \$89,950. All other items and conditions of the original contract shall remain the same.

As this is a negotiated contract at a reasonable rate, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids by advertising in the *City Record*, pursuant to authority granted under the City of Boston Code, 4, s. 5.

Sincerely,  
Neil H. Gordon,  
*Associate Director.*

**PARKS AND RECREATION DEPARTMENT**  
**Swimming Pool Repairs, etc.**

Dear Mr. Mayor:

On July 30, 1987, your Honor approved an award of a contract, without public advertising for bids, to the Boys and Girls Club of Boston, Inc., Charlestown, for fiscal administration of the public swimming pool program during the period July 1, 1987, through June 30, 1988, at a cost not to exceed \$260,000.

Your approval is requested to amend this contract in order that we may pay additional expenses incurred last summer for the pool program. The additional expenses included mostly equipment repair and supplies. Because of the limitations of the budget allowed, and because the demand for the contracted services has been much higher than anticipated, the money allotted will have to be increased before completion of the scheduled and necessary services are made. Therefore, your approval is requested to amend this contract to provide funds for needed financial management services. Payment for work performed will be at the original contract unit prices.

The cost of this amendment which is effective on May 15, 1988 shall not exceed \$7,500, a sum which I have determined to be reasonable. The contract amended shall not exceed \$267,500, which would be charged to 011-300-0301-0290-PK-05.

Due to the contractor's ability to continue fiscal administration services to the public swimming pool program and because this contractual arrangement ensures continuity of service in an efficient and cost-effective manner, it is my judgment that the amendment proposed is in the best interest of the city, and that public advertising would serve no useful purpose.

Very truly yours,  
William B. Coughlin,  
*Commissioner.*

**PUBLIC FACILITIES DEPARTMENT**  
**Health Center Renovations**

Dear Sir:

Pursuant to a vote of the Public Facilities Commission on April 14, 1988, I respectfully request your Honor's written permission to dispense with public advertising and amend a contract approved by your Honor on December 15, 1987, to Fenway Community Health Center to provide renovations to its facility under the Non-Profit Organization/Physical Improvements Program during the period September 1, 1987, to June 30, 1988, at a cost not to exceed \$21,000.

Your approval is requested to amend this contract to provide for additional renovations to the Fenway Community Health Center. Renovations will include conversion of existing space to an AIDS patient treatment area, installation of a wheelchair ramp, and a handicapped accessible bathroom.

The cost of this amendment shall not exceed \$29,000, which I have determined to be reasonable. The contract, as amended, shall not exceed \$50,000. The period of performance, as amended, shall be from July 1987, to December 31, 1988.

Because of the professional nature of the services to be provided, and the qualifications of the contractor, I believe that public advertising would serve no useful purpose in this instance.

Sincerely,  
Lisa G. Chapnick,  
*Director.*

**Design of Dedicated Chiller**

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on March 15, 1988, I respectfully request

your Honor's permission to dispense with further public advertising and amend a contract approved by your Honor on January 15, 1988, awarded to Shooshanian Engineering Associates, Inc. with offices at 330 Congress Street, for construction supervision of dedicated chiller for Data Processing Center at Boston City Hall. The cost of this amendment shall not exceed \$6,499.60. The amended cost of this contract shall not exceed \$11,674.

Said amendment is necessary due to the increased scope of services required of the designer. Under the terms of the amended contract, Shooshanian Engineering Associates, Inc. shall provide additional services including the design of new connections to the system. Other areas of Boston City Hall will need to be linked to the dedicated chiller. Since Shooshanian Engineering Associates, Inc. designed the chiller, they should also design the new connections.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions, and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose in this particular instance.

Sincerely,  
Lisa G. Chapnick,  
*Director.*

**SCHOOL DEPARTMENT**  
**Legal Services**

Dear Mayor Flynn:

On October 1, 1987, your Honor approved the award of a contract, without public advertising for bids, to Naomi R. Stonberg, Esq., Wellesley, to provide legal representation to the Boston School Committee at various arbitration hearings, during the period September 1, 1987, to June 30, 1988, at a cost not to exceed \$7,000.

Your approval is now requested to amend this contract to complete activities begun which will consume more time than was anticipated at the time of the initial request.

The cost of this amendment, which is effective on May 27, 1988, shall not exceed \$1,500, which I have determined to be reasonable. The contract as amended shall not exceed \$8,500. All other terms and conditions of this agreement shall remain in full force and effect.

Very truly yours,  
Laval S. Wilson,  
*Superintendent.*

**Bilingual Counseling Services**

Dear Mr. Mayor:

On February 11, 1988, your Honor approved an award of a contract without public advertising for bids, to Dr. Jean Lau Chin, a consultant located at Newton, for counseling services for bilingual students and their parents for chapter 636 during the period from January 27, 1988, to June 30, 1988, at a cost not to exceed \$4,000.

Your approval is requested to amend this contract to provide for an additional 150 hours of service. The original number of hours necessary to complete this project was originally underestimated and this amendment will provide for additional counseling services to bilingual students and their parents. The cost of this amendment, which is effective on May 26, 1988 shall not exceed \$6,000, which I have determined to be reasonable. The contract, as amended, shall not exceed \$10,000, and the period of performance shall not be extended.

Because of the professional nature of the services to be provided under this agreement, and the expertise of the contractor in providing these serv-

ices, it is my determination that the public interest would not be served by public advertisement for bids.

This agreement is to be executed, without an appropriation of funds, under provisions of General Laws, chapter 44, S. 53A and is subject to the receipt of funds under grant from chapter 636.

Very truly yours,  
Laval S. Wilson,  
*Superintendent.*

#### Training Outreach for Parents

Dear Mr. Mayor:

On October 7, 1987, your Honor approved an award of a contract, without public advertising for bids, to Jeanne Lewis, a consultant located at West Roxbury, for training parent outreach workers for chapter 636 during the period from October 1, 1987, to June 15, 1988, at a cost not to exceed \$15,000.

Your approval is requested to amend this contract to provide for an additional thirty-five days of service, as the original number of hours necessary to complete this project was originally underestimated. The additional time is needed to assist with the development of school-based parent information centers. The cost of this amendment, which is effective on May 26, 1988, shall not exceed \$4,200, which I have determined to be reasonable. The contract, as amended, shall not exceed \$19,200 and the period of performance shall be extended to June 30, 1988.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing these services, it is my determination that the public interest would not be served by public advertisement for bids.

This agreement is to be executed, without an appropriation of funds, under provisions of General Laws, chapter 44, S. 53A and is subject to the receipt of funds under grant from chapter 636.

Very truly yours,  
Laval S. Wilson,  
*Superintendent.*

#### General Office Help

Dear Mr. Mayor:

On July 31, 1987, your Honor approved an award of a contract CO4275(88) to Olsten Services, New York, to provide general office help (1987-1988) for the period July 31, 1987, through June 30, 1988, at a cost not to exceed \$10,000.

On January 31, 1988, your Honor approved an amendment (see attachment A) for an additional \$10,000, increasing the not to exceed figure of the contract to \$20,000.

Your approval is requested to amend this contract for an additional \$15,000. After contacting vendors under contract, Olsten Services was the only vendor who can provide these services within the time frame needed by the School Department. The total contract as amended will not exceed \$35,000.

The reason for both amendments is due to the need to hire temporary accounting/clerical staff to review payment requests submitted by parents for school bus strike related costs incurred in January 1986, and September and October 1987. All Special Education students are eligible for compensation pursuant to a ruling by Judge Morse for the January 1986 strike. This second amendment is requested to cover costs incurred as a result of a second mailing to be distributed through the schools April and May as more than 60 percent of the eligible parents did not respond to the initial mailing. All parents who transported K-5 students to school

during September and October 1987 are eligible for \$3 per day reimbursement.

Very truly yours,  
Leo J. Burke,  
*Business Manager.*

#### TREASURY DEPARTMENT Counsel to Collector-Treasurer

Dear Mr. Mayor:

On or about July 1, 1987, your Honor approved award of a contract, without public advertising, to Joseph A. McGrail, Jr., an individual, located at Watertown, for professional services as counsel to the Collector-Treasurer for the Treasury Department.

Your approval is requested to amend this contract to provide for the payment of salary for the entire fiscal year which was not provided for in the terms of the original contract. Mr. McGrail's presence is needed throughout the remaining weeks of the fiscal year in order to assist me in carrying out the duties of temporary Collector-Treasurer, the position I have now held for several months.

The total amount of this amendment, which is effective on June 7, 1988, shall not exceed \$2,647, which I have determined to be reasonable. The contract as amended shall not exceed \$38,947.

The period of performance shall remain July 1, 1987, through June 30, 1988.

Respectfully yours,  
George E. Mahoney,  
*Temporary Collector-Treasurer.*

## BOSTON'S \$39M GENERAL OBLIGATION BOND SALE

The City of Boston has successfully completed the issuance of \$39 million in General Obligation Bonds. This sale marks the first general obligation offering since Boston received a bond rating upgrade by Moody's Investor Services in April from "Baal" to "A."

LuAnn Edwards, senior vice-president of Government Finance Associates, the city's financial adviser, estimates that Boston will achieve a savings of \$1.4 million in this current issue as a result of its recent upgrade. Boston's bond ratings have been upgraded three times in the last eighteen months, including an increase to "A-minus" by Standard & Poor's Corporation.

"These rating increases reflect our successful efforts to put Boston's financial house in order and to improve the management of city government," said Mayor Flynn. "This is good news for the residents and taxpayers of Boston, that by reducing our borrowing costs, we can allocate a greater share of our resources to the delivery of basic services."

The proceeds of the general purpose bonds will be used to fund capital projects under the Mayor's Five-Year Capital Plan. Several Boston public schools will soon receive some much-needed improvements and repairs, as will some of Boston's parks and recreational facilities. Over \$5 million is dedicated to the purchase of new equipment, including the purchase of rolling stock for the Fire Department. During the last five years, Boston has purchased over 85 percent of present frontline fire fighting apparatus under the capital plan. This equipment has replaced pumper and ladder trucks dating back to the late 60s and early 70s.

The bond sale is being negotiated by an underwriting group headed by Lazard Freres & Co. with two minority underwriting firms — Fitch, Miller & Tourse; and Budd, Wiley & Richlin — acting as co-counsel to the underwriters. Boston is the first city to name minority underwriting firms as part of its underwriting and bond counsel teams.

"It is a reflection of Mayor Flynn's commitment to minority business enterprise," said Raymond Dooley, director of administrative services. Boston has hired minority firms as part of its underwriting in the past, but this is the first time they are acting in a senior capacity."

Menino has also spoken of such a concept," Flynn added.

"I believe that when we recognize the contributions of immigrants from past generations and the immigrants of today in building Boston, that it is time an appropriate facility was established. What could be a better place than the home of Mayor Curley, the son of immigrants and the "Mayor of the Poor?" said Flynn.

The Mayor's Advisory Committee on the Curley House will be chaired by Francis Costello, regional director of acquisitions for the Flatley Company and co-chairman of the Afro-Irish Forum. Its membership includes: Boston City Council President Chris Iannella and Councillor Thomas Menino; Robert Beal, president of the Beal Companies and board member of the Museum of Fine Arts; Harold Hestnes, attorney with Hale & Dorr and chairman of the Boston Chamber of Commerce; Micho Spring, president of Boston Telecommunications Company and editorial board member of WCVB-TV; Van Lan Truong, advisor on Vietnamese Affairs for the City of Boston; Thomas O'Connor, professor of American History at Boston College; Jovita Fontanez, assistant director of the Basic City Services Division, Office of Neighborhood Services, City of Boston; Diane Payne, commissioner of Elderly Affairs, City of Boston; Rosemarie Sansone, director of Business and Cultural Affairs, City of Boston; Kathy Lavelle, Jamaica Plain resident and board member of the Jamaica Plain Historical Society; Jim King, vice-president of Public Affairs, Northeastern University; Margaret Morrison, staff assistant to the Mayor, City of Boston; Mary Baker, president of Boston Fair Share and board member of the Trustees of Charitable Donations; Billy Chin, restaurateur, and member of the Chinese Benevolent Association; Alden Gifford, partner of

### CURLEY HOUSE ADVISORY COMMITTEE

On Saturday, July 2, 1988, Boston Mayor Raymond L. Flynn announced the appointment of a committee which will recommend to him the best use of the home of the late Mayor of Boston, James Michael Curley. The Jamaica Plain mansion was recently purchased by the City of Boston.

In stating the mandate he has given the panel, which represents a cross section of individuals from civic, community and business affairs, Mayor Flynn said, "The announcement of this advisory committee is an important part of the city's effort to preserve the integrity of this beautiful landmark. True to the legacy of James Michael Curley, the individuals on this panel will develop a use for this facility that will reflect the diversity of this city and richness of our immigrant heritage.

"We will be open to suggestions for the future of the Curley House as a public landmark that can meet a number of cultural and educational uses. One use, however, that will be taken into account, and which, I stated should be provided for, is the establishment of a facility recognizing the contributions of immigrants to Boston. How this can best be accomplished is a challenge for this advisory group. Councillor Thomas

### STATE ACTION HINDERS CITY'S ABANDONED CAR REMOVAL EFFORT

A recent action by the State Department of Environmental Quality Engineering (DEQE), to regulate the storage and disposal of materials generated by the crushing of abandoned vehicles, has slowed Boston's efforts to remove abandoned vehicles from city streets.

Claiming high concentrations of PCBs in what is known as "auto fluff" DEQE ordered two of the largest shredding companies in the area to begin handling these residuals as hazardous materials. Prolerize of New England, the company to which Boston sends nearly all of its abandoned vehicles for processing, has halted its shredding operation until a resolution to the matter is obtained. As a result, the City of Boston has been forced to slow down its effort to rid the City's streets of abandoned cars.

Mayor Flynn said, "This ruling has a profound effect on the City of Boston's ability to remove abandoned cars from its local streets and it dangerously impacts both the environmental quality and public safety of thousands of Boston residents."

He added, "This sudden action, taken without any prior notification to the City of Boston, has virtually halted our ability to continue to dispose of abandoned vehicles. The City currently has over 100 vehicles sitting on its tow lot with no options for their disposal."

In recent years, the number of abandoned cars on the streets of Boston has risen dramatically. Due to a drop in the price of scrap metal, private contractors who paid the City \$40 per car four years ago now charge the City a minimum of \$80 for the removal and disposal of each vehicle abandoned within

city limits. This shift has resulted in a situation where it is easier and less costly for an individual to abandon an unwanted vehicle on a city street than to pay to have it properly removed.

The increase in the number of cars removed by the City of Boston in the past five years clearly illustrates the extent of the abandoned vehicle problem.

FY1984	1,450
FY1985	1,600
FY1986	2,800
FY1987	5,600
FY1988	10,000

To deal with the situation, in July of 1987 Mayor Flynn created an Abandoned Car Unit within the Transportation Department. In addition, in September of 1987, a Home Rule petition was filed to enable Boston to penalize, with fines up to \$500 and possible loss of license, those who abandon their cars. This legislation received unanimous support from the City Council in February and is currently pending in the Legislature.

Since last July, the Transportation Department has removed approximately 10,000 vehicles from local streets. The Department will continue to tow vehicles as long as storage space is available.

"Although the City has removed 10,000 vehicles this past year, on Boston's streets today, there are more than 600 cars that have been cited as abandoned with another 1,400 active requests from neighborhood residents for removal. We will continue to remove as many cars as possible until this matter is resolved," said Boston Transportation Department Commissioner Richard A. Dimino.

The City is currently searching for additional tow lots to store abandoned vehicles as well as researching alternative methods of disposal.

## TRUST PERFORMANCE

The City of Boston Trust Office announced on June 30, that the portfolio of the City's Trusts achieved an annualized return of 8.2 percent for a two year period ending March 31, 1988, outpacing inflation by more than 100 percent. As compared to similarly managed portfolios across the country, this performance has enabled the City's relative rank to increase from the bottom ten percent (Rank 91) to the top third (Rank 29) in five years. The conservatively managed funds are subject to state restrictions as well as a city ordinance governing investments of public funds in both South Africa and Northern Ireland.

Kevin M. Walsh, executive secretary of the City's Trust Office stated, "We are pleased by the performance of our funds. The financial markets over the last two years have been turbulent, and our financial management style has allowed us to achieve consistent growth. The performance of our stock portfolios are especially noteworthy since our funds are restricted from investing in firms doing business in South Africa and Northern Ireland. Our success clearly shows that moral and ethical values need not be sacrificed for financial performance."

During this period, the annualized rate of return of the Trusts stock portfolio was 9.3 percent, placing the Trusts performance in the top 20 percent of equity (stock) performance based on a nationwide sampling of similarly managed funds. ## 50 YEARS AGO IN THE CITY RECORD

**MAJOR TOBIN OPENS TENTH SEASON OF ESPLANADE CONCERTS — PAYS COMPLIMENT TO CONDUCTOR ARTHUR FIEDLER AND MEMBERS OF SYMPHONY GROUP WHOSE IDEALS AND EFFORTS HAVE RESULTED IN AL FRESCO ENTERTAINMENT THAT EACH DELIGHTS MORE AND MORE THOUSANDS OF GREATER BOSTON CITIZENS.**

The following, in part, were Mayor Tobin's remarks at opening of the tenth season of Esplanade concerts:

*President Warren and the Board of Trustees, Mr. Fiedler, Members of the Orchestra and Fellow Citizens.*

This is indeed a happy occasion. And it gives me great pleasure to come here to assist in celebrating the opening of the tenth season of these Esplanade concerts, and to convey to you all the official greetings of the City of Boston. I had no idea, music-loving as the Boston public is, that this worthwhile undertaking could be carried on year after year, attracting not only sufficient financial support but constantly increasing public interest.

No other city, so far as I can learn, offers the public, free from any admission charge, symphonic concerts, by members of a major orchestra. And I doubt if any other city could have so much interest in similar concerts.

We all know something of the story of the Symphony Orchestra and the development of music in Boston. The orchestra, founded in 1881 by the late lamented Major Henry L. Higginson,

played for years in the Old Music Hall. There were only sixty-seven musicians at first. Soon there was a demand for Pop Concerts, and they were held there until the present Symphony Hall was constructed.

The orchestra was most fortunate in having not only a notable citizen and ardent music-lover as its founder but a notable musician as its first leader, the talented Henschel. The orchestra has been fortunate in the talent of its leaders since that time — Gericke, Nikisch, Paur, Muck, Fiedler, and Koussevitsky.

It goes without saying that the orchestra, in fact, the entire City of Boston, has been fortunate in having a son of one of the great leaders, Mr. Fiedler, conduct its Pop Concerts and these Esplanade concerts. Mr. Fiedler is a musician of the highest talent and a citizen who has won all hearts by his modesty, his ability and his public spirit.

To maintain an orchestra of the size of the Boston Symphony has been no easy task, especially during those periods of depressing days when so many worthy objects claimed the attention of the public.

Major Higginson stood fast in his devoted friendship as long as he lived, and the public has never known the full extent of his generous bounty in order that the orchestra might be developed to its maximum power and never bow to defeat for lack of support. Boston should always keep in fond memory the life of this noble philanthropist who made the Boston Symphony Orchestra one of the few great orchestras in the world.

Since Major Higginson's death, the work he relinquished has been continued with marked success by a group of able, public-spirited, music-loving people. We pay tribute to them tonight and express the hope that their devotion will always remain in grateful memory of the public.

What an opportunity our people have to enjoy the best music the world affords, not only in Symphony Hall, but in the open air on the banks of the Charles!

With music impressing our people as it does; with education playing so large a part in our personal and public affairs, and in our government; and with a lively development of community spirit, we need not despair of the future.

I congratulate the trustees of this foundation, Conductor Fiedler, mem-

bers of the orchestra and the City of Boston, on the continued success of this wonderful undertaking. May we never grow indifferent to its value in our complex modern life.

## IBA FUNDRAISING FEAST

IBA is having an important, very Latin party September 29.

IBA — Inquilinos Boricuas En Accion — is announcing a major fundraising feast to celebrate twenty years of leadership within the Hispanic community of Boston.

The dinner-dance-fundraiser named "CULTURA VIVA II" will be a classic Latin party, held at the Copley Plaza Hotel, Thursday evening, September 29, 1988, at 6 p.m. It is the second annual celebration of progress and promise in the Hispanic community.

IBA's preeminent accomplishment in its first twenty years has been developing Villa Victoria — 857 units of affordable housing in the South End. Villa Victoria is a vibrant Hispanic community, planned and built in the Puerto Rican style around a central plaza. The newest addition to this community is the Jorge Hernandez Cultural Center, dedicated just two years ago.

Funds generated by the September 29 fundraiser will be used to support the Cultural Center and IBA's operations.

There is a great deal of accomplishment for IBA to celebrate. Villa Victoria is a model of community development nationwide. Resident-owned and controlled services within Villa Victoria include a credit union, senior citizen programs, a youth center, a day care center, an AIDS hotline and a small market. The Villa also has its own cable television station, complete with its own production facilities.

Perhaps the most exciting part of IBA is its willingness to accept challenges — and there has never been a lack of those.

Currently, dealing with the ever-increasing pressure from real estate development is IBA's number one priority. In order for affordable housing to remain a reality, constant and aggressive vigilance is essential. Quality of life for the next generation is at stake, as subsidies expire on the loans used to build Villa Victoria. IBA sees this crisis as its most important challenge — and IBA is meeting it.

So CULTURA VIVA II is also the kick-

off for twenty more years of continued progress for the Hispanic community. Two awards will be made: one for Latino Community Leadership, the other for Community Development Leadership. As was the case last year, these awards are national in scope and will receive national attention.

IBA board member, Jovita Fontanez, is chairperson of CULTURA VIVA II. She has been an important part of IBA since 1968 when the cry, "No nos mudaremos de la Parcel 19!" was heard, IBA was founded, and Parcel 19 was designated Villa Victoria. As was true last year, at the first CULTURA VIVA, success depends on the active participation of every Bostonian who cares about Hispanic affairs.

Planning Committees have been formed. Headline performers and guests of honor will be announced soon.

For further information, for reservations, and/or to volunteer help, contact Jovita, or phone Jane Bowers at 536-3426.

## KENNEDY, FLYNN TO DISCUSS FEDERAL ROLE IN BUILDING AFFORDABLE HOUSING

Congressman Joseph P. Kennedy, III, Boston Mayor Raymond L. Flynn and Paul S. Grogan, president of the New York-based Local Initiatives Support Corporation (LISC), recently awarded funds to five community groups which are developing low-cost housing.

Recipients of the grants, which range from \$35,000 to \$65,000, are IBA (Inquilinos Boricuas en Accion), the Dorchester Bay Economic Development Corp., Lena Park Housing and Community Development Corp. (Roxbury), Boston Aging Concerns, Inc., and Homeowners' Rehab, Inc. (Cambridge). Funding is awarded through the Neighborhood Development Support Collaborative (NDSC), a consortium of 14 agencies — including LISC, the United Way of Massachusetts Bay and the Ford Foundation — which have contributed \$4.5 million to upgrade the management capacity of local non-profit housing developers. This is the second year NDSC has awarded operating grants.

Congressman Kennedy and Mayor Flynn have been leaders in the fight for

affordable housing across the country, and have jointly sponsored H.R. 3891, the Community Housing Partnership Act, which would provide federal funds to community groups such as those receiving NDSC grants. Mr. Grogan, who formerly headed Mayor Flynn's housing development agency, has been president of LISC, the largest private, non-profit community development organization in America, for three years. Since its creation in 1980, LISC has assisted nearly 500 neighborhood groups in building more than 13,000 units of affordable housing in Boston and 29 other cities nationwide.

## BOSTON'S ENTREPRENEURIAL SPIRIT

Mayor Raymond L. Flynn saluted the entrepreneurial spirit of local minority business people on July 6th, when he joined new owner, Charles Grigsby, at his Roxbury-based millworking company.

The Boston Local Development Corporation (BLDC), the lending affiliate of Boston's Economic Development and Industrial Corporation, participated in a \$2.4 million financial package that enabled Grigsby to buy the fifty-two-year-old Scott & Duncan Company. This effort by the city highlights the Mayor's long-time commitment to promoting minority business and economic development in Boston neighborhoods.

1988). Rev. Welch has supplied chaplaincy

#### Mammography Unit Repairs

Sir:  
rsuant to the authority delegated to me by the  
l of Health and Hospitals, I respectfully re-  
your Honor's permission to dispense with  
ic advertising and award a contract to G. E.  
al, Westwood, for the period July 1, 1988,  
h June 30, 1989, at a cost not to exceed  
\$2.

er this contract, G. E. Medical Company will  
le, during the hours 8 a.m. and 5 p.m., all

parts, labor travel and preventive maintenance to  
the following: one Technicare DSA DR-960-B Unit,  
\$25,752.

In addition, G. E. Medical Company will provide  
repairs as needed on one Mammography Unit in  
the amount of \$7,000.

In the past, the above services was provided by  
G. E. Medical Company (formerly Technicare Cor-  
poration). G. E. Medical has provided the depart-  
ment with quality maintenance service for fiscal  
year 1988 in the following amount — \$35,135.12.  
Prior to this time, Technicare Corporation has been  
awarded unadvertised contracts in the following  
amounts: 1987 — \$33,180; 1986 — \$32,912.

Therefore, inasmuch as G. E. Medical (formerly  
Technicare Corporation) is the manufacturer, has  
the necessary parts in stock, has personnel spe-  
cially trained to repair and maintain the above  
equipment, and as the cost, in my opinion, is rea-  
sonable, no benefit would inure to the city by pub-  
licly advertising for bids.

Very truly yours,  
Lewis W. Pollack,  
Commissioner.

#### Electronic Thermometers, etc.

Sir:  
Pursuant to the authority delegated to me by the  
Board of Health and Hospitals, I respectfully re-  
quest your Honor's permission to award a contract,  
without advertising, to Sherwood Medical, Hospital  
Products Division, Missouri, for the period July 1,  
1988, through June 30, 1990, at a cost not to ex-  
ceed \$50,000.

Under this contract, Sherwood Medical will sup-  
ply parts, replacement thermometers and dispos-  
able probe covers for electronic thermometers  
which became the property of the Department of  
Health and Hospitals on June 30, 1987, after a two  
year leasing contract.

During the past year, the Biomedical Engineer-  
ing Department at Boston City Hospital has been  
able to repair these thermometers when broken  
and the program has been cost-effective for the de-  
partment. Sherwood Medical has agreed to extend  
the present pricing for an additional two years.  
Probe covers will remain at \$25 per thousand; addi-  
tional 1,010 thermometers may be purchased at  
\$200 each, F.O.B. New York; parts can be pur-  
chased at the current list price.

Because Sherwood Medical is the manufacturer  
and has available parts and because the prices, in  
my opinion, are reasonable no benefit would inure  
to the city by publicly advertising for bids.

Very truly yours,  
Lewis W. Pollack,  
Commissioner.

#### Ultrasound Unit Maintenance

Sir:  
Pursuant to the authority delegated to me by the  
Board of Health and Hospitals, I respectfully re-  
quest your Honor's permission to dispense with  
public advertising and award a contract to Acuson,  
Inc., California, for the period July 1, 1988, through  
June 30, 1989, at a cost not to exceed \$14,600.

Under this contract, Acuson, Inc. will provide  
service maintenance to include parts, labor and  
travel weekdays for 8 a.m. to 5 p.m. and any soft-  
ware update as it becomes available for the fol-  
lowing equipment located in the Radiology Depart-  
ment at Boston City Hospital: Acuson 128  
Ultrasound Unit, Matrix Camera Model 1010.

Acuson, Inc. has been awarded unadvertised  
contracts for the past three fiscal years for the  
amount of: 1988 — \$14,100; 1987 — \$13,500;  
1986 — \$9,150.

Therefore, because Acuson, Inc. is the manufac-  
turer and has the personnel specially trained to  
service the above equipment at a cost I consider to  
be reasonable, no benefit would inure to the city by  
publicly advertising for bids.

Very truly yours,  
Lewis W. Pollack,  
Commissioner.

#### Coulter Counter Services

Dear Sir:  
Pursuant to the authority delegated to me by the  
Board of Health and Hospitals, I respectfully re-  
quest your Honor's permission to dispense with  
public advertising and award a contract to Coulter  
Electronics, Inc., New Jersey, for the period July 1,  
1988, through June 30, 1989, at a cost not to ex-  
ceed \$13,200.

Under this contract, Coulter Electronics, Inc. will  
provide a full-service contract to include parts, la-  
bor and travel on a 24-hour basis, 7 days a week,  
with a on-site response within 4 hours, for the Coul-  
ter S plus 4, serial 7167.

In fiscal year 1986 Coulter Electronics, Inc. the  
manufacturer of this equipment, was awarded an  
unadvertised contract for service of Coulter  
Counter S plus 4 for the following amount, \$17,640.  
In 1987, a contract was awarded, as a result of pub-  
lic bid, to Beckman Instruments, Inc. in the amount  
of \$13,200. However, delays in repairs due to lack  
of system knowledge and parts were not uncom-  
mon, and therefore the department has chosen to  
return to the manufacturer for service of this so-  
phisticated equipment.

Therefore, because Coulter Electronics, Inc. is  
the manufacturer and has the personnel specially  
trained to service this equipment, and as the cost,  
in my opinion, is reasonable, no benefit would inure  
to the city by publicly advertising for bids.

Very truly yours,  
Lewis W. Pollack,  
Commissioner.

#### Motorola Radio Repairs

Dear Sir:  
Pursuant to the authority delegated to me by the  
Board of Health and Hospitals, I respectfully re-  
quest your Honor's permission to dispense with  
public advertising and award a contract to Mo-

through June 30, 1989, at a cost not to exceed  
\$95,935.

Under this contract, Motorola, Inc. will provide  
programmed maintenance and repair of Motorola  
radio communications equipment owned by the  
Department of Health and Hospitals' EMS Ambu-  
lance Service. The total cost for programmed  
maintenance of fixed-base equipment and mobile-  
/portable equipment will be \$60,000. Miscellane-  
ous repairs will be performed on a time and mater-  
ial basis at the rate of \$60 per hour.

lowing amounts: 1988 — \$91,980; 1987 —  
\$90,000; 1986 — \$111,536.

Therefore, as Motorola, Inc. is the manufacturer,  
and is capable of providing the engineering sup-  
port and inventory of parts necessary to meet the  
needs of the department, and as the cost, in my  
opinion, is reasonable, no benefit would inure to  
the city by publicly advertising for bids.

Very truly yours,  
Lewis W. Pollack,  
Commissioner.

#### Marquette Case 12 Repairs, etc.

Dear Sir:  
Pursuant to the authority delegated to me by the

Board of Health and Hospitals. I respectfully request your Honor's permission to dispense with public advertising and award a contract to Marquette Electronics, Inc., Wisconsin, for the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$2,664.

All repairs and maintenance will be performed during normal working hours.

Therefore, because Marquette Electronics, Inc. is the manufacturer, and has the personnel specially trained to service the above equipment, at a cost I consider to be reasonable, no benefit would inure to the city by publicly advertising for bids.

Very truly yours,

Lewis W. Pollack,  
*Commissioner.*

Dr. McClintock resigned her position with the hospital, effective July 1987. Prior to this, these services were not required by the hospital.

As Dr. Smith is a specialist in this field, because of the professional nature of the services to be provided, and as the cost, in my opinion, is reasonable, no useful purpose would be served by publicly advertising for bids.

Very truly yours,

Lewis W. Pollack,

All of these tests are for Boston City Hospital patients.

Brigham and Women's Hospital has provided an excellent quality service in the past, which has met with the approval of physicians. Unadvertised contracts have been awarded to Brigham and Women's Hospital for the past three fiscal years in the following amounts: 1988 — \$25,550; 1987 — \$35,000; 1986 — \$25,000.

Therefore, because Brigham and Women's Hospital is the only vendor in the area that performs these test on a stat basis, and also because the cost, in my opinion, is reasonable, no benefit would inure to the city by publicly advertising for bids.

Very truly yours,

Lewis W. Pollack,

Therefore, because Physio Control is the manufacturer and has the personnel specially trained to maintain and repair the above equipment, at a cost I consider to be reasonable, no benefit would inure to the city by publicly advertising for bids.

#### JOBS AND COMMUNITY SERVICES

##### Day Care Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to Infants and other People, a nonprofit corporation, located at 464 Tremont Street, for the purpose of providing day care services.

Under the terms of the contract, the contractor will provide day care services to a total of twenty-seven infants, toddlers, pre-school and after-school children. These services will be funded in conjunction with the State's Department of Social Services Public-Private Partnership, in which the city contributes up to a 25 percent local share. The contractor was selected based upon an evaluation of refunding proposals submitted to both DSS and

the Mayor's Office of Jobs and Community Services. Other selection criteria include the results of site monitoring visits conducted by JCS staff, an overall review of the contractor's performance during the prior contract period, administrative capability, reasonableness of cost, and the ability to serve the targeted population. Costs are determined by rates set by the State Rate Setting Commission and a negotiated number of service units determined by both DSS and JCS.

Sincerely,

Neil H. Gordon,  
*Associate Director*

Under the terms of the contract, the contractor will provide pre-school and after-school day care services to forty-one children. These services will be funded in conjunction with the State's Department of Social Services Public-Private Partnership, in which the city contributes up to a 25 percent local share. #### LIBRARY DEPARTMENT

##### IBM Machines Rental

Dear Mr. Mayor:

The Board of Trustees in charge of the Library Department of the City of Boston respectfully re- quests the approval of your Honor for the award of a contract, without public advertising, to Interna- tional Business Machines Corporation, a corpora- tion having places of business at New York, and One Copley Place, for the rental of certain IBM ma- chines during the period July 1, 1988, through June 30, 1989.

The rental of equipment will enable the library to continue its program of data processing activities which was initiated in 1966 whereby, using IBM equipment, many internal service operations have been automated. Inasmuch as only IBM can pro- vide its own equipment, no useful purpose would be served by advertising for bids. The total cost for the rental of the equipment during the period of the contract is estimated to be \$30,250. During Fiscal Years 1987 and 1988, the annual cost was \$27,500. In Fiscal Year 1986, the cost was \$25,000; and in Fiscal Year 1985, the cost was \$75,000. IBM has performed to the satisfaction of the official to date.

In view of the above, the Board of Trustees in charge of the Library Department, acting in the name of and for the City of Boston, has voted, that, without public advertising, there be entered into with International Business Machines Corporation, a corporation having places of business in Armonk, New York, and One Copley Place, a contract for rental of certain data processing equipment during the period July 1, 1988, through June 30, 1989, the total rental thus charged to be subject to the terms, agreements, and conditions set forth in said con- tract.

The approval of your Honor for the award of this contract, without publicly advertising for bids, to the International Business Machines Corporation, as above, is hereby requested. In the opinion of the official, the cost is reasonable for the services to be rendered.

Respectfully,  
Arthur Curley,  
Director and Librarian.

##### Engineering Services

Dear Mr. Mayor:

Ever since the 1890s when the Boston Public Li- brary was relocated to Copley Square, it has been necessary to have periodic examination made of its building settlement levels for the safety of the public and for the protection of the magnificent buildings as well as their contents. This examina- tion has been performed from the beginning by the firm of engineers, the J. R. Worcester & Co., and more recently by their successors, the firm of Gil- bert Small & Co., Inc.

The firm of Gilbert Small & Co., Inc. is especially

qualified because of exhaustive studies of the li- brary's conditions made by it over the past three- quarters of a century. It has a complete file of all pertinent yearly data relative to the water table dur- ing this period. In addition, it has a thorough fami- liarity with the buildings, geological conditions, etc. of the Copley Square area. The cost of this firm's services for July 1, 1988, through June 30, 1989, is not to exceed \$11,500.

The Board of Trustees in charge of the Library Department of the City of Boston, acting for and in behalf of the City of Boston, has therefore taken the following action:

Voted, that there be entered into, without public advertising, with Gilbert Small & Co., Inc., Needham, a service agreement for the examina- tion of building levels at one Central Library Build- ing (Johnson) during the period July 1, 1988, through June 30, 1989, the total fee thus charged to be subject to the terms, agreements, and condi- tions set forth in said agreement.

In view of the foregoing, and because in the opin- ion of the official the cost is reasonable for the serv- ices to be rendered, the permission of your Honor is respectfully requested to enter into this agree- ment with Gilbert Small & Co., Inc.

Respectfully,  
Arthur Curley,  
Director and Librarian.

##### Rental Data Display Terminals, etc.

Dear Mr. Mayor:

On July 7, 1986, there was entered into with Marketechs, Inc., Wellesley, a contract for the rental and maintenance of data display terminals during the period July 1, 1986, through June 30, 1987, with option for renewal as of July 1, 1987, and as of July 1, 1988, at the bid price.

Your Honor gave approval for the award of this contract following a public advertisement and pub- lic opening of bids. Bids have been invited and sub- mitted for the above-mentioned work to be per- formed during the period July 1, 1986, through June 30, 1987, with option for renewal as of July 1, 1987, and as of July 1, 1988, at bid price.

During the period from July 1, 1986, to date, Marketechs, Inc. has performed to the satisfaction of the library. Its acquaintance with the library's data processing equipment should be a desirable asset if the firm is allowed to continue the contract for another year.

In view of the foregoing the Board of Trustees in charge of the Library Department, acting for and in behalf of the City of Boston, and wishing to exer- cise the option of the Official, has taken the follow- ing action:

Voted, that, without further advertising, there be entered into with Marketechs, Inc., Wellesley, a re- newal agreement for the rental and maintenance of data display terminals during the period July 1, 1988, through June 30, 1989, at a total cost not to exceed \$42,372.

The permission of your Honor is hereby re- quested to award this contract to Marketechs, Inc. as above. In the opinion of the official the amount, \$42,372, is reasonable for the services to be ren- dered.

Respectfully,  
Arthur Curley,  
Director and Librarian.

##### Fire Alarm Systems Services

Dear Mr. Mayor:

On July 20, 1987, there was entered into with Aetna Fire Alarm Service Co., Inc., 43 Lenoxdale Avenue, a contract for the inspection, testing, and

servicing of fire alarm systems and sprinkler systems at the General Library and at the Dudley Street Branch, as specified in the specifications, during the period July 1, 1987, through June 30, 1988.

Your Honor had given approval for the award of a contract following a public advertisement and a public opening of bids. Bids were invited and submitted for the above-mentioned work to be performed during the period July 1, 1987, through June 30, 1988, with official's option for renewal as of July 1, 1988, and as of July 1, 1989, at bid price. A contract for similar work at other library locations was awarded to ADT, Inc.

During the period from July 1, 1987, to date, Aetna Fire Alarm Service Co., Inc. has performed to the satisfaction of the library. That firm's knowledge of the library's fire alarm system and its problems should be a desirable asset if the firm is allowed to continue the contract work for another year.

In view of the foregoing, the Board of Trustees in charge of the Library Department, acting for and in behalf of the City of Boston, and wishing to exercise the option of the official, has taken the following action:

Voted, that there be entered into with Aetna Fire Alarm Service Co., Inc., 43 Lenoxdale Avenue, a renewal agreement for the inspection, testing, and servicing of fire alarm systems and sprinkler systems at the General Library at a rate of \$195 per month, and at the Dudley Street Branch at a monthly rate of \$120; and for answering emergency calls and all stray and overtime calls at a rate of \$45 per hour for regular hours and at \$67.50 per hour for other hours; at a total cost not to exceed \$6,030.

The permission of your Honor is therefore respectfully requested to enter into a renewal agreement with Aetna Fire Alarm Service Co., Inc. for the above-mentioned work at the original bid price of \$6,030. In the opinion of the official, the cost is reasonable for the services to be rendered.

Respectfully,

Arthur Curley,  
Director and Librarian.

#### Data Processing Equipment Maintenance

Dear Mr. Mayor:

Authority is requested to award a contract, without public advertising, to International Business Machines Corporation, New York, with local offices at One Copley Place, for the maintenance of previously installed data processing equipment which the library purchased under two separate agreements, one on September 30, 1981, and the other on August 1, 1982. This contract is for the period July 1, 1988, through June 30, 1989, at a monthly rate not to exceed \$1,375, and an annual rate not to exceed \$16,500. The total cost for Fiscal Year 1988 will not exceed \$15,000. The total cost for Fiscal Year 1987 was \$22,000. For Fiscal Years 1985 and 1986, the annual cost did not exceed \$20,000. To date IBM has performed to the satisfaction of the official.

Under this maintenance contract, IBM will provide all materials and perform all of the work necessary and incidental to providing preventative and remedial maintenance services for the above-mentioned data processing equipment.

Inasmuch as IBM is the manufacturer, its technicians are trained specifically to maintain and repair all of the equipment it manufactures, and parts are readily accessible, it is the opinion of the Board of Trustees in charge of the Library Department of the City of Boston that public advertising would serve no useful purpose and the best interest of the city would be served by awarding this contract to IBM.

The following action has been taken:

Voted, that without public advertising, there be entered into with International Business Machines Corporation, a corporation having places of business at New York, and One Copley Place, a contract for maintenance of certain data processing equipment during the period July 1, 1988, through June 30, 1989, the total amount thus paid to be subject to the terms, agreements, and conditions set forth in said contract.

Because, in the opinion of the official, the cost to the city is reasonable for the maintenance service to be rendered, and in view of the foregoing, the permission of your Honor is hereby requested to award this contract to International Business Machines Corporation as above.

Respectfully,

Arthur Curley,  
Director and Librarian.

#### LICENSING BOARD

##### Public Information Packages

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising in the awarding of a contract to Peter Woloschuk of Dorchester, for public information services to be rendered to this board. Mr. Woloschuk has agreed to perform these services for a fee of \$40 per hour. This is less than half of his usual hourly rate and is well below the market rate for such services in Boston. The total cost of this contract will not exceed \$15,000. This contract shall be for the period of July 1, 1988, to June 30, 1989.

Mr. Woloschuk will prepare public information packages to inform and educate the public about the activities of the board. He has performed this function in the past fiscal year on a very limited basis. He will also assist the board in making a video tape to be used for the education and training of police officers.

It is important that this task be performed by a person who has a good working relationship with the board and someone in whose abilities the board has the highest confidence. Since Mr. Woloschuk fulfills these qualifications and is willing to perform the service at an acceptable city rate, there would be no benefit to the board or to the public in advertising this contract for public bidding.

Very truly yours,

Andrea W. Gargiolo,  
Chairwoman.

#### POLICE DEPARTMENT Servicing of Equipment

Dear Mayor Flynn:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Omnifax/Telautograph Corporation, a corporation, located at California, for the maintenance and service of the Police Department's omnifax machines.

Under the terms of the contract, Omnifax/Telautograph Corporation will provide maintenance and service of the fourteen Omnifax G-93 machines used by various units of the Police Department. The cost of the service is \$400 per Omnifax machine. The term of the contract is July 1, 1988, through June 30, 1989.

Omnifax/Telautograph is specifically qualified to perform this work because they are the equipment's manufacturer, they possess the expertise and knowledge necessary to service them and have swift access to replacement parts. It is imperative that the Omnifax machines operate at optimum performance as they play an important role in our communication network.

Compensation under this contract shall not exceed \$5,600, which I have determined to be reasonable for the work to be performed. This fund will be charged against appropriation 011 211 02 PD03 0270 with an initial encumbrance of \$5,600.

Omnifax/Telautograph Corporation previously provided maintenance for this equipment, after expiration of their warranty, on a service order Fiscal Year '87 for \$1,800, and under contract Fiscal Year '88 for \$5,600.

Because Omnifax/Telautograph Corporation is specially qualified to do this work for a reasonable price, I believe that public advertising would serve no useful purpose.

Respectfully,

Francis M. Roache,  
Police Commissioner

Dear Mayor Flynn:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Ketterman's, Inc., a corporation located at Texas, for the repair and maintenance of the Police Department's DataMAXX equipment.

Under the terms of the contract, the contractor will provide for the maintenance and repair of Police Department's DataMAXX equipment located in the Commonwealth's Department of Public Safety at 1010 Commonwealth Avenue. The equipment includes sixteen EXT 1200 terminal sixteen T1850XL printers, one EXXPertII PC one memory card which allows the department to be tied into the National Law Enforcement work's CJIS and NCIC systems. Through this equipment, the Police Department is allowed to collect information which would otherwise be available to our investigatory units. The CJIS and NCIC Data Systems are a valuable addition to intelligence gathering capabilities.

Ketterman's, Inc. is specifically qualified to perform this work because they are the sole and authorized maintenance dealer for DataMAXX USA Corporation equipment.

Compensation under the contract shall be at a rate of \$712 per month, which I have determined to be reasonable for the service to be performed. The total amount of this contract shall not exceed \$8,544. This funding will be charged against appropriation 011 211 0211 PD02 0270 with an initial encumbrance of \$8,544. The term of this contract shall be from July 1, 1988, through June 30, 1989. Ketterman's, Inc. had one prior contract with the Police Department in FY '88 for \$6,408.

In light of the fact that Ketterman's, Inc. is the company possessing the knowledge and expertise to maintain this equipment and given the importance of this equipment to our intelligence gathering network, it is submitted that public advertising would serve no useful purpose.

Respectfully,

Francis M. Roache,  
Police Commissioner

Dear Mayor Flynn:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Data General Services, Inc., a corporation, of Milford, for servicing of various equipment for the period commencing July 1, 1988 through June 30, 1989, at a total charge of \$102,120.

In addition to the cost of \$99,120, an additional \$3,000 is required to cover charges for forming emergency repairs outside normal times. The total contract price for servicing equipment from July 1, 1988, through June 30, 1989, is not to exceed the sum of \$102,120.

ve determined to be reasonable. This funding be charged against appropriation 011 211 0211 05 0270 with an initial encumbrance of \$2,120.

The equipment was purchased by the Boston Police Department as the computer aided dispatch item. The department contracted with Data General Services, Inc., for the repair and maintenance of this equipment in Fiscal Year 1986 for \$4,132, Fiscal Year 1987 for \$95,664, and in Fiscal Year 1988 for \$102,120. In light of the fact that a General Services, Inc. is the manufacturer and sole provider of maintenance for this equipment, it is submitted that public advertising would have no useful purpose. As this service is necessary for the safety of Boston's citizenry, your permission is respectfully requested to approve the award of this contract.

Respectfully,  
Francis M. Roache,  
Police Commissioner.

#### Printing Services

Mayor Flynn:  
In response to an advertisement published in the Record on April 25, 1988, for printing services the Graphic Arts Section of the Boston Police Department, the following bid was publicly opened and read at 12 noon, on May 10, 1988: Benjamin Franklin Smith Printer, Inc., 320 Stuart Street — 339.

The proposal submitted by Benjamin Franklin Smith Printers, Inc. has been found to be legally defective because a duplicate proposal was not submitted to the City Auditor.

As much as Benjamin Franklin Smith Printer, Inc. is an otherwise responsible and qualified bidder and inasmuch as Benjamin Franklin Smith Printer, Inc. submitted the only bid which I have determined to be reasonable, your permission is requested to reject all bids and award this contract to advertising to Benjamin Franklin Smith Printer, Inc., 320 Stuart Street, for the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$24,339. This funding will be charged against appropriation 011 211 0211 PD03 0290 an initial encumbrance of \$24,339.

Benjamin Franklin Smith Printer, Inc. had a contract with this department for the previous two fiscal years, for \$20,000 in FY '88, and for \$15,000 in FY '87.

Respectfully,  
Francis M. Roache,  
Police Commissioner.

#### Printing Equipment Repairs

Mayor Flynn:  
I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Genicom Corporation located at New Bedford, for the repair and maintenance of the Police Department's Centronics/GENICOM printers.

Under the terms of the contract, the contractor will provide maintenance of the two Centronics/GENICOM printers Model 501 used by the Police Department's Bureau of Administrative Services. These two particular printers are not covered under the master contract between the City of Boston, MIS Department and Genicom Corporation. Genicom Corporation is uniquely qualified to provide this service as they are the printer's manufacturers, and therefore, possess the knowledge and expertise to maintain this equipment.

Compensation under this contract shall not exceed \$2,208, which I have determined to be reasonable for the service to be performed. This funding will be charged against appropriation 011 211

0211 PD03 0270 with an initial encumbrance of \$2,208. The term of the contract shall be from July 1, 1988, through June 30, 1989. Genicom Corporation had one prior contract with the Police Department in FY '88 for \$2,208.

In light of the fact that Genicom is the printer's manufacturer and sole provider of maintenance, it is submitted that public advertising would serve no useful purpose.

Respectfully,  
Francis M. Roache,  
Police Commissioner.

#### PUBLIC WORKS DEPARTMENT

##### Refuse Collections

Dear Mr. Mayor:

Contracts for refuse collection in the various Public Works Districts of the City expire June 30, 1988. These contracts include option renewal provisions under which the city may elect to continue the present collection contracts for the period July 1, 1988, to June 30, 1989.

The services provided by the present contractors have been very satisfactory and there would be no advantage to be gained in not exercising our option for renewal and by inviting bids for this work.

Therefore, I respectfully request your authorization to dispense with further public advertising and enter into contracts for collecting and removing refuse for the period July 1, 1988, to June 30, 1989 (fifty-two weeks and one day) with the following listed contractors at the current contract prices, the total amount to be paid under each contract not to exceed the amounts listed below:

#### SCHOOL DEPARTMENT

##### Xerox Equipment Maintenance

Dear Mr. Mayor:

On behalf of the School Committee of the City of Boston, I request your authorization to award a contract, without public advertisement, to Xerox Corporation, 155 Federal Street, for furnishing maintenance of equipment for the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$650,000.

Under the terms of this contract, Xerox Corporation will provide maintenance for previously installed Xerox copiers, duplicators and memorywriters including all parts and labor.

Since the Xerox Corporation has provided services of a specified nature, has performed satisfactorily and the cost to the city is deemed reasonable by the business manager, public advertising would serve no useful purpose.

Compensation to this vendor during the past three fiscal years in the form of unadvertised contracts is as follows: 1985-1986, \$400,000; 1986-1987, \$500,000; 1987-1988, \$550,000.

Very truly yours,  
Leo J. Burke,  
Business Manager.

#### Supplies for Copier

Dear Mr. Mayor:

Under state law, any Massachusetts municipality may make purchases under state contracts which have been publicly advertised and awarded by the Collective Purchasing Bureau, Department of Administration and Finance. In order to take advantage of these state contracts, the city's Law Department has ruled that the city must award its own contracts, based on the state awards.

Because this can only be accomplished by dispensing with public advertising, your permission is requested to award a contract, without public advertisement, to Xerox Corporation, 155 Federal Street, for the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$150,000. Under the terms of this contract, the contractor will provide supplies for copying machines (dry ink, developer, fuser oil) as listed in the Xerox Corporation contract with the State.

This company provides services of a specific nature; is qualified to provide these services and has performed satisfactorily over a period of years. For these reasons, it is my determination that the public interest would not be served by public advertising for bids.

Very truly yours,  
Leo J. Burke,  
Business Manager.

##### Data Processing Services, etc.

On July 22, 1987, your Honor approved an award of a contract, without public advertising, to Computer Assistance Inc., Wellesley, for consulting and data processing services. These services consist of alterations, improvements and correction of problems that arise in the operation of our IBM 36 computer system for Recorded and Registered Land.

We will be introducing and programming a partially new system for Recorded Land and continue to program on our system recordings for the Assessing, Collector-Treasurer Departments and Bankers Tradesman's weekly publication.

Because of the professional nature of the services to be performed and their knowledgeable familiarity with our present programs, I believe that public advertising would serve no useful purpose.

## CONTRACTS AMENDED

The Mayor has approved the amending of the following contract based on the following information:

### ASD, PURCHASING DIVISION

### Computer Equipment and Accessories

Dear Mr. Mayor:

On December 4, 1987, your Honor approved the award of an unadvertised contract, No. 1522WA, Wang Laboratories, Inc. (Wang) to provide computer equipment and/or accessories (CC: 205-9) to various city departments for delivery from November 1, 1987, through June 30, 1988.

It now appears that the amount originally stated in this contract will prove to be insufficient to satisfy the city's requirements through June 30, 1989. Wang has agreed to furnish whatever additional quantities the city may require at the same price Wang had originally bid under this contract.

Because Wang is presently under contract to supply computer equipment and/or accessories to the various city departments, it is my opinion that the best interests of the city would be served

ending Wang's existing contract without further advertising.

Therefore, your Honor's permission is respectfully requested to amend contract No. 1522WA with Wang Laboratories, Inc., Lowell, by increasing the contract amount by \$220,000, from \$550,000, to an amount not to exceed \$770,000, a cost I consider reasonable. This amount is an estimate based on projected requirements.

For the reason stated above, I believe that further public advertising would serve no useful purpose.

Respectfully yours,  
John F. Scalcione,  
Purchasing Agent.

## JOBS AND COMMUNITY SERVICES

### Skills Training Programs

Dear Mayor Flynn:

On or about September 11, 1986, your Honor approved the award of a contract to Action for Boston Community Development, Inc., a nonprofit corporation, located at 178 Tremont Street, for the purpose of operating a number of skills training programs for Job Training Partnership Act eligible participants. Compensation was for an amount not to exceed \$427,791, payment being made from DPW funds and funds provided under the Targeted Assistance Grant program for the period July 1, 1986, until June 30, 1987. This contract was subsequently amended, approved by your Honor on June 24, 1987, increasing compensation in the amount of \$130,470, to provide assessment and training services to clients receiving welfare assistance, and to provide food service training for dislocated workers formerly employed at P & L Sports Center. Funding for this amendment was provided by the Department of Public Welfare and the Division of Employment Security, the latter using Title III funds available under the Job Training Partnership Act. In addition, this contract was later amended and approved by your Honor on or about September 24, 1987, to provide for possible incentive payments to be earned by the contractor in the amount of \$26,900.

Your approval is requested to further amend this contract in terms of compensation. The purpose of the amendment is to increase the contract amount to allow the contractor to receive payment for the provision of business skills training to seventeen additional DPW eligible participants. Negotiations for funding levels had not been completed when previous amendments were written. Funding to be provided by the Department of Public Welfare in the amount of \$39,800. Total compensation under the terms of this contract, as amended, shall not exceed \$624,961. This request has been deferred due to the time required to adjust the contract amount to include the additional participants and due to the late submission of the contractor's identification of appropriate funding resources for the participants served.

As this amendment is for a negotiated contract at reasonable cost, no public purpose would be served by formal advertising. I, therefore, request permission to dispense with inviting sealed bids by advertising in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s.

Sincerely,  
Neil H. Gordon,  
Associate Director.

LAW DEPARTMENT

Land Use Consultant

Dear Mr. Mayor:

In April, 1988, your Honor approved an award of a contract, without public advertising for bids, to Jerold Kayden, an individual located at Lincoln Institute of Land Policy, Cambridge, for his services as an expert land consultant and attorney for the period March 30, 1988, to June 30, 1988, at a cost not to exceed \$20,000.

Your approval is requested to amend this contract to provide for his continued service as a consultant and expert witness to testify on behalf of the City of Boston in the case of *National Amusement v. City of Boston*, Land Court, Civil Action 123588. Both the complexity and length of this trial has doubled from what had been originally planned. The trial was originally scheduled to last four days; now, it is contemplated to last a minimum of eight days. Plaintiffs so far have introduced extremely complex and sophisticated economic testimony at trial, which the Defendant, City of Boston, must rebut.

The cost of this amendment, which is effective May 12, 1988, shall not exceed \$20,000, which I have determined to be reasonable. The contract, as amended, shall not exceed \$40,000.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Very truly yours,  
Joseph I. Mulligan, Jr.,  
Corporation Counsel.

## PUBLIC FACILITIES DEPARTMENT

### Multi-Vendor Design Program

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on March 31, 1988, I respectfully request your Honor's written permission to dispense with further public advertisement and amend the letter of award approved by your Honor on April 25, 1988, awarded to various firms for the multi-vendor design program.

Due to an administrative error, two firms: Brown & Roe and Linwood Surveying & Mapping, Inc. were not included in the initial letter of award. Both firms responded to our request for proposals, were determined to be qualified applicants and were included in the March 31, 1988 Public Facilities Commission vote.

In view of the circumstances, your approval is hereby requested to award a contract to the two firms listed above for the period July 1, 1988, to June 30, 1989.

Sincerely,  
Lisa G. Chapnick,  
Director.

### Design for War Memorials

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on March 24, 1988, I respectfully request your Honor's written permission to dispense with further public advertisement and amend a contract approved by your Honor on July 10, 1987, awarded to Rojas, Vogt Associates, Inc. with offices at 81 Mt. Auburn Street, Cambridge, for the design of the conservation of the existing World War II Memorial in the Back Bay Fens and the addition of a Korean War Memorial and a Vietnam War Memorial. The cost of this amendment shall not exceed \$30,955.50. The amended cost of this contract shall not exceed \$131,277.50.

Said amendment is necessary due to the increased scope of service required of the designer. Under the terms of the amended contract, Rojas,

Vogt Associates, Inc. shall provide additional services including the redesign of the two new memorials. The original design was rejected by the Landmarks Commission.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions, and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose in this particular instance.

Sincerely,  
Lisa G. Chapnick,  
Director.

## MAYOR HOSTS RIBBON-CUTTING AT POLICE STATION IN DORCHESTER-MATTAPAN

On July 9, several hundred community residents joined Mayor Raymond Flynn, Police Commissioner Francis M. Roache and other city officials at ribbon-cutting ceremonies marking the grand opening of the Dorchester-Mattapan District 3 neighborhood police station.

"This is a great day for Dorchester and Mattapan residents. When I became Mayor, I told neighborhood residents that district police stations would be reopened," said Mayor Flynn. "With funds from our \$920 million Capital Plan we have reopened stations in Brighton and East Boston, built this beautiful facility, and work is under way for new stations and renovations city-wide."

The District 3 station was constructed under the project management of the Public Facilities Department and designed by the architectural firm of Ham and Sweeney. Rebuilt at a cost of \$3.2 million, the station has over 100 police officers assigned to it.

This is the first newly constructed station in the city in 20 years," said G. Chapnick, Director, PFD. "It will serve as a model for the state-of-the-art facilities we are constructing in South Boston and Jamaica Plain."

The District will be commanded by Bobbie J. Johnson, a lieutenant who was promoted to captain by Commissioner Roache during the ceremonies.

The men and women of the Boston Police Department have been working extremely hard in Area B over the past few months and this work will continue here at District 3," said Commissioner Roache. "I have a tremendous amount of respect for Captain Bobbie Johnson, who will be the commander at this new facility."

A highlight of the ceremony included the presentation of a commemorative T-shirt to Mayor Flynn by Daniel Williams of the Corbett Street Block Association. The shirt read on the front, "District 3 Police Station, Pride of Dorchester-Mattapan", and "Thank You, Mayor Flynn", on the back.

The new patrol system will be implemented in District 3, one which requires officers to patrol the same beats each day. This type of patrol was eliminated in 1975, with the implementation of the 911 emergency dialing system. This is a pilot program which will soon be implemented city-wide. While calls for assistance in District 3 have increased 3 percent this year, arrests have gone up 44 percent versus January-May 1987. In

January-May, 1988, there have been 2,757 drug arrests in District 3, compared to 2,074 arrests in 1987. There was also a 53 percent increase in weapons violations arrests in District 3 over this same time period. Many of these arrests are due to the success of the Power Patrol, a specialized unit in Area B which concentrates on cracking down on gangs and drugs.

The Dorchester-Mattapan police station has been closed since 1981. This is the third police station to be reopened since the 1981 closings. East Boston was reopened in June 1987 and Brighton reopened in October 1986. Construction is currently under way on West Broadway for a new South Boston station and the groundbreaking for a Jamaica Plain station begins later this year. In addition, stations in Charlestown and Hyde Park are being renovated and remodeled.

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Hall and McChesney, Inc., Syracuse, New York, for microfilm, printing and looseleaf binding of records for recorded and registered land located at the Suffolk County Registry of Deeds.

On April 18, 1988, the Suffolk County Registry of Deeds advertised in the *City Record* for proposals for microfilming, printing and looseleaf binding of records for the Recorded Land Section of the Registry of Deeds for Fiscal Year 1989. Hall and McChesney was the sole bidder for the aforementioned services, at the rate of 32 cents per page. The rate is the same as that for Fiscal Year 1988.

(Continued on next page)

**GREAT AMERICAN** AMERICAN CANCER SOCIETY  
**SMOKEOUT**

Under this contract, a duplicate set of these records will be furnished to the Assessing Department by the vendor at a cost of 26 cents per page for printing and looseleaf binding, and the same price as fiscal year 1988. In addition, the vendor will also furnish a copy of each roll of microfilm at \$27 per roll (the same rate as Fiscal Years 1987 and 1988). The total cost of this contract shall not exceed \$95,000, which I have determined to be reasonable for the services to be provided.

These services are part of the Assessing Department's ongoing process of timely updating sales verification records which is necessary to fulfill its statutorily mandated function of assessing all taxable property in the City of Boston at full and fair cash value on an annual basis.

The term of this contract shall be from July 1, 1988, through June 30, 1989.

It is possible it will be determined, sometime prior to the expiration of Fiscal Year 1989, that the Assessing Department is no longer in need of these records in the form provided by the vendor. In that event, the department will timely notify the vendor of the termination of this contract.

Because of the professional nature of the service to be provided, I believe that public advertising would serve no useful purpose. In addition, selection of this vendor will likely result in the shortest delay for the Assessing Department to receive the updated records, as well as the greatest monetary savings as this vendor has already and continues to reproduce the same records for the Registry of Deeds.

It is necessary to receive such records in the least possible amount of time so as to ensure the efficient updating of Assessing Department records for revaluation purposes and timely issuance of future real estate tax bills.

Sincerely,  
Thaddeus J. Jankowski, Jr.,  
Commissioner.

**Mailing Equipment Maintenance**

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising in the award of a contract to Pitney-Bowes, Inc., Waltham, in an amount not to exceed \$20,235. The period of service for this contract will be July 1, 1988, to June 30, 1989. Funding for this contract is located in 011-140-0146-CT03-02370.

Under the terms of this contract, Pitney-Bowes will service and maintain the mailing equipment in the City Hall Mail Unit. Due to the fact that this maintenance agreement covers equipment manufactured by Pitney-Bowes, I believe that public advertising would serve no useful purpose.

In the past two fiscal years, when the city had similar maintenance contracts with Pitney Bowes, the amounts were as follows: FY1988 — \$18,517; FY1987 — \$15,200.

I look forward to your favorable response.

Sincerely,  
Thomas P. Cohan,  
Director.

**ELECTION DEPARTMENT**  
**Electric Wiring at Polling Places**

Dear Mr. Mayor:

In response to an advertisement published in the *City Record*, May 2, 1988, for the installation of electrical wiring and power outlets needed for voting machines and lighting at various polling locations throughout the City of Boston, the following bids were publicly opened and read on May 16,

1988: Continental Electrical and Contracting, Inc., Randolph, \$4,600.50; ReJan Electrical Co., Jamaica Plain, \$8,350.

The Board of Election Commissioners has voted to reject both bids and requests your Honor's permission to award this contract, without further advertising, to ReJan Electrical Co., Jamaica Plain, for the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$8,350. On Election Days, where numerous electrical emergencies may arise at several locations, the Board feels that vehicles and staffing are vital considerations in the award of this contract. The justification for the Board's decision is Continental employs only five employees and utilizes only two vehicles. ReJan employs twenty-two employees and utilizes eighteen vehicles and this number is satisfactory to the Board to provide city-wide coverage on election days. The Board further believes their bid to be a reasonable one.

Very truly yours,  
Benjamin F. Thompson,  
Chairman.

**HEALTH AND HOSPITALS DEPARTMENT**

A multi-vendor contract was awarded to several vendors to furnish medical and surgical supplies to the Department of Health and Hospitals based on Proposal 668, which was advertised in the *City Record*.

**Advertising**

*A rate of \$8 per inch of 12 lines (set solid) has been established for such advertisements as under the law must be printed in the City Record. cord, on October 12, 1987, and opened on November 5, 1987, for a one-year period from January 1, 1988, through December 31, 1988.

On this bid were several items for disposable gloves. Although we did receive bids, and contracts have been awarded to those companies bidding, the availability of gloves in the marketplace at any given time has become a very serious problem. The companies listed above have indicated that they would supply gloves to us, if they are not available from our contracted suppliers, according to availability and pricing in the marketplace as of the date of shipping.

Therefore, in view of the above, and because the cost, in my opinion, is reasonable, no benefit would inure to the city by publicly advertising for bids.

The contract amounts are approximate figures based on estimated volumes. The contract period is from February 1, 1988, through December 31, 1988.

These awards are being processed late because we did not have the necessary documents from the vendors in order to process the contracts.

Very truly yours,  
Lewis W. Pollack,  
Commissioner

**Pastoral Counseling**

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to Frances S. Burroughs, Dorchester, for the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$6,706.

Under this contract, Rev. Burroughs will provide pastoral counseling and liturgical services related to the needs of Protestant patients at Long Island Hospital. Services are to be provided sixteen hours per week at a cost of \$8 per hour for a total of \$ per hour. One special Holiday service will be provided during the year at a cost of \$50 per service addition. Rev. Burroughs will be on call for emergency visits.

Fiscal year 1989 is the first year a contract was awarded to Rev. Burroughs. In the past, an unadvertised contract was awarded to Rev. Welch in an amount of \$2,738 (February 1, 1988, through June 30, 1988). Rev. Welch has supplied chaplain services to patients at Long Island Hospital since July of 1987 on a service order. Rev. Welch placed Rev. Vautier who supplied chaplain services at Long Island in FY '86 and Mattapan for several years. Rev. Vautier was awarded unadvertised contracts in the following amounts: 1987 — \$13,512 (Mattapan and Long Island Hospital); 1986 — \$6,440 (Mattapan Hospital, July — June); 1985 — \$13,512 (Mattapan and Long Island Hospital, January — June).

Because of the special fitness of Rev. Burroughs to provide these services, because of the professional nature of the services to be rendered, and the cost, in my opinion, no benefit would inure to the city by publicly advertising for bids.

Very truly yours,  
Lewis W. Pollack,  
Commissioner

**JOBS AND COMMUNITY SERVICES**  
**Summer Youth Training Program**

Dear Mayor Flynn:

On or about July 17, 1987, your Honor appeared at an award of a contract with Action for Community Development, Inc., a nonprofit corporation located at 178 Tremont Street, to operate the Summer Youth Employment and Training Program.

the federal fiscal year 1987. Compensation was an amount not to exceed \$1,700,000, payment being provided by a federal grant for SYETP under Job Training Partnership Act for the period October 1, 1987, until September 30, 1987.

Your approval is requested to amend this contract in terms of compensation. The purpose of this amendment is to increase the contract amount to allow the contractor to receive payment for the provision of a summer work experience program for additional youth who are members of households receiving welfare benefits. Funding will be provided by the Department of Public Welfare in an amount of \$100,000. Total compensation under the terms of this contract, as amended, shall not exceed \$1,800,000. The submission of this letter has been delayed due to the time involved in negotiations and subsequent budget development.

This amendment is for a negotiated contract at a reasonable cost, no public purpose would be served by formal advertising. I, therefore, request permission to dispense with inviting sealed bids by advertising in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s.

Sincerely,  
Kristen J. McCormack,  
Director.

#### PARKS AND RECREATION DEPARTMENT Golf Course Improvements

Mr. Mayor:

On October 10, 1986, your Honor approved the award of a contract, without public advertising for the work to John Heinrich Wagner and Associates, Inc., for design services for improvement to the William Devine Golf Course at Franklin Park during the period of October 10, 1986, to December 18, 1987, at a cost not to exceed \$110,140, based on a construction cost estimate of \$600,000.

Your approval is requested to amend this contract for additional services which were not anticipated in the terms of the original contract. The reason for these additional services required is due to a delay in the awarding of the construction contract for improvements to the William Devine Golf Course at Franklin Park.

No unsuccessful bids were received for the construction contract of renovating a portion of the greens and tees. There were no bid proposals received for the first bid and when readvertised the proposals received for the second bid were faulty. This has caused a delay in the awarding of a construction contract which in turn has resulted in an extension of the design services provided by John Heinrich Wagner and Associates,

In addition, the Commonwealth of Mass. has allocated an additional \$600,000 to the City of Boston for construction and design fees to renovate all greens and tees, and provide a complete automated irrigation system for the eighteen-hole golf course, for a total construction cost estimate of \$50,000.

The cost for this amendment, which is effective from October 18, 1987, shall not exceed \$50,000, which I have determined to be reasonable. The total cost of the contract; as amended shall not exceed \$160,140, to be charged to 6S1-300-4266-0000. The period of this contract shall be extended from December 18, 1987, to September 30, 1989, because of the professional services, and the necessity to provide a continuity of design, communication, and the specialized nature of golf course design. I, therefore, request your permis-

sion to dispense with advertising in the *City Record*, as required by the City of Boston Code, St. 4, Sec. 5.

Sincerely,  
William B. Coughlin,  
Commissioner.

#### POLICE DEPARTMENT Drop-A-Dime Program

Dear Mayor Flynn:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Drop-A-Dime/Report Crime Intelligence Data, Inc., located at 90 Warren Street, to assist in the investigative efforts of the Boston Police Department's Drug Control Unit.

The Boston Police Department shall provide fiscal assistance to the Drop-A-Dime Program which, in return, shall provide to the Boston Police Department any and all intelligence of which they become aware relative to criminal, especially drug, activity. Upon receipt of documentation, the Police Department shall reimburse Drop-A-Dime for the operating costs of the program.

Compensation under this contract shall not exceed \$20,000, which I have determined to be reasonable for the work to be performed. This funding will be charged against appropriation 011-211-0211-PD07-0290 with an initial encumbrance of \$20,000. The term of the contract shall be from July 1, 1988, through June 30, 1989.

Drop-A-Dime/Report Crime Intelligence Data, Inc. had a contract with the Police Department in FY '88 for \$20,000.

In light of the unique experience of the Drop-A-Dime Program, its personnel, and your Honor's commitment to the program, I submit that public advertising would serve no useful purpose.

Respectfully,  
Francis M. Roache,  
Police Commissioner.

#### Servicing Microfilm Equipment

Dear Mayor Flynn:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Bell & Howell, Inc., a corporation, located at Needham Heights, for the purpose of maintaining and servicing microfilm equipment used by the Boston Police Department.

Under the terms of the contract, the contractor will provide for two yearly inspections, cleanings and basic service calls of the Police Department's ABR 100 recorder, ABR 120 imprinter and our image search reader printer. This microfilm equipment is used by the Police Department to provide copies of records to the public and to meet the informational needs of law enforcement agencies on a timely basis. It is important that the microfilm equipment be carefully maintained so that requests for information can be speedily answered.

Bell & Howell is specially qualified to do this work because the microfilm equipment was originally purchased from and installed by Bell & Howell and they are the sole provider of its maintenance. Thus this contractor has personnel, familiar with the repair of this equipment, readily available and also has swift access to replacement parts.

Compensation under this contract shall not exceed \$2,686, which I have determined to be reasonable for the service to be performed. This funding will be charged against appropriation 011-211-0211-PD03-0270 with an initial encumbrance of \$2,686. The term of this contract shall be July 1, 1988, through June 30, 1989. Bell & Howell, Inc., has contracted with the Police Department for

this maintenance in Fiscal Year '88 — \$2,558; Fiscal Year 87 — \$3,540; and Fiscal Year 86 — \$3,540.12.

Because Bell & Howell, Inc. is specifically qualified to do this work for a reasonable price, I believe that public advertising would serve no useful purpose.

Respectfully,  
Francis M. Roache,  
Police Commissioner.

#### Legal Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Nicholas Foundas, an attorney, with offices at One Court Street, for the purpose of providing legal services to the Boston Police Department.

Under the terms of the contract, Mr. Foundas will represent the Police Department in certain pending litigation, including *E.E.O.C. v. Boston Police Department*, U.S. District Court Docket No. 84-2594W; *M.A.A.A.P. v. Boston Police Department*, U.S. District Court Docket No. 78-5296MC and *Brian Langton v. Neil Powers and City of Boston*, U.S. District Court No. 84-2515-MC.

Compensation under this contract shall not exceed \$15,000, which I have determined to be reasonable for the service to be performed. The term of the contract shall be from July 1, 1988, through June 30, 1989. The rate of compensation shall be \$100 per hour. This funding shall be charged against appropriation 011-211-0211-PD01-0290, with an initial encumbrance of \$15,000.

Mr. Nicholas Foundas has had a contract with this department for the previous fiscal years for \$15,000 in FY '88; \$12,000 in FY '87; and \$20,000 in FY '86.

Mr. Foundas has represented this department for the past three years in the complex cases cited above, it would serve no useful purpose to publicly advertise and would be in the best interest of the City of Boston to award this contract.

Respectfully,  
Francis M. Roache,  
Police Commissioner.

#### PUBLIC FACILITIES DEPARTMENT Landscape Improvements, etc.

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on February 25, 1988, I respectfully request your Honor's written permission to dispense with public advertising and to award a contract to Boston Urban Gardeners, Inc., Massachusetts nonprofit organization, located at 33 Harrison Avenue, providing general technical assistance services for landscape improvements to eighty city-owned vacant lots. Also, they will perform landscape design and site improvements to various city-owned lots.

Compensation under this contract shall not exceed \$80,000, which I have determined to be a reasonable cost for the services to be performed. The term of this contract shall be from March 1, 1988, to March 1, 1989. Funds for this contract shall come from those received under the Community Development Block Grant program. This contract has been delayed due to the time involved in negotiations with the vendor.

The contractor was selected based upon an evaluation of the proposal submitted in response to a publicly advertised Request for Proposals conducted by the Public Facilities Department on July 20, 1987, in the *Boston Globe*. Costs were determined to be reasonable after extensive analysis by

the Public Facilities Department staff. Other selection criteria includes Boston Urban Gardeners, Inc.'s excellent reputation with Greening of Boston. They have successfully completed four Grassroots projects in the past.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Sincerely,  
Lisa G. Chapnick,  
Director.

**Emergency Plumbing Repairs**

Dear Mayor Flynn:

On March 10, 1988, Public Facilities Department was notified that an emergency situation existed at the Hyde Park Municipal building. An inspection at the site revealed that a broken sewer line caused a plumbing backup which left the building with loss of bathroom facilities.

This situation was in violation of the sanitary code and threatened the health of the users of this building. We requested and received from the Division of Capital Planning and Operations a waiver to dispense with public advertising and to have the emergency situation rectified immediately. Boston Drain Company responded to our call and it was determined that the street had to be dug up to look for the broken pipe. The pipe was found and repaired.

Therefore, in accordance with Massachusetts General Laws chapter 30, section 39M, we request your Honor's written approval to award a contract to Boston Drain Company, Inc. of Dorchester, in an amount not to exceed \$8,000.

Sincerely,  
Lisa G. Chapnick,  
Director.

**PUBLIC WORKS DEPARTMENT  
Sidewalk Reconstruction**

Dear Mr. Mayor:

On October 15, 1984, your Honor, Mayor of Boston, approved the award of a contract based on public advertising for bids to Todesca Equipment Company of Westwood, for sidewalk reconstruction in Miner Street in Boston Proper; Denny Street in Dorchester; Ayles Road, Derry Road, Edwardson Street, Joyce Road, Lewiston Street, and Safford Street in Hyde Park; and Bellevue Street, Brucewood Street, Hemman Street, Robert Street, and Saville Street in West Roxbury, SC 6573 (85), at a cost of not to exceed \$393,422.75.

The amount for police detail and sidewalk was greater than expected, making the amount on the CM 10, \$393,422.75, insufficient for final payment for work and services performed on this contract. The Highway Division senior civil engineer assigned this job stated that his estimate for the work did not exceed 5 percent of the total original proposal (article 4 of the Minor Street contract, SC 6573 85), which would have made his final estimate for payment possible (\$393,422.75 x 5 percent, or \$19,671.14, \$413,093.89) and within the limits of the contract.

Public advertising for proposals would serve no useful purpose, for this is a request to amend this contract, if necessary. It is requested that the effective date of this amendment be June 1, 1988.

It is recommended that the amount of this amendment not exceed \$18,051.80 which I have determined to be reasonable for the work.

The contract, as amended, shall not exceed \$411,474.55.

Very truly yours,  
Joseph F. Casazza,  
Commissioner.

Superintendent.

Dear Mr. Mayor:

In response to an advertisement in the *City Record* on April 18, 1988, and an invitation to contract mailed by the Office of Contracted Educational Services to approximately 140 facilities approved by the Mass. Department of Education, the following facility, Evergreen Center, Inc., Milford, has responded and has been deemed as qualified to provide special educational services for Boston Public School students who it has been determined cannot be served in the Boston Public Schools.

Therefore, I request your authorization for the award of a contract to the above facility for the provision of Special Educational Services to Boston Public School children in accordance with M.G.L. c. 71B (chapter 766), and the regulations promulgated thereunder, in an amount not to exceed \$237,610.80, a cost which is deemed to be reasonable, during the period July 1, 1988, through June 30, 1989.

The amount to be encumbered initially is \$118,805.40.

The facility will provide educational services to Boston Public School pupils in accordance with each child's individual educational plan devised by the School Department staff.

Because it has been determined that these children are in immediate need of special education, and in view of the personal and professional nature of the services to be performed, the expertise of the facility in this area, and the fact that the rates for these services are set by the Massachusetts Rate Setting Commission, it is my determination that no public purpose would be served by further public advertising.

FY-86 expenditure — \$156,883.65; FY-87 — \$98,511.07; FY-88 — \$71,500.84.

Very truly yours,

Laval S. Wilson,  
Superintendent.

#### Summer Remediation Programs, etc.

Dear Mayor Flynn:

As superintendent of the Boston Public Schools, I respectfully request your authorization for the award of a contract to School Volunteers for Boston, a corporation located at 25 West Street.

This contract shall be in effect during the period July 1, 1988, to June 30, 1989, and shall occur at a cost not to exceed \$142,000, which I have deemed to be reasonable.

Under the terms of this contract, the contractor will support and expand programs of instruction in the Boston Public Schools through the extensive use of volunteers in the basic skills, enrichment, and career education. Services will be provided during the school day and in after-school and summer remediation programs.

School Volunteers for Boston is the only provider of these services in the Boston area.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing these services, it is my determination that the public interest would not be served by publicly advertising for bids.

Compensation to this vendor during the past three fiscal years in the form of unadvertised contracts is as follows: 1988 — \$142,000; 1987 — \$142,000; 1986 — \$142,000.

Very truly yours,  
Laval S. Wilson,  
Superintendent.

#### Xerox Copiers, etc.

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Xerox Corporation located at 155 Federal Street, for outright purchase, installment purchase, term lease or rental of new Xerox copiers, duplicators and Memorywriters for the period July 1, 1988, through June 30, 1989, as needed by the School Department in an amount not to exceed \$250,000. In most cases, new copiers or duplicators will represent replacement of old Xerox copiers returned to the manufacturer for trade-in credit. Equipment acquired with federal monies will be placed on term lease or rental plans.

Xerox Corporation was awarded publicly advertised contracts by the Commonwealth of Massachusetts in October, 1986, for one calendar year for the purchase of copiers, duplicators and Memorywriters. The Purchasing Agent of the City of Boston has conducted an extensive study of its reprographic equipment and requirements, and determined that the city needs to standardize its purchase of copiers and duplicators.

Prices charged to the School Committee will be the same as those charged to the Commonwealth of Massachusetts and the City of Boston and I consider these prices reasonable. In view of the above, it is my opinion that no useful purpose would be served by further public advertisement for bids.

Compensation to this vendor during the past two fiscal years in the form of unadvertised contracts is as follows: 1985-1986 — \$75,000; 1986-1987 — \$200,000; and 1987-1988.

Very truly yours,  
Leo J. Burke,  
Business Manager.

#### Consultant Services

Dear Mr. Mayor:

On behalf of the Boston Public Schools, I request your authorization for the award of a contract to Alexander Goniprow, a consultant located at Marblehead. The contract shall be in effect during the period from May 31, 1988, to June 30, 1988, at a cost not to exceed \$5,000 which I have determined to be reasonable. On July 21, 1987, the School Committee approved all of the FY'88 chapter 636 proposals for the sum of \$5,128,956.

The consultant will conduct Phase Three of a three-part evaluation effort of the chapter 636 Minorities Support Program at Boston Latin, Boston Latin Academy and Boston Technical High School. The consultant is uniquely qualified to provide these services because he is an experienced evaluator for the Boston Public Schools programs and has completed the first two phases of the evaluation program and therefore has the unique knowledge necessary to complete and finalize this project. The consultant will be paid \$25 per hour for 200 hours.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing these services it is my determination that the public interest would not be served by public advertisement for bids.

This agreement is to be executed, without appropriation of funds, under provisions of General Laws, chapter 44, s. 53A and is subject to the receipt of funds under grant from chapter 636.

This is the first contractual agreement between this vendor and the Boston Public Schools.

Very truly yours,  
Laval S. Wilson,  
Superintendent.

## CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

### HEALTH AND HOSPITALS DEPARTMENT

#### Kitchen Equipment Maintenance

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I hereby request your Honor's permission to amend the contract with Drico Corporation, Wellesley, for the repair and maintenance of kitchen equipment at Boston City Hospital for the period July 1, 1987, through June 30, 1988, at a cost not to exceed \$8,000.

This amendment will increase the contract sum by \$11,000, thereby increasing the city's total liability under this contract, as so amended, to an amount not to exceed \$19,000.

This amendment is necessary due to the fact that the cost for the repairs for preventative maintenance portion of the contract was underestimated. The equipment at the hospital is quite old, and is in constant need of repair. Therefore, it is difficult to estimate the number of repairs that will be necessary.

In view of the above, and as the cost, in my opinion, is reasonable, I recommend approval of this amendment.

Very truly yours,  
Lewis W. Pollack,  
Commissioner.

(Continued on next page)

## Elevators Maintenance

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I hereby request your Honor's permission to amend the contract with Montgomery Elevator Co., Braintree, for the period July 1, 1987, through June 30, 1988, at a cost not to exceed \$17,000.

This amendment will increase the contract sum by \$2,000, thereby increasing the city's total liability under this contract, as so amended, to an amount not to exceed \$19,000.

Under this contract, Montgomery Elevators provides services and maintenance for the elevators at Mattapan Hospital. This amendment is necessary because the department underestimated the cost of repairs to the elevators.

In view of the above, and as the cost, in my opinion, is reasonable, I recommend approval of this amendment.

Very truly yours,  
Lewis W. Pollack,  
Commissioner.

## Taxi Services

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I hereby request your Honor's permission to amend the contract with Red & White Cab Association, South Boston, for the period July 1, 1987, through June 30, 1988, at a cost not to exceed \$39,658.

This amendment will increase the contract sum by \$1,000, thereby increasing the city's total liability under this contract, as so amended, to an amount not to exceed \$40,658.

Under this contract, Red & White Cab Association will provide taxi services for the transportation of packages and hospital personnel for the Department of Health and Hospitals. This amendment is necessary because the department underestimated the cost of the original contract.

In view of the above, and as the cost, in my opinion, is reasonable, I recommend approval of the amendment.

Very truly yours,  
Lewis W. Pollack,  
Commissioner.

## PUBLIC FACILITIES DEPARTMENT

### Inpatient Facilities Design Services

Dear Mayor Flynn:

Under delegation from the Public Facilities Commission to the director of the Public Facilities Department dated November 19, 1987, I respectfully request your Honor's written permission to dispense with further public advertisement and amend a contract approved by your Honor on October 2, 1987, awarded to HST & P/Cannon with offices at 26 West Street, for the design of new inpatient facilities for Boston City Hospital. The cost of this amendment shall not exceed \$215,000. The amended cost of this contract shall not exceed \$1,615,000 (including \$665,000 for Supplementary Services) which is a fixed fee of 6.5 percent based on an estimated cost of construction of \$97,200,000.

Said amendment is necessary due to the increased scope of service required of the designer. Under the terms of the amended contract, HST & P/Cannon shall provide additional services to cover the cost of subconsultants for materials handling, food service and equipment planning.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions, and

the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose in this particular instance.

Sincerely,  
Lisa G. Chapnick,  
Director.

## SCHOOL DEPARTMENT

### Formulation of Student Plan

Dear Mayor Flynn:

On September 15, 1987, your Honor approved the award of a contract without public advertising for bids, in the amount of \$45,535 to Simmons College, a corporation located at 300 The Fenway, to provide various chapter 636 instructional services at Jamaica Plain High School.

Your approval is requested to amend this contract to allow Simmons College to assist the administration and faculty of Jamaica Plain High School in the formulation of a plan to aid in the retention of minority students.

Simmons College is uniquely qualified to provide these services, because under court order, it is paired with Jamaica Plain High School. At the present time the racial make-up of the school is in danger of non-compliance with the court order, the goal of this program is to help alter that situation.

The cost of this amendment, which is effective June 7, 1988, shall not exceed \$4,000, the contract as amended shall not exceed \$49,535. The period of performance will not be extended.

Very truly yours,  
Laval S. Wilson,  
Superintendent.

## TRANSPORTATION DEPARTMENT

### Microfilming Services

Dear Mr. Mayor:

On July 15, 1987, your Honor approved the award of a contract based on public advertising for bids to MicroMedia, Needham Heights, for microfilming of the department's street history files during the period July 1, 1987, to November 30, 1987, at a cost not to exceed \$11,745.

Your approval is requested to amend this contract which was necessitated by approximately a 25 percent increase in documents that needed to be microfilmed.

The cost of this amendment, which is effective December 1, 1987, shall not exceed \$3,000, which I have determined to be reasonable. The contract, as amended, shall not exceed \$14,745. The period of performance shall be extended to December 31, 1987. This amendment is being submitted late due to the departure from this department of the person responsible for administering this award and then the delay in receiving the proper documents back from the vendor.

For the reasons stated above, I believe that public advertising would serve no useful purpose.

Very truly yours,  
Richard A. Dimino,  
Commissioner.

## CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

## ADMINISTRATIVE SERVICES DEPARTMENT

### Printing Section Printing Equipment

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Compugraphic Corporation, a corporation, located at Wilmington, for the service and maintenance of Compugraphic printing equipment presently installed in the city's Printing Section and which is being leased under an existing lease purchase contract. The service and maintenance work will be performed by Compugraphic's Warranty Extension Agreement Division, located at North Reading. The contract will be effective for the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$16,632, net.

Under the terms of the contract, the contractor will provide all materials and perform all the work necessary for and incidental to providing preventive and remedial maintenance service for the printing equipment.

Compugraphic Corporation is specially qualified to do this work because inasmuch as Compugraphic Corporation is the manufacturer, the technicians are trained specially to maintain and repair all of the equipment it manufactures, and parts are readily available.

Compensation under this contract shall not exceed \$16,632, which I have determined to be reasonable for the work to be performed. This fund will be charged against appropriation 011-14 0145-0270 with an initial encumbrance of \$16,632.

Compugraphic Corporation has had a contract with this department for the previous three fiscal years, FY 88, FY 87, and FY 86. The encumbrance amount for FY 88 was \$16,632; for FY 87 it was \$15,889; and for FY 86 it was \$15,889.50.

Because Compugraphic Corporation is specially qualified to do this work for a reasonable price, I believe that public advertising would serve no useful purpose.

A schedule of the printing equipment to be serviced and maintained under this contract will be furnished by Compugraphic Corporation and will become part of this contract. It will show model and serial number, and monthly cost of each item.

Very truly yours,  
William J. Hannon,  
Superintendent.

## FIRE DEPARTMENT

### Engine 29 Repairs

Dear Sir:

I respectfully request your Honor's permission to award to George Robbins & Co., Inc., Brighton, the task of performing certain emergency repairs to Engine 29. On April 6, 1988, these emergency repairs were necessary in the interest of public safety, given that this building is necessary to fire fighting operations of the department.

George Robbins & Co., Inc., performed the following work at Engine 29: Cleaned gasoline separators, as agreed quoted price.

The cost of the work described above is \$5,000 which will be paid pursuant to the city's existing contract with this firm, Contract 1566-88, for repetitive services for the fiscal year 1987. This contract requires the Mayor's approval for any single repair of \$2,000 or more.

This request is being submitted late after work has been completed because the parts needed for the gasoline separators were not immediately available.

In my opinion the contractor is qualified to do the work herein described, inasmuch as George F

& Co., is thoroughly familiar with all types of on said equipment. This price quoted for the is reasonable and it does not appear that any price could be obtained by publicly advertising bids and I believe that public advertising would serve no useful purpose.

Very truly yours,  
Leo D. Stapleton,  
Fire Commissioner.

United X-Ray Corporation has provided the equipment with quality maintenance service for over ten years. United X-Ray Corporation has awarded unadvertised contracts for the last five fiscal years in the following amounts: 1988 —

\$247,080; 1987 — \$207,000; 1986 — \$209,000. United X-Ray Corporation is the sole distributor and the only company to service the radiologic units.

Therefore, because the equipment is of a highly specialized nature, because United X-Ray Corporation is the sole distributor and, because the cost, in my opinion, is reasonable, no benefit would inure to the city by public advertising for bids.

Very truly yours,  
Lewis W. Pollack,  
Commissioner.

#### Printing Services

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on April 28, 1988, I respectfully request your Honor's written permission to dispense with public advertising and to award a contract to William R. Brown Company, Inc., a corporation with offices at Rhode Island. Under the terms of the contract, the contractor will provide a wide range of printing services, which will include the production of agency program materials, publications, newsletters, invitations, posters and other program materials. Also, typesetting and stat production services will be provided.

Compensation under this contract shall not exceed \$12,500, which I have determined to be a reasonable cost for the services to be performed. The term of this contract shall be from July 1, 1988, through June 30, 1989.

William R. Brown Company, Inc. was the only firm to submit a proposal in response to a publicly advertised request for proposals conducted by the Public Facilities Department on March 13, 1988.

*Boston Globe*. Costs were determined to be reasonable after extensive analysis by Public Facilities Department staff. Other selection criteria included the contractor's in-house production capacity which meets the needs of both regular and rush inline printing services. As a result they are able to deliver on an expedient basis.

This is a negotiated contract at a reasonable price, based upon an extensive program and proposal review. I believe that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed proposals in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Sincerely,

Lisa G. Chapnick,  
Director.

#### Consultation Services

Mayor Flynn:  
Pursuant to a vote of the Public Facilities Commission on April 28, 1988, I respectfully request your Honor's written permission to dispense with public advertisement and award a contract to Joan Rooney, an individual, located at 5 Doncaston Street, Roslindale, for providing consulting services in support of the Public Facilities Department recruitment, personnel and administrative systems development activities. Under the terms of the contract, Joan Rooney will assist the department with the employment of a number of key personnel positions and secretarial slots. She will assist in administration and program systems, specifically, change order, invoice processing, human resource procedures and analysis of housing contract management procedures.

Compensation under this contract shall not exceed \$40,000, which I have determined to be a reasonable cost for the services to be performed. The term of this contract shall be from July 1, 1988, to June 30, 1989. Compensation for fiscal year 1988 shall be \$41,205. There were no contracts prior to that. Joan Rooney was the only contractor to submit a proposal in response to a publicly advertised request for proposals conducted by the Public Facilities Department on March 13, 1988, in the *Boston Globe*. Costs were determined to be reasonable after extensive analysis by Public Facilities Department staff. Other selection criteria include Joan Rooney's eleven years experience in consultation services and her knowledge of City of Boston policies and procedures. With the growth of the Capital Improvement Plan and the increase of active professional assistance will be invaluable.

This is a negotiated contract at a reasonable price, based upon an extensive program and proposal review. I believe that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed proposals in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Sincerely,

Lisa G. Chapnick,

#### Heating Design Renovations

Mayor Flynn:  
Pursuant to a vote of the Public Facilities Commission on March 24, 1988, I respectfully request your Honor's written permission to dispense with public advertisement and award a contract to Reardon and Turner, a sole proprietorship, with offices at 150 Causeway Street, providing design services for heating renovations at Taylor, Barnes, Lowell and Kenney schools. Scope of work to include preliminary drawings, design development, working drawings and construction supervision.

Compensation under this contract shall not exceed \$274,693 (including \$60,000 for supplementary services) which is a fixed fee of 10.86 percent based on an estimated cost of construction of \$1,977,000, which I have determined to be a reasonable cost for the work to be performed. The term of this contract shall be for 100 weeks from the date of execution.

Following the advertisement of this project in the *Boston Globe* on October 5, 1987, and receipt of proposals, the contractor was selected on the basis of a rating system undertaken by the Public Facilities Designer Selection Committee in accordance with MGL c.7, s. 38A 1/2 et seq. The committee evaluated eleven proposals submitted by the applicants and determined Reardon and Turner most qualified and competent to complete said design work. The numerical matrix rating for a firm reflects the combined score of each committee member's ranking of this firm and thus the recommended firm has the lowest number. The numerical matrix rating summary of the three finalists, in order of rank, was as follows:

Reardon and Turner, 150 Causeway Street — 6; TMP Consulting Engineers, Inc., 26 West Street — 14; Taskin, Inc., N. Reading — 15.

I believe Reardon and Turner is qualified to perform the services required.

In view of the technical and professional nature of the services, and the selection process used, it is my judgement that further public advertising would serve no useful purpose in this instance.

Sincerely,

Lisa G. Chapnick,  
Director.

#### Dowling Building Renovations Design

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on February 11, 1988, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to William H. Rowe & Associates, a Massachusetts organization with offices at 3 Appleton Street, providing design services for renovations to the Dowling Building, Phase IV for Central, Sterile Supply Service at Boston City Hospital. Scope of work to include design development, working drawings and construction supervision.

Compensation under this contract shall not exceed \$246,600 (including \$80,000, for supplementary services) which is a fixed fee of 11.9 percent based on an estimated cost of construction of \$1,400,000, which I have determined to be a reasonable cost for the work to be performed. The term of this contract shall be for twenty-four months from date of execution.

Following the advertisement of this project in the *Boston Globe* on October 7, 1985, and receipt of proposals, the contractor was selected on the basis of a rating system undertaken by the Public Facilities Designer Selection Committee in accordance with MGL c. 7, s. 38A 1/2 et seq. The committee evaluated six proposals submitted by the applicants and determined William H. Rowe & Associates most qualified and competent to complete said design work. The numerical matrix rating for a firm reflects the combined score of each committee member's ranking of this firm and thus the recommended firm has the lowest number. The numerical matrix rating summary of the three finalists, in order of rank, was as follows:

Trapani Associates, Dorchester, 1; Rothman & Rothman, Inc., 15 East Street — 2; Hans H. Finne, Inc., Wilmington — 3; William H. Rowe & Associates, 3 Appleton Street — 4.

This project was originally awarded to Trapani Associates. Their contract was terminated be-

cause they refused to work without a percentage of the equipment costs as part of their fee. Due to the fact that Rothman and Rothman, Inc. has a considerable number of ongoing projects with PFD and Hans H. Finne, Inc. has since joined Trapani Associates, it is the unanimous decision of the Designer Selection Committee that the contract be awarded to William H. Rowe & Associates.

I believe William H. Rowe & Associates is qualified to perform the services required.

In view of the technical and professional nature of the services, and the selection process used, it is my judgement that further public advertising would serve no useful purpose in this instance.

Sincerely,

Lisa G. Chapnick,  
Director.

On October 6, 1986, your Honor approved the award of a contract, without public advertising for bids, to Education Collaborative for Greater Boston, a corporation located at 20 Kent Street,

Boston, for the administration of the chapter II entitlement for the Archdiocese of Boston School Bureau for purposes of educational improvement through training teachers and purchasing materials, supplies and equipment during the period October 7, 1986, to September 30, 1988, at a cost not to exceed \$224,000. On June 1, 1987, your Honor approved an amendment to that agreement in the amount \$113,386, raising the not to exceed amount to \$337,386.

Your approval is now requested to further amend this contract to provide for the purchase of additional computer equipment as specified by the Archdiocese in their portion of the FY87 and FY88 E.C.I.A. Block Grant.

The cost of this amendment, which shall be effective June 6, 1988, shall not exceed \$33,700, which I have determined to be reasonable. The contract as amended shall not exceed \$671,086. The period of performance shall not be extended.

The contractor was selected to provide these services because of the extensive and successful experience of Education Collaborative for Greater Boston in providing educational services and program administration to its member school system including the Boston Public Schools and the Archdiocese of Boston School Bureau.

Very truly yours,  
Laval S. Wilson,  
Superintendent.

## DORCHESTER RESIDENTS ASSISTED BY CITY'S HOMEOWNERS' SERVICES PROGRAM

Just outside of Uphams Corner in Dorchester is a group of rowhouses, free individually owned units side-by-side. In 1953, John Dalrymple bought the center unit. He had recently married his high school sweetheart and had a good job at a nearby heating company. Years later, when Josephine Dalrymple was stricken with a debilitating illness, bills piled up, and to John, caring for his home became secondary to caring for his wife. The situation worsened when the heating company closed and moved to North Carolina. It left John Dalrymple with a small severance package, overwhelming medical bills, and a house that was falling down around him.

The Dalrymple's were referred to the Public Facilities Department's (PFD) Housing Division for assistance. A PFD Housing Intake Officer was sent to the Dalrymple's house and found that the only source of heat was the one working burner on the stove, light was provided by a bulb at the end of an extension cord, the ceiling had fallen in on the second floor and there was a gaping hole in the roof. The Post Office refused to deliver the mail because of the condition of the porch.

"These problems are typical of the houses that we deal with every day," said Marian Orfeo, assistant director of PFD's Housing Division. "It's important that people know they don't have to wait until their homes are unlivable before they call us."

The Public Facilities Department's Homeowners' Services Program helps low-income homeowners like John Dalrymple with major rehabilitation needs. Through the coordination of grant, loan, and rent subsidy programs, financial assistance packages are created based on the homeowner's ability to pay. These loans are often used to help make critical repairs and renovations including the upgrading of plumbing and electrical systems, roofing maintenance and/or replacement, weatherization, exterior repair and maintenance and hand-dipped access.

The repairs to the Dalrymple's home included all new windows, doors, walls and ceilings. New heating and electrical systems were also installed. The bulk of the work was done by Pleasant Construction in Dorchester. Through the assistance from PFD's Homeowners' Services Program, the Dalrymple's home is now safe, secure and livable.

"Everyone has been so marvelous," said John Dalrymple. "People have to help each other. That's the most important thing."

For more information on the Homeowners' Services Programs offered by the Public Facilities Department, please call the Housing Division at 720-4300 X320.

### CITY SELECTS DEVELOPER FOR DORCHESTER APARTMENT BUILDING

The Public Facilities Department (PFD) has designated KVC Associates of Roxbury as developers of a city-owned building at 1105 Blue Hill Avenue in Dorchester. The vacant apartment building, taken by the City through tax-foreclosure, has been a prime target for vandals and will need almost total rehabilitation. When the renovations are complete, the building will house eleven 2-, 3-, and 4-bedroom apartments, with an additional 2,400 square feet set aside for day care. Action for Boston Community Development (ABCD) has expressed interest in operating a child care center on the site that could accommodate up to 40 children.

"We are addressing the constantly increasing need for day care services in whatever ways we can," said Lisa G. Chapnick, director of PFD. "This is the second time in recent weeks that developers have been selected by PFD in part because of the inclusion of day care space in their plans."

KVC Associates has a successful track record of rehabilitating small brick buildings in Boston. KVC actively seeks low-income Section 8 rental assistance certificate holders as tenants. This federal program covers the difference between a unit's rent (which cannot exceed HUD-approved fair market rent) and 30 percent of the tenant's income.

"I rarely have had a problem with any of my tenants," said Hugh Kelly, owner of KVC Associates. "I hire a live-in manager, preferably someone from the neighborhood with a Section 8 certificate themselves, and they have complete control and authority in the building. In most cases, the person is semi-retired, and has the time necessary to care for the building and its residents."

Mr. Kelly, who acts as his own general contractor, has applied for tax credits and with the help of the Public Facilities Department is investigating other financial assistance programs. Total development costs are expected to be close to \$1 million. Once the financing is secured and permits are issued, work is expected to be complete in only six months.

## MBTA TO ALLOW BIKES ON NORTHSIDE COMMUTER RAIL ON SUNDAYS AND HOLIDAYS

Massachusetts Bay Transportation Authority (MBTA) General Manager James F. O'Leary announced that bicycles are now allowed on northside commuter rail trains every Sunday and on selected holidays. The new year-round program follows a trial commuter rail

bike program which operated last summer.

O'Leary said, "We are pleased to provide the opportunity for cyclists to reach areas that would otherwise be inaccessible to them."

Persons who wish to take their bicycles onto northside (Fitchburg, Lowell, Haverhill and Rockport/Ipswich branches) commuter rail trains must first obtain an MBTA Bicycle Permit available at the MBTA's Downtown Crossing (Washington St.) office. Permits cost \$5.00 and are valid for two years.

Due to space and safety considerations, up to four bicycles are allowed on each commuter train. Cyclists must obtain reservations first, for each direction in the case of round trips, before bringing their bikes on board.

Reservation forms may be obtained in person at the North Station Information Desk on a first come first served basis up to six days before the trip. The North Station Information Desk is open on weekdays from 6:30 a.m. to midnight and on weekends from 7:30 a.m. to midnight.

Telephone reservations may also be made by calling 227-5070 or 1-800-392-6099. In the case of phone reservations, cyclists leaving from North Station should plan on arriving at least 15 minutes before departure in order to pick up reservation forms at the Information Desk. Cyclists boarding trains outside of Boston should reserve space early in the week in order to allow time to receive reservation forms by mail.

There is no additional charge for the bicycle, but cyclists must pay the regular commuter rail fare, according to destination. Cyclists with a monthly commuter rail pass can bring a guest along for free.

Cyclists will not be allowed to bring bicycles aboard the trains on Sundays between Thanksgiving and Christmas and on the following holidays: Patriots' Day, Bunker Hill Day (June 17th), July 4th and Columbus Day.

Registered cyclists may also bring their bikes on Sundays on the MBTA's Red, Orange and Blue rapid transit lines.

Additional information about the bicycle program may be obtained by calling 722-5975. For information about commuter rail service, please call the MBTA's Telephone Information Center at 722-3200 or 1-800-392-6100.

## MODERNIZATION OF SOUTH STATION RED LINE TO ENTER FINAL PHASE

MBTA General Manager James F. O'Leary recently announced that work is starting on the final phase of modernization work at South Station (Red Line), under a \$13.7 million contract with the J. F. White Contracting Company of Newton.

South Station Red Line is one of the stations undergoing modernization as a platform lengthening under an \$80 million program that includes six other Red Line and three Orange Line stations.

Work to be performed at South Station includes a new underground connector linking the Red Line station at the South Station Transportation Center lobby, new steel and glass kiosks for all four entrances, one new elevator from the Red Line station to the Transportation Center, and station finishes including tile walls and floors, acoustic ceilings, new station lighting, and public address, police talk-back, close circuit TV and train arrival announcement systems.

Included under the first phase work at the Red Line South Station, the platforms were extended to accommodate six-car train operation, a new signal system and new fare collection equipment.

## BRUCE HURST BEGINS "SOX TALK" PROGRAM

Red Sox pitcher Bruce Hurst joined Mayor Raymond L. Flynn, Parks Commissioner William B. Coughlin, and over 200 youths from throughout Boston at Columbus Park in South Boston, for the kickoff to "Sox Talk," a new program in which Red Sox players will talk to kids about issues and baseball in Boston neighborhood parks.

The program, sponsored by the Boston Parks and Recreation Department and WBZ-TV, features Sox players Hurst, Mike Greenwell, Oil Can Boyd, Ellis Burks, Marty Barrett, Dennis Lamp, Todd Benzinger, and Ed Rothero. The players will teach baseball fundamentals, and will discuss youth issues like substance abuse, teen violence, sportsmanship, and the importance of education.

Mayor Flynn, who welcomed Hurst to Columbus Park in South Boston, said, "I commend the Red Sox for their dedication to the youth of Boston. This program will give kids an alternative to the temptations of drugs on our city streets and promote a new understanding of others by crossing neighborhood boundaries."

In addition to Columbus Park, the "Sox Talk" sessions will run at McKinley Park in Allston-Brighton, East Boston Stadium, Wainwright Park in Dorchester, and Walker Playground in Mattapan, according to Program Director Paul Barrett.

Parks Commissioner Bill Coughlin said, "The addition of the Red Sox to our schedule complements our summer programming. We are committed to bringing activities into neighborhood parks that provide both recreation and education. The 'Sox Talk' program does both."

Participants at the "Sox Talk" opening were treated to refreshments, videos, and photos taken with Bruce Hurst. The youngsters came from various community groups throughout the city, including the South Boston Boys Club, Babe Ruth Little League, the Tynan School, Roxbury Boys Club, and Columbia Point Youth Center.

### MAYOR FLYNN APPOINTS LEE JACKSON AS COLLECTOR-TREASURER

Mayor Raymond L. Flynn has announced the appointment of Lee F. Jackson as Collector-Treasurer for the City of Boston. Jackson will assume his new post on August 15.

"Boston is fortunate to have a professional financial manager of his caliber on our team of fiscal managers," said Mayor Flynn.

"We have worked hard during the past four and one-half years to put Boston's financial house in order. After years of chronic deficits and below-grade investment bond ratings, we have turned the corner to achieve financial stability. Boston has consistently

secured higher bond ratings — five times in the last three years — from New York's investment rating firms. We have imposed strong management controls and performance evaluations to balance our budgets and to improve the delivery of essential city services.

"I am confident that Lee Jackson will contribute greatly to the continuing improvement of Boston's financial position and also, to our ongoing efforts to reduce borrowing costs and allocate greater shares of resources to the delivery of basic services," Mayor Flynn said.

Jackson is presently a vice-president of Public Finance for the First Boston Corporation's San Francisco office. He will bring with him to the City of Boston

years of financial experience with municipal governments.

Among his accomplishments are the financing of public infrastructure projects in several cities throughout the United States, such as waste-to-energy, water, sewer, transportation, port, and correctional facility financings. He also assisted in developing a composite industrial development loan pool program to provide low-cost financing to Oregon manufacturers. Jackson managed a \$35-million financing program for the City of Santa Clara, California, and served as a financial advisor to the City of Los Angeles for the financing of a \$2.3-billion wastewater system rehabilitation program. He also served as a financial advisor to the City of Oakland, California, for a \$220-million sewer system improvement program and a proposed \$250-million re-funding.

A 1979 graduate of Williams College, Jackson graduated cum laude with a B.A. in economics. He received his MBA from Stanford University in 1983 and was a member of Stanford's public management program.

Jackson is a member of the National Urban League. His interests include traveling, photography, and track and field.

### BOSTON PAYS TRIBUTE TO SAMUEL ELIOT MORISON

BY FREDERICK SOMMER**

*Museum of Fine Arts, August 6 — October 16.*

Born in 1905, Frederick Sommer is one of America's leading experimental and avant-garde photographers. This exhibition of fifty-five works, organized and circulated by The Denver Art Museum, focuses on Sommer's more abstract images, including "cameraless photographs," hand-made negatives created from paint on cellophane, smoke on glass, cut paper, or embossed aluminum. Related color drawings and visually constructed musical scores offer insight into Sommer's creative thinking. Many of the works on view belong to the photographer's collection, and have never before been published or exhibited.

According to Clifford S. Ackley, curator of the Department of Prints, Drawings, and Photographs, "For photographers, Sommer is one of the legendary figures. Inspired by surrealism, he has demonstrated once and for all that the camera can also record private fantasies or visions, some verging on the wholly abstract. Never afraid to rearrange reality for the lens, his work is full of surprises."

A fully illustrated catalogue, *The Mistress of This World Has No Name*, accompanies the exhibition and includes a poetic text by the artist, an essay by

Stephen Aldrich, and a preface by Denver Art Museum contemporary art curator Dianne Perry Vanderlip.

## CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

#### ADMINISTRATIVE SERVICES DEPARTMENT Purchasing Division Copier Service

Dear Mr. Mayor:

Your Honor's permission is respectfully requested to award contracts, without advertising to the manufacturers listed below, for the service and maintenance of copiers (CC600-37-38-39-40) for various city departments for the twelve-month period July 1, 1988, through June 30, 1989.

Copiers to be maintained will include those which are currently City owned, under existing lease/purchase contracts, or which may be purchased outright or put under lease/purchase contracts during Fiscal Year 1989.

Under these contracts, the manufacturers listed will provide materials and will perform all service necessary for preventative and remedial maintenance of copiers.

A schedule of copiers to be serviced and maintained will be furnished by the manufacturers, and will become a part of these contracts. It will show the department location, model number and serial number, and monthly cost of each copier. The schedule will be updated if additional copiers are added or deleted, as the situation requires.

Since the manufacturers are to provide direct service by their own specially trained service technicians, and replacement parts will be readily available for their use, it is my opinion that no benefit will result from advertising for bids.

The cost for the service and maintenance is reasonable and will be no higher than prices charged to the General Services Administration or the Commonwealth of Massachusetts, whichever is lower.

Accordingly, your Honor's permission is respectfully requested to award contracts to the companies listed below, for a total estimated amount not to exceed \$800,000. Individual contract amounts are estimates based on previous experience.

Xerox Corporation, Lexington, \$300,000; International Business Machines Corp., Waltham, \$150,000; Eastman Kodak Company, Wellesley, \$100,000; Ricoh of America, Inc., New Jersey, \$100,000; Savin Business Machine Corp., Brighton, \$75,000; Océ Business Systems, Inc., Boston, \$50,000, and A-Copy, Westwood, \$25,000.

Respectfully yours,  
John F. Scalcione,  
Purchasing Agent.

#### BOSTON WOMEN'S COMMISSION Various Posters

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and award a contract to the Winthrop Printing Company, a company located at 235 Old Colony Avenue, South Boston, for the purpose of producing various posters for the Women's Commission.

Originally the Women's Commission had anticipated that the cost related to these printing services would not exceed \$2,000 and therefore sought informal bids from vendors in this field. The Commission selected Winthrop Printing Co. based on

their ability to meet the quality of the services required at the lowest price. A contract is required at this time due to a second printing of the posters that will bring the cost over \$2,000.

The cost of these services shall not exceed \$3,500. This figure is based on the individual poster costs of two dollars per 18 x 32 inch poster and ninety-two cents per 6 x 11 inch poster. I have determined these figures to be reasonable for the services to be performed. This is the first agreement with this vendor by this department.

The period of performance for this agreement shall be from January 1, 1988, through June 30, 1988. This agreement is being processed at this time due to the fact that the Commission did not anticipate these costs exceeding the contract bid limit until very recently.

Therefore, in light of the fact that Winthrop Printing Company has already delivered high quality posters from the first printing and that it will be most cost effective for the Commission to have the same company perform the second printing I believe public advertising would serve no useful purpose in this instance.

Sincerely,  
M. Kathleen Hennessy,  
Boston Women's Commission.

#### COMMISSION ON HANDICAPPED AFFAIRS Compliance Program Services.

She will also be responsible for assisting in the development of training programs for City personnel to increase their awareness of disability rights law and to provide assistance to persons with disabilities seeking equal opportunities in City programs and services. Ms. Snow is particularly qualified to do this work because she has excellent word processing skills, extensive experience working with the deaf-blind communities, and is proficient in an advanced level of American Sign Language.

Compensation under this contract shall be payable at a rate of \$6.50 per hour, which shall not exceed \$3,005. The term of this contract shall be from April 6, 1988, to June 30, 1988.

Because Ms. Snow is specially qualified to do this work for a reasonable price, I believe that public advertising would serve no useful purpose.

Sincerely,  
Charles J. Sabatier, Jr.,  
Executive Director.

#### HEALTH AND HOSPITALS DEPARTMENT Microbiology Products

Dear Sir:

An invitation for bids, Proposal No. 805, to furnish microbiology products to the Department of Health and Hospitals was advertised in the *City Record* on April 4, 1988. Bids were publicly opened and read on April 20, 1988. Thirty-nine companies were solicited and eighteen companies responded to the invitation to bid.

A technically defective bid was received from the following vendors, who submitted the lowest acceptable bids meeting specifications at prices I

consider to be reasonable. Both vendors submitted a late bid with the Purchasing Department at Boston City Hospital and one vendor did not file a copy with the City Auditor.

E. I. DuPont DeNemours & Co. Delaware, \$8,000.

Sensititre Systems Group, Radiometer American, Inc., Ohio, \$5,000.

Therefore, because it is the best interest of the City, pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to award a contract, without further advertising, to the above vendors. The contract amounts are approximate figures based on estimated volumes. The contract period is from July 1, 1988, through June 30, 1989.

Very truly yours,

Lewis W. Pollack,  
Commissioner.

#### Pharmacy Depot Program

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals I respectfully request your Honor's permission to award contracts, without advertising, to the following vendors for the period July 1, 1988, through June 30, 1989, not to exceed the indicated amounts:

James W. Daly, Inc., Peabody, \$2,300,000, Cost plus 2.5 percent Semi-monthly payments; Cost plus 3.0 percent monthly payments.

James Brudnick Co., Inc., Malden, \$800,000, Cost plus 2.5 percent Semi-monthly payments.

The above vendors have provided a Pharmacy Depot Program to the Department of Health and Hospitals for the past 2 years. Under their present contracts, which were awarded as the result of a public bid, the Department of Health and Hospitals has the option to renew for another year at the same terms and conditions.

Because the vendors have provided satisfactory service, the terms and conditions are remaining the same and the costs are reasonable, I recommend that the Department accept the option to renew these contracts for an additional year.

Very truly yours,

Lewis W. Pollack,  
Commissioner.

Compensation under the contract shall not exceed \$9,324, payment being made from the funds received under the Job Training Partnership Act (JTPA). The period of performance shall be from May 1, 1988, until June 30, 1989. The submission of this letter has been delayed due to the length of the proposal review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids by advertising in the *City Record* pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Sincerely,

Neil H. Gordon,  
Associate Director.

#### Air Conditioning

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to BayState York, Inc., located at 803 Summer Street, Boston. Under the terms of the contract, the contractor will disconnect, move,

and reconnect a Liebert Challenger 2 Air Conditioning System for the Mayor's Office of Jobs and Community Services (JCS). JCS is moving from its current location at 15 Beacon Street to 35-43 Hawkins Street, and the air conditioning unit is required for the computer hardware used by JCS.

The contractor was selected as the sole respondent to a publicly advertised Request for Proposals (RFP) conducted by JCS and advertised in the *Boston Globe* on January 24, 1988. Three other firms were contacted, but the contractor was the only one to survey and bid the job. In my opinion the cost is reasonable. Compensation under the terms of the contract shall not exceed \$4,900, and the period of performance shall be from April 15, 1988 until June 30, 1988.

As this contract is for professional services at a reasonable cost, I believe that public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids by advertising in the *City Record* pursuant to authority granted under the City of Boston Code St. 4, s. 5.

Sincerely,

Neil H. Gordon,  
Associate Director.

#### Training

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to Action for Boston Community Development, Inc., (ABCD), a non-profit corporation, with offices at 178 Tremont Street, Boston, to operate the Summer Youth Employment and Training Program (SYETP) during the federal fiscal year 1988. Under the terms of this contract, the contractor will plan and operate a 7-week summer work experience program for approximately 1,020 City of Boston economically disadvantaged youth between the ages of 14-21. The program is designed to develop the participants' skill levels, reinforce sound work habits and enhance their future employability. The program will consist of a national demonstration academic enrichment component, a youth conservation corps, and a work experience component. In addition, vocation counseling and support services will be provided to the participants.

The contractor was selected based upon an acceptable proposal in the areas of curriculum design and cost effectiveness. ABCD, the City's largest anti-poverty agency, has conducted the Summer Youth Employment Training Program in the City of Boston for the past several years and has been exemplary in the planning, implementation and management of these programs.

Funds for the operation of this contract will be provided to the City of Boston through a federal grant for the Summer Youth Employment Training Program under the Job Training Partnership Act (JTPA). The contract will be effective for the period February 1, 1988, through December 31, 1988, at a total cost not to exceed \$1,447,526. This request was delayed due to contractual negotiations at the time involved to determine the appropriate funding level for this planning period.

As this is a negotiated contract at a reasonable cost, based upon an extensive proposal review, I believe that public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids by advertising in the *City Record* pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Sincerely,

Neil H. Gordon,  
Associate Director.

## Shelter Services

Dear Mayor Flynn:

Under the terms of the contract, the contractor will provide temporary shelter to battered women and their children. The program will offer services to approximately 200 families. These services will be funded in conjunction with the State's Department of Social Services (DSS) Public-Private Partnership Program, in which the City contributes up to a 25 percent local share. The Contractor was selected based upon an evaluation of refunding proposals submitted to both DSS and the Mayor's Office of Jobs and Community Services (JCS). Other selection criteria include the results of site monitoring visits conducted by JCS staff, an overall review of the Contractor's performance during the prior contract period, administrative capability, reasonableness of cost, and the ability to serve the targeted population. Costs are determined by rates set by the State Rate Setting Commission and a negotiated number of service units, determined by both DSS and JCS.

Compensation under the terms of this contract shall not exceed \$10,379, payment being made from the Community Development Block Grant (CDBG) program. The period of performance shall be from July 1, 1988, until June 30, 1989.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids by advertising in the *City Record* pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Sincerely,

Neil H. Gordon,  
Associate Director.

The Contractor was selected based upon an evaluation of its proposals submitted in response to a publicly advertised Request for Proposals (RFP) conducted by the Mayor's Office of Jobs and Community Services (JCS) and advertised in the *Boston Globe* on January 10, 1988. Costs were determined to be reasonable after extensive analysis by JCS staff and outside readers. Other selection criteria include administrative capability, the ability to serve the targeted population, and a review of the Contractor's performance during prior contract periods where applicable.

Compensation under the terms of this contract shall not exceed \$29,700, payment being made from the Community Development Block Grant (CDBG) program. The period of performance shall be from July 1, 1988, until June 30, 1989. This contractor has had contracts with this agency for this program for the previous three fiscal years at the following funding amounts: FY 86-\$25,000; FY 87-

\$25,700; FY 88-\$29,700. This request has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised RFP, I believe that further public advertising would serve no useful purpose.

Sincerely,

Neil H. Gordon,  
Associate Director.

Under the terms of this contract, Mr. Jackson will provide services to the Tax Title Division of the Law Department which will include obtaining addresses of equity owners, mortgages and other

parties of interest in properties in the department and general office responsibilities. Mr. Jackson is uniquely qualified to do this work because of his research ability and experience.

The term of this contract shall be from July 1, 1988, through June 30, 1989.

Very truly yours,

Joseph I. Mulligan,

#### LIBRARY DEPARTMENT

##### Storage of Books

Dear Mr. Mayor:

The Board of trustees in charge of the Library Department of the City of Boston respectfully requests that you approve the signing of an agreement with the New England Deposit Library for the storage of books and other library materials for the period July 1, 1988, through June 30, 1989.

The New England Deposit Library building is located at 135 Western Avenue, Allston, under the terms of chapter 240 of the Statutes of 1941. The Act names the Boston Public Library as a Participating Institution, together with the Massachusetts State College, the Boston Athenaeum, Boston College, Boston University, Simmons College, the Massachusetts Historical Society, and other libraries, for the purpose of providing storage space for books and other library materials for which there is only occasional use and for which storage space is not available in intensively used library buildings. The Participating Institutions share cooperatively in the low-cost schedule of rates standard for all "Participating Institutions".

The Trustees have set a limit of \$34,374 on the amount to be expended for storage space for the period of the agreement and have taken the following action:

VOTED: that there be entered into with the New England Deposit Library, 135 Western Avenue, Allston, Massachusetts, an agreement for the rental, during the period July 1, 1988, through June 30, 1989, of storage space therein for books and other library materials belonging to the Boston Public Library, in accordance with the rates of storage space formally adopted by the governing board of said New England Deposit Library.

In the opinion of the Official, the cost is reasonable for the services to be rendered. Inasmuch as the total cost of the storage space will exceed \$2,000, there is respectfully requested permission of your Honor to enter into this agreement without publicly advertising for bids.

Respectfully,

Arthur Curley,  
*Director and Librarian.*

#### SCHOOL DEPARTMENT

##### Writing Workshop

Dear Mr. Mayor:

On behalf of the Boston Public Schools, I request your authorization for the award of a contract to Phillips Academy, located in Andover, MA 01810. The contract shall be in effect during the period from July 25, 1988, to August 25, 1988, and shall occur at a cost not to exceed \$20,000, which I have determined to be reasonable. On March 26, 1988, the School Committee approved all of the chapter 636 FY '89 proposals for the sum of \$6,022,377.

The contractor will offer a camp at the academy where students will receive training in expository, critical and creative writing. They will also analyze and discuss literature. In addition they will be trained in peer editing and in setting up a writing workshop of their own. At the end of their workshop, the students will create a magazine that consists of the best work they have done during the summer.

The contractor is uniquely qualified to provide the above services because; the contractor has organized appropriate resources to enable the Boston School Department to qualify for funding under chapter 636 (1974 Amendments to the 1965 Racial Imbalance Act); the institution has specifically designed services in conjunction with school personnel to meet the intent of U.S. District Court Judge, W. Arthur Garrity, Memorandum and Orders Modifying Desegregation Plan (*Morgan v. McDonough*, Civil Action No. 72-911-G; further, the services have been reviewed and approved by appropriate personnel at the Department of Education.

This agreement is to be expected without an appropriation of funds under provisions of General Laws, chapter 44, s. 53A, and is subject to the receipt of funds under grant from chapter 636.

This is the first contractual agreement between this vendor and the Boston Public Schools.

Very truly yours,

Laval S. Wilson,  
*Superintendent.*

#### CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

##### LIBRARY DEPARTMENT

##### HVAC Services, etc.

Dear Mr. Mayor:

The Board of Trustees in charge of the Library Department of the City of Boston respectfully requests that you approve the signing of a contract amendment with Building Technology Engineers Inc., Boston Marine Industrial Park, 306 Northerr Avenue, Boston, for the operation and servicing of heating, ventilating, and air conditioning systems electrical system and equipment, as well as plumbing systems throughout the various units of the Boston Public Library System during the period July 1, 1988, through September 30, 1988.

Your Honor has given approval for the award of this contract following a public advertisement and a public opening of bids. Bids were invited and submitted for the above mentioned work during the period July 1, 1985, through June 30, 1986, with option for renewal as of July 1, 1986, and as of July 1, 1987, at the bid price. The trustees are now requesting a three-month extension on this contract due to the following reasons:

The Library Department publicly advertised the above preventive maintenance (HVAC) contract and opened bid proposals on Monday, May 2, 1988, and received three valid bid proposals. On May 16, 1988, the Trustees met as an administrative agency and were prepared to vote an award to the lowest eligible, responsible and responsive bidder, when it was revealed that this type of contract preventive maintenance (HVAC) service, must be advertised under General Law, chapter 149, and not as it was advertised under General Law, chapter 44. Thus, all bids were rejected and a new contract document was prepared, following the General Laws, chapter 149.

Chapter 149, relates to municipal building contracts, amounting to over \$25,000. In 1986, this State Law was amended to include all preventive maintenance contracts over \$25,000. The Library Department had their three year preventive maintenance contract in effect prior to this Statute Amendment, that also allowed the Official to opt out for renewal through Fiscal Year 1988. Not aware of this General Law change under chapter 149, the Library Department issued their regular contract bid documents (G.L. 44) for preventive maintenance service during Fiscal Year 1989, that was thereafter rejected by the Trustees.

New contract documents reflecting chapter 149 General Bidding Conditions were developed and made available to all bidders of record on Tuesday, May 31, 1988. The public advertised bid for the preventive maintenance contract (G.L. c. 149) was scheduled to be held on Wednesday, June 1, 1988. The day before the opening, Tuesday, June 14, 1988, the Business Office of the Boston Public Library was informed by telephone to cancel the bid opening per Mr. Peter Waltonen, lawyer for the Commonwealth of Massachusetts, Department of Labor and Industry.

Mr. Waltonen, stated the following reasons why this contract bid opening must be cancelled:

a) The Commonwealth of Massachusetts, Labor and Industry Wage Rate Schedule issued for this library preventive maintenance contract document were incorrect, due to current contract negotiations.

b) New published wage rates will be published and made available from this State agency in two weeks.

Thus, all bidders were notified a second time, that this contract bid opening was being cancelled. A new date for bidding would be established as soon as the Library Department received the correct State wage rate schedules.

In view of the foregoing, the Board of Trustees in charge of the Library Department, acting for and in behalf of the City of Boston, are respectfully requesting your Honor's permission to amend the current contract with Building Technology Engineers, Inc., by extending the period of service provided under this present contract for an additional three months (July 1, 1988, through September 30, 1988). The cost per month at current bid price is \$26,362.28, that will amount to \$79,086.84, in addition to a 10 percent additional monthly charge due to the three-year fixed contract labor rate that current contract has been held at. Therefore, the total cost for this amended three-month contract, will amount to \$86,955.53.

This contract amendment has been discussed with the City Law Department, Budget Department and Auditing Department, and has been agreed to as an acceptable approach to this unique contract situation.

Based on the circumstances outlined above, public advertisement would serve no useful purpose. The cost for this contract amendment is reasonable for the services to be rendered during this extended three-month period.

Respectfully,

Arthur Curley,  
Director and Librarian.

#### TRANSPORTATION DEPARTMENT Processing Parking Violations

Dear Mr. Mayor:

In response to a request for Proposal (RFP) advertised in the *City Record* on December 10, 1984, and also in the *Boston Herald*, *Boston Globe* and *New York Times* on December 9 and 12, 1984, for the design, development and operation of a state-of-the-art relational or relational-like data base management system for the reporting and processing of parking violations, your Honor approved, on July 3, 1985, the award of a contract to Datacom Systems Corporation (Datacom), 186 Lincoln Street, Boston, MA 02111, in an amount not to exceed \$4,200,000, for the period July 1, 1985, through June 30, 1986. Your Honor then approved an amendment on May 20, 1986, which increased the contract amount by \$360,000, thereby increasing the total amount of the contract to an amount not to exceed \$4,560,000.

The contract, as noted in the original award letter provided by your Honor, contained an option to renew on the part of the City for successive twelve-month periods ending June 30, 1989. On August 1, 1986, your Honor approved my request to renew the contract for the twelve-month period July 1, 1986, through June 30, 1987, at a cost not to exceed \$4,800,000. On June 26, 1987, your Honor again approved my request to renew the contract for an additional twelve-month period July 1, 1987, through June 30, 1988, at a cost not to exceed \$5,100,000.

Your approval is requested to amend the contract by increasing the maximum liability of the City for all services provided under this contract, as amended, by an amount not to exceed \$200,000. The total cost of the contract, as amended, shall not exceed \$5,300,000.

This increase is necessary to provide fair compensation to Datacom for the additional services associated with processing additional tickets and secondary/backlog ticket collection activities. Datacom will only be compensated for this secondary/backlog collection effort on a percentage basis of revenue collected in accordance with a formula set forth in the contract.

The period of this contract, as amended, shall not extend beyond June 30, 1988.

Sincerely,

Richard A. Dimino,  
Commissioner/Parking Clerk.

# CITY RECORD

RAYMOND L. FLYNN  
 MAYOR OF BOSTON

OFFICIAL CHRONICLE, MUNICIPAL AFFAIRS

CHRISTOPHER A. IANNELLA  
 PRESIDENT, CITY COUNCIL

DL. 80 MONDAY, AUGUST 15, 1988 NO. 33

## 1.5 MILLION RECONSTRUCTS TWO SOUTH BOSTON STREETS

Boston Mayor Raymond L. Flynn announced this week that the city's Public Works Department has awarded a \$1.5 million contract for major street reconstruction to A Street and Boston Street in South Boston.

Work on the two streets, slated to begin this summer, should take a total six weeks and will be performed by the Todesca Equipment Corporation of Westwood.

"The complete reconstruction of these two streets is an important part of Administration's commitment to restoring and maintaining top quality roadways in the neighborhoods of Boston," the Mayor said.

A Street will be completely excavated and reconstructed from Dorchester Avenue to Congress Street. In addition, sidewalks and streetlights along the street will be totally replaced. Throughout the six-week project, traffic will run one-way along A Street. The city's Public Works and Transportation Departments have worked closely with the Gillette Corporation and the Boston Wharf Company to map out a detour route that will keep automobile and truck traffic flowing throughout the construction period. In order to move the project ahead in a timely fashion, the contractor will work 12-hour days six days per week.

At the same time as the A Street work, the contractor will also completely resurface Boston Street from Andrew to Edward Everett Squares and replace the sidewalks along that street. Streetlights along significant portions of the street will also be replaced. The contractor is still working with the Boston Transportation Department to determine work hours for that part of the project.

"The A and Boston Streets project presents only part of the work that the Public Works Department is carrying out in South Boston this year," stated Commissioner Joseph F. Casazza. "For example, by the end of this week, we will have completed repair and resurfacing of East Broadway from Dorchester Street to I Street."

In order to counter rutting problems on East Broadway, the Public Works Department has resurfaced the road with a special "modified mix" asphalt.

Additionally, the city has recently completed sidewalk repairs on West Ninth, East Eighth and E Streets. Throughout the rest of this year's construction season, the Boston Public Works Department will continue to repair other streets and sidewalks throughout South Boston.

### \$2 MILLION ROADWAY RECONSTRUCTION IN ROSLINDALE, WEST ROXBURY IS WELL UNDER WAY

Mayor Raymond L. Flynn announced this week that major reconstruction of six streets in Roslindale is set to begin this fall. The reconstruction of the six streets, which will cost approximately \$750,000, will involve total reconstruction of the sidewalks, curbs and asphalt road surfaces.

"The complete reconstruction of these six streets represents an important part of my Administration's commitment to restoring and maintaining high quality roads and sidewalks in Boston neighborhoods," the Mayor said.

The six Roslindale streets to be reconstructed are: Brown Avenue, from Poplar Street to Florence Street; Delford Street, from Archdale Road approximately 278 feet southwesterly; Eastland Road, from Bourne Street to Bourne Street; Florian Street, from

Wyvern Street to Southbourne Road; Waterman Road, from Neponset Avenue to Bourne Street; and, Hawthorne Street, from Heathcote Street approximately 278 feet southeasterly.

While work on these six streets is set to begin this fall, complete reconstruction of eleven other streets in West Roxbury and Roslindale is nearly complete.

According to Joseph F. Casazza, commissioner of the Boston Public Works Department, "Reconstruction of these eight streets represents nearly \$1.2 million in work and should be wrapped up within the upcoming weeks."

Each of the eleven streets received new sidewalks, curbs and road surfaces. Work was carried out by the Todesca Equipment Corporation of Westwood. The eleven streets, including four in Roslindale and seven in West Roxbury, include: Baker Street, from Spring Street to Centre Street; Corey Street, from Weld Street to the V.F.W. Parkway; Cypress Terrace, from Cypress Street approximately 290 feet southerly; June Street, approximately 430 feet southwesterly; Oriole Street, from Emmonsdale Road to Park Street; Rustic Road, from Bellevue Street to Emmonsdale Road; Searle Road, from La Grange Street to Maplewood Street; Heathcote Street, from Poplar Street to Hawthorne Street; Delano Park, from Whitford Street to Poplar Street; Bellaire Road, from Cerdan Avenue to Burnside Avenue; and Amherst Street, from Penfield Street to Belgrade Avenue.

On both Baker and Corey Streets, formerly asphalt sidewalks will be replaced with concrete sidewalks. In addition, underground wiring conduits have been installed alongside Baker Street to facilitate future streetlight installation.

(Continued on next page)

## Roadway Reconstruction . . .

(Continued from front page)

Also, the Public Works Department has recently completed resurfacing of Gardner Street in West Roxbury and Kittredge Street in Roslindale.

Don Gillis, director of the Mayor's Office of Neighborhood Services, said "Mayor Raymond L. Flynn is carrying out a five-year Capital Plan that will see in excess of \$900 million going to rebuild and maintain parks, libraries, schools, public buildings, roadways, sidewalks, streetlights and all the other components of Boston's physical plant. When neighborhood residents see their street being rebuilt, they know that the Capital Plan is working for them."

## ARTS LOTTERY GRANTS

## QUABBIN RESERVOIR AVERAGE CONSUMPTION FOR YEAR JUNE/87 TO JUNE/88 WAS 34 MILLION GALLONS A DAY OVER SAFE LIMIT

A look at the June to June yearly average water consumption from the Quabbin/Wachusett Reservoir supply reveals that consumers are using water at a rate of 334 million gallons per day (mgd), 34 million gallons more than the 300-mgd water system was designed to supply.

"Even when we receive a few days of steady rain in the summer, we still face a water-supply drain," said Paul Levy, executive director of the Massachusetts Water Resources Authority. "The Quabbin is 13 feet below capacity and the late July rainfall will not replenish it.

The gift from this rain is that we will not need to water our lawns and gardens for a week."

You can save water outdoors easily this summer:

- You do not need to water your lawn or garden if there has been an inch of rainfall during the week. If there has been less than an inch, add just enough watering to bring the total up to an inch.

- In your garden, apply mulch to the base of plants to reduce evaporation, encourage root growth, and discourage weeds. Mulch can be 3 to 6 inches of grass clippings, compost or fir bark.

- Water your lawn and garden before 9 in the morning or after 9 at night to avoid excess evaporation — a real waste.

of the *Triumph of Pan*. Donations and purchases have added these and other beautiful tapestries to a collection long noted for its excellence.

Highlights of the exhibition include two unique tapestries from the "Life of Saint Ursula" series. Woven in Caen, France, about 1654-56 for the Ursuline convent there, the tapestries depict the quay-side embarkation of the Princess Ursula on a pilgrimage and the savage martyrdom of the saint and her companions by the Huns. Vibrant colors and rich details give these tapestries remarkable appeal. A tapestry from about 1525 illustrates the Greco-Roman myth of Narcissus, set against a *millefleurs* background, with the beautiful youth depicted as a Renaissance man-of-fashion.

#### VIII. HIGH COMMENDATION

On June 30, 1988, at approximately 1215 hours, Superintendent of Maintenance Dennis B. Flynn observed from his office an unknown male taking articles from a 1987 Ford Ranger in a parking lot adjacent to 911 Massachusetts Avenue, who then fled on Massachusetts Avenue in the direction of the Boston City Hospital.

Superintendent Flynn immediately chased and caught the suspect on Massachusetts Avenue. He subdued the suspect and held him to the ground until the arrival of Boston Police who had been summoned by Fire Fighter Joseph Connell. Superintendent Flynn suffered facial injuries during the struggle with the suspect and was taken to the Boston City Hospital for medical attention. The property was returned to the owner by the Boston Police and the suspect was taken into custody at Area B. Superintendent Flynn was treated and released at Boston City Hospital and relieved from duty by the Department Medical Examiner for the injuries he sustained.

This act was performed with great effort and personal risk, without the benefit of knowing whether the suspect was armed or not, and before the arrival of the Boston Police. Because of his quick, aggressive actions, without regard for his own personal safety, reflecting great credit upon himself and the Boston Fire Department, the Fire Commissioner is pleased to highly commend Superintendent of Maintenance Dennis B. Flynn for his actions and refers his case to the Board of Merit for further consideration.

## CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

#### ASSESSING DEPARTMENT

##### CAMA Services

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Sigma Systems Technology, Inc., Williamsville, New York 14221, for Computer Assisted Mass Appraisal System (CAMA) maintenance and enhancement services to the Assessing Department to assist the department in valuing taxable real property.

Under the terms of the contract, the contractor shall maintain the Assessing Department's existing CAMA system and perform other miscellaneous functions as required. The contractor will also provide the following enhancement and support services: 1) add Boston's newly created assessment subdistricts to the data base, 2) update the land valuation module of the cost valuation system, 3) create direct links between the Sigma Systems' market interface, cost and card print programs and Boston's SALEB and BLOCKS files to automatically fill such items as assessment districts and sales codes, 4) update and streamline the directories on the Boston Assessing Department's VAX which contain the Sigma software, 5) provide miscellaneous data processing support as requested by the Department, and 6) provide management and administrative services required for implementation of enhancements to the Sigma CAMA system.

These services are required to improve the capacity of the City of Boston Assessing Department to fulfill its statutory obligation to annually assess taxable real property within its jurisdiction at full and fair market value.

The contractor is uniquely qualified to perform these services. It previously developed and installed the existing residential CAMA system to the complete satisfaction of the Assessing Department. The existing RPIS and MODPRO software are the proprietary products of Sigma Systems Technology, Inc. and the file structures of the RPIS and MODPRO systems are customized and unique. Sigma is the sole source for upgrading the MODPRO system to include non-linear and constrained regression capabilities.

In addition the Assessing Department has determined that it is not cost effective in either the short or long term to contract with another vendor to supply the maintenance and other customized services to be supplied by this vendor with respect to the existing CAMA system. As the vendor which originally designed and developed the existing system, Sigma is able to most easily design software with the capability of directly accessing files and enhancing existing functions. Other vendors would be required to undergo an uncertain, lengthy and therefore costly period of acclimation to acquire

the skills necessary to provide the same customized services.

Sigma was initially selected as the result of a national search and RFP process to install the residential CAMA system.

Compensation under this contract shall not exceed \$35,000, which I have determined to be reasonable for the services to be performed. The contractor shall be compensated at the rates set forth in the contract.

The term of this contract shall be from July 1, 1988, through June 30, 1989.

This contract is being processed late because of the time necessary to negotiate the terms and conditions of the contract, including the specific enhancements to be developed and provided.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Sincerely,  
Thaddeus J. Jankowski, Jr.,  
Commissioner.

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to the Suffolk County Deputy Sheriffs, a corporation located at 11 Beacon Street, Room 309, Boston, for the service of civil process.

Under the terms of the contract, the contractor will serve civil process for the Law Department and the Tax Title Division of the Law Department.

The contractor is specially qualified to do this work because they are county officers appointed with the authority to serve civil process and their services have been exemplary in the past.

Compensation under this contract shall not exceed \$5,000, which I have determined to be reasonable for the work to be performed. The term of this contract shall be from July 1, 1988, through June 30, 1989.

Because these county officers are appointed

with the authority to serve civil process and the reasonable cost of these services, I believe that public advertising would serve no useful purpose.

Very truly yours,

Joseph I. Mulligan, Jr.,  
Corporation Counsel.

#### Legal Services

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to Nolan & Nolan, P.C., a law firm and professional corporation located at 21 Franklin Street, Quincy.

Under the terms of the contract, Nolan & Nolan will provide legal services which will include as necessary all pre-trial discovery, motions and trials of the following cases: *Thomas Walsh v. She has recently left the Law Department to join the firm of Nolan and Nolan. Although most of the cases that had been assigned to her were reassigned to other attorneys in the Law Department, it is necessary for Ms. Nolan to continue her representation in the above pending cases because of the complex legal issues involved and the necessity to insure continuity of counsel.

Compensation under this contract shall not exceed \$40,000, at a rate of \$70 per hour. These rates represent a substantial discount of rates Ms. Nolan will charge other clients. I have determined this rate to be reasonable for the work to be performed.

The term of this contract shall be from July 1, 1988, through June 30, 1989.

Because of the professional nature of the services to be performed and the specialized expertise and experience of Ms. Nolan, I believe that public advertising would serve no useful purpose.

Richard Bonz of Leggat McCall Advisors, Inc. is uniquely qualified to do this work because he has a Master's Degree in Urban Planning, has the professional designation of Counselor of Real Estate, has done real estate work in Boston and surrounding communities, and has testified in previous court cases.

Under the terms of this contract IBM will provide hardware maintenance to purchased equipment, programs and other software products especially developed for the IBM equipment and maintenance and upgrades to the software. The IBM software has been designed to meet specialized requirements of the School Department computer applications. IBM will also provide basic materials, related optional materials and maintenance thereof to perform computer operations in the Data Processing Center of the Boston School Department.

Since IBM has provided services of a specific nature, has performed satisfactorily and the cost to the City is deemed reasonable by the Business Manager, public advertising would serve no useful purpose.

Compensation to this vendor during the past fiscal years in the form of unadvertised contracts is as follows: 1984-1985, \$150,000.00/1985-1986, \$165,000.00/1986-1987, \$175,000.00.

The Auditor may certify an appropriation or other funds in an amount less than the face amount of each contract hereunder pursuant to the Standard Contract General Conditions, Article 12.3 and 12.4.

Very truly yours,  
Leo J. Burke,  
*Business Manager.*

Dear Mr. Mayor:

Your authorization is requested for the award of a contract without public advertising to Service Control, Inc. (Musitronic) Minnesota, at a cost not to exceed \$5,000, a cost I deem reasonable for the period July 1, 1988, to June 30, 1989.

The contractor agrees to repair, tune, replace and maintain parts for musical equipment, three

electronic piano labs and highly specialized technical equipment throughout the school system. Service Control, Inc. has a regional representative in New England area who is available on an as-called-for basis. Service Control, Inc. (Musitronic) is the sole supplier of parts to repair the equipment.

Service Control Inc. (Musitronic) is qualified to perform this service since they are the original installer and manufacturer of the equipment and they are the only qualified repair person able to provide this service. The Music Department has made recommendations for the repair service and Service Control, Inc. has provided excellent service, maintains an inventory of specialized parts and offers a reasonable rate since the equipment was installed in 1975. It appears that the best interest of the City would not be served by advertising for bids.

Compensation to this vendor for the past three years has been the following: 1986 - \$2,500.00/1987 - \$4,500.00/1988 - \$4,500.00.

Very truly yours,

Leo J. Burke,  
Business Manager.

## CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

### SCHOOL DEPARTMENT

#### Management Services

Dear Mayor Flynn:

On or about September 30, 1985, your Honor approved the award of a contract pursuant to G.L. c. 40, Sec. 4, after public advertising for bids, to National School Bus Service, Inc., a New York Corporation, with a place of business at 20 West Howell Street, Boston, for furnishing certain management services in connection with providing regular school transportation service for the period July 15, 1985, through August 31, 1987. The original contract included options to renew for contract year 1987-1988 and 1988-1989. The option to renew for contract year 1987-1988 was exercised in July, 1987.

I hereby request your authorization to amend that contract for the period September 1, 1987, through August 31, 1988, at an estimated cost not to exceed \$11,761,780 for contract year 1987-1988 and \$12,685,264 for contract 1988-1989.

The cost for 1987-1988 represents a \$150,000 reduction, from \$948,150 to \$798,150 in the management fee and a \$50,000 reduction, from \$1,247,388 to \$1,197,388, in costs for administrative and supervisory personnel. The cost for 1988-1989 reflects an increase of \$50,000 over the previously agreed upon \$995,000 in the management fee to \$1,045,500.

The contractor will continue to manage the operation and maintenance of a fleet consisting of approximately 365 school transportation vehicles to provide virtually all regular school transportation services within the City of Boston.

The School Department was assisted in the original contract development and award process by the firm of Peat, Marwick, Mitchell & Company. The terms and conditions of the original contract remain substantially unchanged except for changes in record-keeping requirements (Article 3.3, p. 3).

changes in the process for assessing liquidated damages (Article 7.7.1, p. 7); for the addition of vehicle standards upon termination (Article 3.8, p. 3); for the deletion of out-dated provisions relating to service initiation in 1985 (Articles 3.4.1 and 3.4.2, p. 3); and for the addition of language relative to the status of school bus drivers as public employees (Article 10.1, p. 10).

Because of extensive negotiations over the proposed sale and lease-back of the school buses to National School Bus Service, which was ultimately rejected; the intervention of the school bus drivers' strike; the completion of a transportation audit; the finalization of these amendment terms have been delayed substantially.

The price of the service is reasonable and the service by the contractor has been satisfactory, I, therefore, request your authorization to enter into these contract amendments, which were approved by the Boston School Committee on July 30, 1987.

Very truly yours,

Laval S. Wilson,

Superintendent of Schools.

## CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, bases on the following communications:

### ASSESSING DEPARTMENT

#### Legal Services

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to Gilman, McLaughlin, and Hanrahan, ("contractor"), 470 Atlantic Avenue, Boston, for legal services in representing the City of Boston and its Assessing Department in proceedings at the Appellate Tax Board, and the courts of the Commonwealth relating to matters of taxation and tax abatement litigation.

Under the terms of the contract, the contractor will provide legal services to the City of Boston and its Assessing Department for appeals before the Appellate Tax Board for Fiscal Years 1978 through 1988 for dockets concerning Boston Edison Company, and any related litigation. Further, the Contractor shall take the necessary and appropriate steps to prepare for litigation of any appeals pending at the Appellate Tax Board concerning assessments of all the Boston Edison Company property for fiscal years 1982 through 1988, as it may become necessary, and to pursue any related litigation. The services contemplated shall include the preparation of appeals to either the Appeals Court or the Supreme Judicial Court in matters concerning the Boston Edison Company. The contractor shall also represent the Assessing Department in any litigation arising from the taxes assessed on airline personal property for fiscal years 1983 through 1988.

Compensation under this contract shall not exceed \$100,000, which I have determined to be reasonable for the work to be performed. The contractor shall be compensated at hourly rates between \$40 and \$200 per hour depending upon the exper-

tise of the attorneys assigned.

The term of this contract shall be from July 1988, through June 30, 1989.

This contract is being processed late because negotiations were not completed until this time.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Sincerely,

Thaddeus J. Jankowski, Jr.,  
Commissioner

### HEALTH AND HOSPITALS DEPARTMENT

#### Maintenance, etc.

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to Bear Medical Systems, 52 Mirror Lake Avenue, Norfolk, for the period July 1, 1988, through June 30, 1989 at a cost not to exceed \$29,510.

Under this contract Bear Medical Systems will provide:

1. Factory reconditioning of five Bear 1 ventilators at a cost of \$4,394 each totaling \$21,970.

2. Annual preventive maintenance for a cost of \$377 each machine totaling \$7,540. 13 Bear 1, 2 Bear Cub, 4 BP-200.

In fiscal year 1988 the contract was awarded as a result of a public bid to Mass. Bay Medical Repair, Inc. for \$33,000. In fiscal year 1987 the contract was awarded as a result of a public bid to Cardio Pulmonary Care, Inc. for \$22,775. In fiscal 1986 the contract was awarded as a result of a public bid to Cardio Pulmonary Care, Inc. for \$42,555.

Cardio Pulmonary Care, Inc. used to forward the ventilators to Bear Medical Systems for reconditioning but Cardio Pulmonary Care, Inc. no longer provides this service. Mass. Bay Medical Repair, Inc. forwarded the ventilators to Mediq/PRN for reconditioning. The Department has been notified that Bear Medical Systems that Mediq/PRN is not authorized to do such maintenance on these machines.

In view of the above, because Bear Medical Systems, the manufacturer, has trained personnel and availability of parts and because the cost, in my opinion, is reasonable, no benefit would inure to the City by publicly advertising for bids.

Very truly yours,

Lewis W. Pollack,  
Commissioner

### PUBLIC FACILITIES DEPARTMENT

#### Consultant Services

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on May 26, 1988, I respectfully request your Honor's written permission to dispense with public advertising and award a contract to She Kennedy, an individual, located at 73 Bigelow Road, Brighton, providing technical consultant services. Under the terms of the contract, She Kennedy shall assist the Public Facilities Department with the organization of a conference that focus on issues involving the homeless. The conference will be held in December of 1988. In addition, she will assist in developing legislative initiatives to expand resources and coordination issues involving the homeless, social services, and job training. This will include a national search model programs.

Sheila Kennedy is particularly qualified to do this work because of her eleven years of research and experience in Boston neighborhood housing initiatives and knowledge of statewide and congressional legislative initiatives and directives. As a result, Sheila Kennedy has extensive experience and expertise in dealing with agencies related to housing and development.

Compensation under this contract shall not exceed \$20,000, which I have determined to be a reasonable cost for the services to be performed. The term of this contract shall be from August 1, 1988, to June 30, 1989.

Because of the reasonable cost of the services to be provided, and the particular qualifications of Sheila Kennedy, I believe that public advertising would serve no useful purpose in this instance.

Sincerely,

Lisa G. Chapnick,  
Director.

## PUBLIC WORKS DEPARTMENT

Your permission is requested to dispense with writing proposals by advertisement in the *City Record* in awarding to the Greater Boston Convention and Visitors Bureau, Inc., Prudential Tower, Suite 44, P.O. Box 490, Boston, a contract for furnishing information service at a booth on Boston Common, promoting places of historic value in Boston, particularly all historic places along the Freedom Trail, for an amount not to exceed \$265,000, which in my opinion is reasonable, under which the Bureau shall provide the following visitor services during the period commencing July 1, 1988 through June 30, 1989.

Boston Common Visitor Information Center Salaries (2 full time, 5 part time), \$39,750; Insurance and related, \$3,180; Repairs and Maintenance, \$10,600; Water and Utilities, \$2,120; Telephone, \$1,590; Supplies and Equipment, \$1,060; Insurance and Security, \$1,060; Administrative, \$360; Sub-Total: \$65,720.

An information service of this kind, here involved, is obviously a quasi-professional service which is unique and does not readily lend itself to writing proposals by advertisement.

Respectfully,

Chairman.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing these services, it is my determination that the public interest would not be served by publicly advertising for bids.

This is the first contractual agreement between the Boston Public Schools and Megan Christopher.

Very truly yours,

The total amount of services and reimbursement shall not exceed \$10,000 during the term of the contract.

Because of the professional nature of these services to be provide under this agreement and the expertise of the contractor in providing these services, it is my determination that the public interest would not be served by publicly advertising for bids.

**Compact Director**

Dear Mr. Mayor:

As Superintendent of the Boston Public Schools, I respectfully request your authorization for the award of a contract to Boston Private Industry Council, a corporation located at 185 Devonshire Street, Boston, Massachusetts.

This contract shall be in effect during the period July 1, 1988, to June 30, 1989, and shall occur at a cost not to exceed \$60,663, which I have deemed to be reasonable.

Under the terms of this contract, the contractor will provide the Boston Public Schools with the services of Edward Dooley, who will serve as the Executive Director of the Boston Compact. In that capacity, Mr. Dooley will act as liaison between the Superintendent of Schools and the three communities of interest committed to the Boston Compact: trade unions, businesses, and universities. The compact director will work directly with leaders of these communities to achieve measurable results in jobs, education support, and apprenticeship opportunities.

The compact director will represent the superintendent on all committees, task forces, and work groups related to compact activity, and will serve as lead staff for all school department contact with business and post-secondary education providers. Mr. Dooley will have particular responsibility for policy leadership and initial implementation of the Drop-Out Prevention and Re-Entry plan, and will serve as a liaison between the superintendent's office, the mayor's office, and community organizations on all matters related to the drop-out issue.

The contractor is specially qualified to provide the above services because as a long-term participant in the tri-lateral council, which was instrumental in the creation of the Boston Compact, and as an

experienced developer of successful programs for at-risk youth, he has proven himself to be uniquely qualified to serve the school department in these matters. Mr. Dooley will be compensated for his services at the rate of \$233 per day.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing these services, it is my determination that the public interest would not be served by publicly advertising for bids.

Compensation to this vendor during the past three fiscal years in the form of unadvertised contracts is as follows: 1988 — \$57,500, 1987 — \$54,280.

Very truly yours,  
Laval S. Wilson,  
Superintendent of Schools.

**Alarm Systems**

Dear Mr. Mayor:

I request your approval of my action in awarding a contract without public advertising to the following firm for the supervision and maintenance of intrusion alarm systems presently in operation in eleven school buildings: Special Agent Systems, Inc., 67 Pleasant Street, Watertown, MA 02172.

The total amount of the contract will not exceed \$35,317.20, and the contract will be in effect from July 1, 1988, through June 30, 1989. It is my considered opinion that this cost is reasonable and fair.

This company has been providing this service to the Department of Planning and Engineering for many years and is uniquely qualified to perform this work in these school buildings. Inasmuch as this equipment has over a period of years been leased from this firm and along with the fact that the equipment is tied in with their central station and is monitored on a full-time basis by them, the Special Agent Systems Company is the only firm that can supply this service to the eleven school buildings covered by this proposed contract. In addition, this program operates in conjunction with the City of Boston Public Facilities Department Municipal Police. The cost of this contract in fiscal 1986 was \$30,958.44, FY 1987 — \$35,003.28, FY 1988 — \$36,760.

It is my opinion that public advertising would serve no useful purpose.

Very truly yours,  
Robert R. Roy,  
Senior Structural Engineer.

**Copier Maintenance, etc.**

On behalf of the School Committee of the City of Boston, I request your authorization to award a contract, without public advertisement, to Savin Corporation, 1480 Soldier's Field Road, Brighton, for the renewal of copier machine maintenance service and incidental supplies for the period of July 1, 1988, through June 30, 1989, at a cost not to exceed \$95,000.

The contractor will continue service under the terms and conditions of their 1987-1988 contract. The copier machines are located in various schools and district offices in the Boston School Department. Savin Corporation is specially qualified to provide the above services based upon its satisfactory performance of substantially the same service during July 1, 1987 through June 30, 1988. In addition, Savin Corporation has an available inventory of parts-on-hand that are compatible with Savin equipment.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing such services, it is my determination that the public interest would not be served by advertisement for bid.

Compensation to this vendor during the past three fiscal years in the form of unadvertised contracts is as follows: CO4426(86) — \$160,000; CO4426(87) — \$200,000; and CO4911(88) — \$200,000.

Very truly yours,  
Leo J. Burke,  
Business Manager

Dear Mr. Mayor:

On behalf of the School Committee of the City of Boston, I request your authorization to award a contract, without public advertisement, to Savin Corporation, P.O. Box 1039 (ALOHA), Syracuse, N.Y. 13201, for the renewal of copier machine stallment purchase agreements and rentals for a period of July 1, 1988, through June 30, 1989, at a cost not to exceed \$200,000. The initial amount being encumbered is \$175,000.

The contractor will continue service under the terms and conditions of their 1987-1988 contract. The copier machines are located in various schools and district offices in the Boston School Department. Savin Corporation has an available inventory parts-on-hand and has assisted in standardizing the copier machines.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing such services, it is my determination that the public interest would not be served by advertisement for bid.

Compensation to this vendor during the past three fiscal years in the form of unadvertised contracts is as follows: CO4426(86) — \$160,000; CO4426(87) — \$200,000; and CO4911(88) — \$200,000.

Very truly yours,  
Leo J. Burke,  
Business Manager

**Secondary School Admission Test**

Dear Mr. Mayor:

As Superintendent of the Boston Public Schools, I respectfully request your authorization to dispense with public advertising and award a contract to Educational Testing Service, a corporation located at Rosedale Road, Princeton, New Jersey, for administration of the Secondary School Admission Test.

This contract shall be in effect during the period July 1, 1988, to June 30, 1991, and shall occur at a cost not to exceed \$232,200, which I have determined to be reasonable. Continuation of this contract in years two and three is subject to the availability of funds and to the orders of the U.S. District Court in *Morgan, et al v. Nucci, et al*, 72-911-G.

Under the terms of this contract, the contractor will provide the Secondary School Admission Test booklets and related materials. The contractor will conduct registration, administration, and scoring to assist in the selection of eligible candidates for Boston Latin School, Boston Latin Academy and Boston Technical High School. Educational Testing Service will provide related analysis data as required or requested by the Department of Education.

## JOBS AND COMMUNITY SERVICES

### Tutorial Program

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to Community Providers of Adolescent Services, Inc., a non-profit corporation, located at 26 Sunnyside Street, Jamaica Plain. Under the terms of the contract, the contractor will operate an after-school tutorial program for children in grades 1-6 at the Dever Elementary School at Harbor Point.

The contractor was selected based upon an evaluation of its proposal submitted in response to a publicly advertised Request for Proposals (RFP) conducted by the Mayor's Office of Jobs and Community Services (JCS) and advertised in the *Boston Globe* on January 10, 1988. Costs were determined to be reasonable after extensive analysis by JCS staff and outside readers. Other selection criteria include administrative capability, the ability to serve the targeted population, and a review of the contractor's performance during the prior contract periods where applicable.

Compensation under the terms of this contract shall not exceed \$21,000, payment being made from the Community Development Block Grant (CDBG) program. The period of performance shall be from July 1, 1988, until June 30, 1989. This contractor has not had contracts with this agency for any of the three previous three fiscal years. This request has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised RFP, I believe that further public advertising would serve no useful purpose.

Sincerely,

Neil H. Gordon,  
Associate Director.

### Fiscal Agent

Dear Mr. Mayor:

I am Superintendent of the Boston Public Schools, and respectfully request your authorization for the award of a contract to Boston Private Industry Council, a corporation located at 185 Devonshire Street, Boston.

This contract shall be in effect during the period of July 1, 1988, to June 30, 1989, and shall occur at a total cost not to exceed \$55,460, which I have determined to be reasonable.

Under the terms of this contract, the Boston Private Industry Council will act as a fiscal agent for Boston Public Schools and provide staffing for the Commonwealth Futures Advisory Committee. Established through Chapter 188, the Committee is charged with the responsibility for coordinating and planning Boston's response to the Governor's Risk Youth Initiative. Staffing for this program will consist of a Program Manager and an Alternatives Education Liaison, who will be compensated for their services at the rate of \$142 and \$38.46 per hour respectively. Fringe benefits and administrative overhead will be 18 percent. Both staff members will report directly to the Executive Director of Boston Compact.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing these services, it is my determination that the public interest would not be served by publicly advertising for services.

Compensation to this vendor during the past two fiscal years in the form of unadvertised contracts is as follows: 1988 — \$69,000; 1987 — \$25,000.

Very truly yours,

Laval S. Wilson,

NO. 34

## UNITED WAY, AGENCIES OFFER YOUTHS ALTERNATIVES TO DRUGS

Roxbury, Dorchester, and Mattapan youths found more than mean, hot seats waiting for them when they got out of school this summer. They found constructive alternative to drugs and crime, thanks to an unprecedented emergency initiative by the United Way of Massachusetts Bay, nonprofit neighborhood agencies, the Mayor's Youth Cabinet, and the state's Office for Children.

Agency staff members, participating youths, and Mayor Raymond L. Flynn marked a successful first month of the summer programs with a media presentation, "Hot Summer, Cool Kids," on August 4, at the Dorchester YMCA.

In response to growing drug abuse and drug-related crime in Boston's "high-risk" neighborhoods, the United Way committed a grant of up to \$500,000 to bring local agencies together to provide work-incentive and enrichment activities for youths who might otherwise turn to drugs. Activities are being conducted by two agency partnerships.

In South Dorchester, the Dorchester YMCA, Federated Dorchester Neighborhood Houses, Inc., Dorchester Youth Collaborative, and Boston Community Schools Fields Corner Outreach Program will provide a summer work-incentive and recreation program for youth, ages 12 to 18. The agencies plan to employ 32 youths, take 1,500 to 2,000 youths on field trips outside their neighborhoods, and organize four events to bridge the various neighborhoods.

In Roxbury/North Dorchester, the Roxbury Clubhouse of Boys & Girls Clubs of Boston, Roxbury Multi-Service Center, La Alianza Hispana, Community Schools Outreach Program, and City of Boston Parks and Recreation Department will offer a wide range of activities and trips. A partial list includes sporting events, fishing workshops, harbor cruises, and classes in video production, arts, and dance.

Both partnerships also offer activities to Mattapan youth.

The agencies were free to come with their own proposals, provided they met certain basic criteria. For example, the agencies were required to target youth in Roxbury, Mattapan, and all Dorchester and work in partnership with the city and other neighborhood agencies.

Like earlier United Way initiatives to address general teen problems,

1986-7, and to help build affordable housing, 1987-92), the Neighborhood Response Project reflects the organization's goal to become more flexible and responsive in meeting growing local needs. But, this initiative has set a new standard for quick response, according to Gailanne Reeh, the United Way's senior vice-president for Agency Relations.

"The United Way never turned anything like this around as quickly," she said. "The crisis in our neighborhoods is clearly too big to solve with United Way money alone.

"We asked: Where can United Way dollars be most effective?" she said. "The answer was clear. Go to those communities and say: 'You live with this every day, you tell us what should be done.'"

Neighborhood and city agencies that deal with youth and families were quick to respond.

Ten agencies attended the initial United Way meeting on the project in early June. By July 1, 24 agencies were working in support of the project, partnerships had emerged, and activities were under way.

"We were concerned with what would happen during the summer with problems such as drugs and violence," said Ronald D. Young, executive vice-president of Boys & Girls Clubs of Boston, whose Roxbury Clubhouse is now open evenings,

courtesy of the project. "Collaboration among agencies is very difficult and time consuming — it takes a great deal of planning and dealing with philosophical differences.

"The remarkable thing about this collaboration is the time frame, how quickly it was pulled together," he said. "The long, hot summer was upon us; it was a matter of necessity.

"This shows that different agencies can pool their resources to address pressing problems. And they can do it quickly."

"The program has been a big step in opening up channels between agencies and getting the communication going," said Maryclaire Knight, executive director of the Dorchester YMCA. "We had to turn things around in a very short time. But the willingness is there. The cooperation is there."

With the help of its partner agencies, Knight's agency hired eight youths to clear an unused, refuse-littered back lot and turn it into a volleyball court. Because of their age and lack of transportation, the youths would have trouble finding summer work without the project, she said.

Another key to the project is the cooperation of public and private agencies. In addition to two local councils of the state's Office for Children, four city agencies are helping to support the activities.

"The Neighborhood Response Project is an example of the kind of public and private partnership needed to fight drug abuse among young people," said Mayor Flynn. "This outreach program offers hope to more than 2,000 kids by providing them with a concrete alternative to a life of drugs."

"The project has brought public and private agencies together to maximize very scarce and very valuable resources," Reeh said. "There

(Continued on next page)

## Alternatives to Drugs . . .

(Continued from front page)

are a lot of people involved, and they're putting resources on the table — whatever they have to offer."

She said participating agencies will generally provide program administration, transportation, space, and supervisory/outreach staff. United Way grant dollars will provide youth work stipends and staff for the activities. In addition, the agencies have raised more than \$40,000 in matching funds to augment the United Way grant.

Most activities will focus on low- and moderate-income youth who are "high risk" and from areas of high drug activity. The activities also target afternoon, evening, and weekend hours when youths are likely to be bored and vulnerable, and when there are virtually no other neighborhood activities for youth. A key point, said Reeh, is that the program will aim to prevent drug abuse, rather than stop those already abusing.

Preventive programs, said Young, get to kids "before the problems are more difficult to solve."

"Prevention of drug abuse may not be as visible an intervention as getting addicts off the streets," said Reeh. "But, we have to offer more alternatives to our youth than just saying 'no,' and, in the long run, prevention will make the biggest difference.

"More and more, government dollars are going to those who are already over the waterfall. United Way dollars are flexible enough to intervene earlier to prevent problems in the first place. The United Way is one of the last ways to do that."

Reeh said the United Way plans to convene quarterly meetings of public and private agencies across the city to maintain ongoing partnerships and build sound foundations for future collaboration.

"This type of program does several things — it unites service providers and brings together teens from different ethnic backgrounds," said Luis Prado, executive director of La Alianza Hispana. "This is a pilot program, but we hope it will serve as the basis for larger programs in the future."

Future United Way grants depend on the success of the organization's annual fund-raising campaign, which

will begin September 6. Volunteers will reach for a \$48.7 million goal, \$4.3 million more than was raised in 1987. The additional funds are needed to offset growing needs, especially among teens, working families, and the elderly.

"The agencies are out there, and what they're doing is crucial to the survival of our families," she said. "Thanks to them, we can depend on our future."

### BOSTON HARBOR PLAN CONSTRUCTION BEGAN AUGUST 10, 1988

Following a three-year planning effort, the first phase of construction activities which will eventually bring to an end the pollution of Boston Harbor began August 10, 1988, on Deer Island, the Massachusetts Water Resources Authority announced on August 4.

Boston Mayor Raymond L. Flynn, Secretary of Environmental Affairs James S. Hoyte, MWRA Executive Director Paul F. Levy and other state and local officials participated in groundbreaking ceremonies at 10:30 a.m. to start construction of a \$25 million pier facility. The piers will permit receipt of 1,800 construction workers,

200 trucks per day and thousands of tons of construction materials to be utilized in building the nation's second largest sewage treatment facilities.

The Boston Harbor Plan, to abate long standing pollution problem in Boston Harbor, is the largest public works construction project in Massachusetts history and one of the most significant efforts in the nation to reclaim a body of water considered to be the dirtiest in the United States.

Currently, 450 million gallons of wastewater and 70 tons of sewage sludge are discharged directly in Boston Harbor on a daily basis.

The Boston Harbor Plan encompasses building new primary and secondary wastewater treatment facilities with a capacity to treat 1.2 billion gallons daily, sludge processing facilities to convert sludge to fertilizer, and 8-10 mile length ocean discharge tunnels to carry treated wastewater from Deer Island to deep ocean waters, a 5-mile cross harbor tunnel to transport sewage from Nut Island to Deer Island and staging, water transportation and related facilities necessary to undertake construction on Deer Island, which abuts the Town of Winthrop.

### THE NEIGHBORHOOD RESPONSE PROJECT

The Neighborhood Response Project is designed to bring public and private agencies together to provide youths, ages 12-17, with constructive alternatives to drugs, crime, and other problems. Recognizing that such problems worsen during the summer months when local youths are out of school, the United Way of Massachusetts Bay made a \$63,000 grant and, in early June, convened neighborhood agencies to seek collaborative solutions. Within days of the initial meeting two partnerships emerged with proposals to offer work-incentive and enrichment programs. One group serves the Roxbury/North Dorchester area and the other targets South Dorchester neighborhoods. Both are also providing services to Mattapan youth. Over more than 2,000 youths will benefit this summer.

#### Why is the Project significant?

- The Project responds to the well documented threat of drugs, crime, and poverty to youth in high-risk neighborhoods.

It has set a new standard for United Way's quick response to pressing local needs. Within three weeks of the initial meeting of partner agencies, activities were under way!

Agencies that previously had little contact with one another are now working together in new ways to solve common problems.

The Project has forged unprecedented partnerships between the public and private agencies.

Unlike some intervention programs, this is *preventive*, aiming to help teens avoid problem behavior before it develops.

It focuses on the high-risk early evening hours, when teens are most likely to become bored and seeking ways to occupy their time. There are virtually no other youth activities offered in those neighborhoods during critical after-school and evening hours.

The Project will be ongoing. The United Way will convene neighborhood agencies at least quarterly to address critical local issues.

#### What activities are offered?

The South Dorchester collaborative involves a work-incentive and recreation program for youth, ages 12-15, between the hours of noon and 8 p.m. The agencies employ 32 youths, plan to serve more than 1,000 youths on field trips, and will be organizing neighborhood events.

The Roxbury/North Dorchester group targets youth, ages 13-17, with evening and weekend activities (ranging from swimming to movies), a variety of workshops, field trips, and special events.

## PUBLIC FACILITIES DEPARTMENT Renovations

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on April 14, 1988, I respectfully request your Honor's written permission to dispense with public advertisement and award a contract to the North End Union, Inc., a non-profit organization, with offices at 20 Parmenter Street, Boston, for renovations to its facility.

Under the terms of the contract, the contractor will install a wheelchair-lift from the street to the first floor. Also, construction of an interior vestibule will be performed.

Compensation under this contract shall not exceed \$37,500, which I have determined to be a reasonable cost for the services to be performed. The term of this contract shall be from May 1, 1988, to June 30, 1989. Funds for this contract shall come from those received under the Community Development Block Grant Program.

The contractor was selected based upon an evaluation of the proposal submitted in response to a publicly advertised Request for Proposals conducted by the Public Facilities Department in December of 1986 in the *Boston Globe*.

A selection committee, consisting of members of the Public Facilities Department's Development Division, evaluated proposals based on the following eligibility and selection criteria: community

based non-profit organization, low-moderate income census area, neighborhood location, readiness to start construction, and feasibility of project. The non-profit organizations which met the eligibility and selection criteria are listed below: 1) Quincy School Community Council; 2) North End Union, Inc.; and 3) Boston Hamilton House, Inc.

Costs were determined to be reasonable after extensive analysis by Public Facilities Department staff.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

The submission of this request has been delayed due to the time required of North End Union, Inc. to submit a Certificate of Insurance.

Sincerely,

Lisa G. Chapnick,  
Director.

## ATEST DEVELOPER DESIGNATION MADE IN BOSTON'S BUILDABLE LOTS PROGRAM

The Public Facilities Department of the City of Boston tentatively designated a nationally experienced developer, Leonard Markir, to build new owner-occupied homes on three vacant City-owned sites in Dorchester. The designation is the first to be made in the second round of the Buildable Lots program of Project 747, Mayor Raymond Flynn's initiative to build new housing on 747 city-owned lots.

"We are very pleased with the progress we've made under Project 747," said Lisa G. Chapnick, director of the Public Facilities Department. "Since its implementation in August, 1987, 160 parcels have been advertised and 143 have been designated for development. That represents more than 300 new units of housing now in the works."

Of the more than 300 new units, approximately 90 will be constructed on small sites of at least 3,500 square feet through the Buildable Lots program. The remainder will be built on larger sites of more than 10,000 square feet.

The three Dorchester sites — on Bellevue Street, Downer Court and Westville Street in the Fields Corner area — were advertised for development in late March. They are the first to be designated in the second round of Project 747's Buildable Lots program. Another 10 parcels will be designated later this month. Each site will contain a 2 1/2-story home with one, two-bedroom and two, three-bedroom units. The units will be sold at an average price of \$76,700.

The pitched-roof buildings have been designed to fit in with the architecturally mixed Fields Corner neighborhood. Project 747 puts particular emphasis on creating housing which is architecturally compatible with the surrounding neighborhood and affordable to first-time homebuyers.

Developer Leonard Markir, owner of Design Environments, brings 18 years of broad-based experience in architecture, construction and real estate to this project. He has overseen the construction of single-family houses on Cape Cod as well as an 80-unit residential complex in Washington, D.C. Markir also has exten-

sive property management experience in Boston's neighborhoods.

Developers participating in Project 747 are able to purchase the land from PFD for \$1.00 per lot and receive assistance in expediting approval of building permits. In addition, PFD hires a non-profit agency to help sell the finished units.

Total development costs for the new Fields Corner units are estimated at \$690,000. Construction is expected to begin in the spring of 1989. The new homes should be ready for occupancy sometime next summer.

Meanwhile, construction of the first new homes to be built under the initial round of Project 747's Buildable Lots program is slated to begin at the end of the month in the Franklin Field area. The new homeowners should be able to move in this fall.

### CITY EXPANDS ARTERIAL STREET SWEEPING PROGRAM

Over 50 additional miles of Boston's major arterial streets will be swept beginning this summer as part of the City of Boston's expanded Arterial Street Sweeping Program. This intensive street sweeping project will now encompass over 100 miles of arterial streets.

The expanded Arterial Street Sweeping Program adds sections of Brighton

Avenue, Cambridge Street, North Beacon Street, Neponset Avenue, Adams Street, Columbus Avenue, River Street, Hyde Park Avenue and Washington Street (in Dorchester) to the existing program.

To ensure effective cleaning along major commercial and commuter arteries, parking will be restricted throughout the scheduled sweep routes one night per week for each side of the street from midnight to 7:00 a.m. Signs will be clearly posted along the routes.

In an effort to alert residents to the expanded arterial program, an informational campaign including neighborhood meetings, flyers, mailings, and bulletins in local papers will be launched in all affected neighborhoods. Additionally, warning tickets will be issued two weeks prior to the starting date of the expanded program in each neighborhood. Ticketing and towing will commence after the two-week warning period.

The sweeping program involves the combined efforts of the Mayor's Office of Neighborhood Services, the Public Works Department and the Transportation Department.

Don Gillis, director of the Mayor's Office of Neighborhood Services said, "I am pleased that we are able to expand an already very successful arterial street sweeping program. Street sweeping is a major priority of the Flynn Administration. The success of this program provides the residents with the quality of services they deserve."

The Arterial Street Sweeping Program runs year-round. Last year, the program began with sweeping on sections of Blue Hill Avenue, Commonwealth Avenue, Dorchester Avenue, Huntington Avenue, Massachusetts Avenue, Tremont Street and Washington Street for a total of 60 miles.

(Continued on next page)

## City Expands Program . . .

(Continued from front page)

Commissioner Joseph Casazza of the Public Works Department said, "The Arterial Street Sweeping Program with its parking restrictions allows our sweepers to reach the curb where most of the litter on our streets can be found. The sweepers can do a much better job without cars blocking the curb."

Commissioner Richard Dimino of the City's Transportation Department added, "This program will only work with the cooperation of the residents of Boston. In order for the sweepers to do the job, cars have to be moved. Together, we can make Boston cleaner."

## PARKS DEPARTMENT COMPLETES RENOVATIONS ON DOHERTY PLAYGROUND TOWN FIELD

The Boston Parks and Recreation Department celebrated the re-opening of the John A. Doherty Town Field in Dorchester with a Field Day on Monday, August 8, from noon to 3 p.m. Parks Commissioner William B. Coughlin and Director of Capital Planning Mary Nee cut the ribbon at the entrance to the playground, which has benefited from over \$252,000 in capital improvements over the last year.

The facility, located in Fields Corner, received a new tot lot, resodded ballfields, perimeter fencing, and a refurbished entrance with plantings and new benches, as well as pedestrian lighting, a new drinking fountain, and service gates. For the ballfields, extensive re-grading and sub-drainage systems were installed to improve the drainage of the sports fields, a pitcher's mound and home plate were added, and new playground, basketball and volleyball equipment was purchased. The Public Facilities Department also restored the Field House with money from the City's Capital Program.

Parks Commissioner Coughlin said, "This is the 25th renovated facility to come on line in the last two years under Boston's Capital Program. Mayor Flynn's commitment to Boston's neighborhood parks has paid off, for this year we are seeing an increase in Boston residents reclaiming their parks."

The one-and-a-half-acre park has been part of the Boston park system since 1897, and was named after John

A. Doherty, a Dorchester serviceman killed in World War II.

Also present at the field day event were representatives from the design firm Moriece and Gary, Inc., contractor John Schummacher, and neighborhood community leaders like the Town Field Businessmen's Association.

## 60 YEARS AGO IN THE CITY RECORD

### SETTLEMENT OF BOSTON, 1630.

Effected by Puritan colonists under Governor John Winthrop in the latter part of August, 1630. The name of the original settlement was changed to Boston from Trimountaine by order of the Court of Assistants on September 7 (O.S.), 1630. This date was moved forward by the New Style calendar in 1752 to September 17, the recognized date of the founding of Boston. The name, Trimountaine, had been given because of the three peaks of the most prominent hill, afterward called Beacon Hill, much higher then than now. By the Indians the place was called Shawmut. The name, Boston, was derived from the English town of Boston in Lincolnshire, the home of some of the leading colonists and promoters of the enterprise.

### CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

#### PARKS AND RECREATION DEPARTMENT Electrical Repairs, etc.

Dear Mr. Mayor:  
On September 9, 1987, your Honor approved an award of a contract based on public advertising for bids, to Coviello Electric Company, Inc., 49 Mystic Avenue, Medford, MA 02155, for "Electrical Repairs and Maintenance to Outdoor Floodlighting Systems" — Contract K during the period July 1, 1987, though June 30, 1988, at a cost not to exceed \$44,000.

The above contract is for an "as needed" basis. Because of the limitations of the budget allowed, and because the demand for the contracted services has been much higher than anticipated, the money allotted will have to be increased before completion of the scheduled and necessary repairs are made. Therefore, your approval is requested to amend this contract to provide funds for needed repairs. Payment for work performed will be at the original contract unit prices.

The cost of this amendment which is effective on June 15, 1988, shall not exceed \$8,000, a sum which I have determined to be reasonable. The contract as amended shall not exceed \$52,000, to be charge to 011-300-0301-0290-PK-02.

Because time is a critical factor, and because the contractor has performed satisfactorily, it is my judgment that the amendment proposed is in the best interest of the City, and that public advertising would serve no useful purpose.

Very truly yours,  
William B. Coughlin,  
Commissioner.

Sincerely,

*Health Benefit and Insurance Division*  
**Health Insurance**

Dear Mr. Mayor:

In accordance with M. G. L. chapter 32B, section 16, the City is required to purchase insurance for the services of health care organizations for eligible employees and retirees on terms deemed to be in the best interest of the City/County and its employees.

Blue Cross and Blue Shield of Massachusetts, Inc., the health insurance carriers for the City of Boston since 1962, provides hospital, medical, surgical and other health care benefits.

In 1980 the City established a self-insured trust fund pursuant to the provisions of section 3A of chapter 32B of the Massachusetts General Laws. Payments on a cost reimbursement basis are made to the carrier from this fund. This arrangement permits the City to closely monitor claims and costs incurred for eligible employees.

The contract amounts for the past three fiscal years with Blue Cross/Blue Shield are as follows:

- FY '86 - \$32,200,000
- FY '87 - \$36,000,000
- FY '88 - \$36,000,000

Your Honor's permission is requested to approve the renewal of a contract with Blue Cross and Blue Shield of Massachusetts, Inc., 100 Summer Street, Boston, for eligible employees and retirees for the period of July 1, 1988, to June 30, 1989, in an amount not to exceed \$36,000,000, from appropriation code 011-140-0148-HI04-0490.

Respectfully,  
Irene Carrington,  
Director.

**Accidental Death Insurance**

Dear Mr. Mayor:

In accordance with M. G. L. chapter 32B, section 11D, the City of Boston is required to purchase accidental death insurance for eligible policemen and firefighters, on terms deemed to be in the best interest of the City and its employees.

This coverage provides a death benefit amount of nearly two times the policeman's/firefighter's annual salary, paid to his/her beneficiary, for loss of life due to bodily injury caused by an accident in the line of duty. The death benefit amount is determined by the insurance schedule contained in M. G. L. chapter 32B, section 11A.

An employee is considered eligible for his coverage if he/she is employed by the City of Boston as an active full-time policeman or firefighter on a permanent basis and is under age 70.

Employee participation in this plan is on a voluntary basis. However, to ensure that each eligible person is contacted, he/she is required to submit a signed enrollment card either electing or rejecting the coverage.

In FY '88 the Health Benefit and Insurance Division received bids from seven insurance companies interested in providing this coverage to the City. They were as follows:

Insurance Company	Monthly Rate Per \$1,000/coverage
Aetna Life Insurance Co.	5.5c
AIG Life Insurance Co.	3.0c
Boston Mutual Life Insurance Co.	10.0c
Continental Insurance Companies	4.6c
Life Insurance Co. of North America	5.0c
Lumbermen's Mutual Casualty Co.	3.32c
Reliance Insurance Co.	5.0c

The contract was awarded to the lowest bidder, AIG Life Insurance Company, 10 Post Office Square, Boston, beginning in September, 1987, in an amount not to exceed \$70,000. AIG has agreed to hold the 3c/\$1,000 rate for three years.

Your Honor's permission is requested to approve the renewal of a contract with AIG Life Insurance Company for accidental death insurance for the period of July 1, 1988, to June 30, 1989, in an amount not to exceed \$85,000, from appropriation code 011-140-0148-HI04-0490.

Respectfully,  
Irene Carrington,  
Director.

30, 1989, at a total cost not to exceed \$22,128.

URS Information Services was the sole bidder in  
the public biddings for both Fiscal Year 1987 and  
Fiscal Year 1988. Amounts awarded were as fol-  
lows: FY 88 \$22,128; FY 87 \$20,856.

The equipment was purchased on various dates  
during Fiscal Year 1986. The total paid for mainte-  
nance on the equipment during that fiscal year was  
\$6,384, and the final monthly rate during that per-  
iod was \$1,738.

The permission of your Honor is hereby re-  
quested to award this contract to URS Information  
Systems, Inc., as above, at a total amount not to  
exceed \$22,128. In the opinion of the Official, the  
cost is reasonable for the services to be rendered.

Respectfully,  
THE BOARD OF TRUSTEES IN CHARGE OF THE  
LIBRARY DEPARTMENT OF THE CITY OF  
BOSTON,

#### SCHOOL DEPARTMENT Professional Services

Dear Mr. Mayor:

Attached is a letter, dated March 26, 1987, in  
which the School Department requested that a  
contract be awarded to St. James Educational  
Center with a not to exceed figure of \$41,075. The  
period of the contract was March 25, 1987, through  
June 30, 1987. The contract contains an option un-  
der which the School Committee may elect to re-  
new the contract for the FY '87-88 school year.  
(See CO4260 (87)).

As much as we have advertised these services  
in the *City Record* on January 6, 1987, and we have  
provided in the original contract the Option to Re-  
new these services based upon satisfactory per-  
formance, we request your permission to imple-  
ment the Option to Renew for the period  
September 8, 1987, through June 30, 1988 and  
at a cost not to exceed \$37,000, which I have de-  
termined to be reasonable.

Very truly yours,  
Leo J. Burke,  
Business Manager.

#### Chapter 636 Services

Dear Mr. Mayor:

On behalf of the Boston public schools, I request  
your authorization for the award of a contract to  
the Eastern University, located at 360 Huntington  
Avenue, Boston. The contract shall be in effect dur-  
ing the period from August 1, 1988, to June 30,  
1989, and shall occur at a cost not to exceed  
\$5,484, which I have determined to be reason-  
able. On March 26, 1988, the School Committee  
approved all of the chapter 636 FY '89 proposals for  
a sum of \$6,022,377.

The contractor will provide the following serv-  
ices: coordination and on-going support for four  
design projects in grades 1-12; design and imple-  
mentation of Parent Information Center program  
involving all District D schools; plan and coordi-  
nate At-Risk projects at the Wheatley Middle  
School; assist in developing and implementing Dis-  
tinct Parent Information Center activities and plan  
and coordinate specific cultural programs in Dis-  
trict E.

The contractor is uniquely qualified to provide  
the following services because: (1) the contractor  
has organized appropriate resources to enable the  
Boston School Department to qualify for funding  
under chapter 636 (1974 Amendments to the 1965  
Racial Imbalance Act) in the category of University  
Pairing; (2) the institution has specifically designed  
services in conjunction with school personnel to  
meet the intent of U. S. District Court Judge W. Ar-  
thur Garrity, Memorandum and Orders Modifying  
Desegregation Plan (*Morgan v. McDonough*, Civil  
Action No. 72-911-G); (3) further, the services have  
been reviewed and approved by appropriate per-  
sonnel at the Department of Education.

Because of the professional nature of the serv-  
ices to be provided under this agreement and the  
expertise of the contractor in providing such serv-  
ices, it is my determination that the public interest  
would not be served by public advertisement for  
bids.

This agreement is to be executed without an ap-  
propriation of funds under provisions of General  
Laws, chapter 44, s. 53A and is subject to the re-  
ceipt of funds under grant from chapter 636.

Compensation to this vendor over the past three  
years in the form of unadvertised contracts is as  
follows: 1986 - \$295,134, 1987 - \$266,450, 1988 -  
\$260,795.

Very truly yours,  
Laval S. Wilson,  
Superintendent.

Dear Mr. Mayor:

On behalf of the Boston public schools, I request  
your authorization for the award of a contract to  
Boston Private Industry Council, located at 185  
Devonshire Street, Boston. The contract shall be in  
effect during the period from August 1, 1988, to  
June 30, 1989, and shall occur at a cost not to ex-  
ceed \$25,000, which I have deemed to be reason-  
able. On March 26, 1988, the School Committee  
approved all of the chapter 636 FY '89 proposals for  
the sum of \$6,022,377.

The contractor will provide the following serv-  
ices: 1) conduct monthly meetings with high school  
development officers and other school personnel  
on business partnership and student employment/  
placement issues; 2) will provide technical assist-  
ance on partnerships, training and placement; 3)  
will assist to develop Boston Compact plans at the  
school level and provide support for implementa-  
tion; 4) will review partnerships at mid-year and  
year's end; 5) will develop new partnership rela-  
tions and seek to increase involvement of the busi-  
ness community in integrated education.

The contractor is uniquely qualified to provide  
the above services because: (1) the contractor has  
organized appropriate resources to enable the  
Boston School Department to qualify for funding  
under chapter 636 (1974 Amendments to the 1965  
Racial Imbalance Act); (2) the institution has specifi-  
cally designed services in conjunction with school  
personnel to meet the intent of U. S. District Court  
Judge W. Arthur Garrity, Memorandum and Orders  
Modifying Desegregation Plan (*Morgan v. McDo-  
nough*, Civil Action No. 72-911-G); (3) further, the  
services have been reviewed and approved by ap-  
propriate personnel at the Department of Educa-  
tion.

Because of the professional nature of the serv-  
ices to be provided under this agreement and the  
expertise of the contractor in providing such serv-  
ices, it is my determination that the public interest  
would not be served by public advertisement for  
bids.

This agreement is to be executed without an ap-  
propriation of funds under provisions of General

Laws, chapter 44, s. 53A and is subject to the re-  
ceipt of funds under grant from chapter 636.

Compensation to this vendor over the past three  
years in the form of unadvertised contracts is as  
follows: 1986 - \$25,000, 1987 - \$29,285, 1988 -  
\$25,000.

Very truly yours,  
Laval S. Wilson,  
Superintendent.

#### Truant Education Support System

Dear Mr. Mayor:

I respectfully request your Honor's permission to  
dispense with public advertising and to award a  
contract to Financial Security Center d/b/a Ameri-  
can Telecom Systems, East Providence, Rhode Is-  
land, for providing the Truant Educational Support  
System.

Under the terms of the contract, the contractor  
will install the Truant Educational Support System  
at Jamaica Plain High School and train staff on the  
use and application of the Truant Educational Sup-  
port System as outlined in the bid specifications  
awarded in 1986 for the Jeremiah Burke High  
School, CO4416 (86). This award letter is being  
submitted late due to the late approval and receipt  
of chapter 188 funds.

Compensation under this contract shall not ex-  
ceed \$5,700, for the period June 28, 1988, to June  
30, 1988. Compensation to this vendor in 1986 did  
not exceed \$4,995.

Because the contractor is a sole distributor for  
the system previously purchased and the cost is  
reasonable for the services, I believe that public  
advertising would serve no public purpose.

Very truly yours,  
Leo J. Burke,  
Business Manager.

#### Temporary Housing

Dear Mr. Mayor:

I respectfully request your Honor's approval of a  
contract to Massachusetts Halfway Houses, Inc., a  
non-profit organization, located at 186 Massachu-  
setts Avenue, Boston. The contract provides for  
temporary housing of detainees committed to the  
custody of the Sheriff's Department in emergency  
situations when the Suffolk County Jail has  
reached its court-ordered capacity.

Because of a jail capacity emergency which oc-  
curred on December 4, 1985, Supreme Judicial  
Court Associate Justice Paul J. Liacos ordered the  
temporary transfer of detainees to a facility oper-  
ated by Massachusetts Halfway Houses, Inc., and  
ordered payment by the City for services rendered.  
(Appendix A) That order was superseded by Mem-  
orandum and Order No. 16 issued December 16,  
1985, (Appendix B) which authorizes the tempo-  
rary transfer of detainees whenever a jail capacity  
emergency occurs and similarly requires payment  
by the City upon submission of adequate docu-  
mentation.

Compensation under the terms of this contract  
will not exceed \$35,059.14. This will provide for an  
average of three beds each day during the period  
of July 1, 1988, through June 30, 1989. Payment is  
at the contract rate of \$31.93 which is the per diem  
rate approved for the M.H.H.I. facility by the Rate  
Setting Commission and the Massachusetts Pa-  
role Board. Services will be rendered on a needs  
basis in accordance with the terms of the Supreme  
Judicial Court Memorandum and Order No 16 and  
any subsequent pertinent orders.

Massachusetts Halfway Houses, Inc.'s, com-  
pensation for services provided in the past three  
years is as follows; FY '86, \$31,500; FY '87,  
\$62,000; and FY '88, \$35,059.14.

The contractor was selected based upon its ability to provide the services needed in this emergency situation. The contractor has satisfactorily performed other contractual services for the City.

Sincerely,  
Robert C. Rufo,  
Sheriff.

Dear Mr. Mayor:

I respectfully request your Honor's approval of a contract to Massachusetts Halfway Houses, Inc., a non-profit organization, located at 186 Massachusetts Avenue, Boston. The contract provides for temporary housing and services for the Pre-Trial Controlled Release Program.

The Sheriff's Department expects to receive a grant for Fiscal Year 1989 from the Executive Office of Human Services under the County Operational Grant Program. The grant will fund the cost for the Pre-Trial Controlled Release Program, and innovative approach designed to relieve the chronic overcrowding at the Charles Street Jail. The program will provide, on a continual basis, ten residential beds at a MHHI facility and ten positions in the Boston Offender Services Project.

Compensation under the terms of this contract will not exceed \$280,100. The contract period will run from July 1, 1988, through June 30, 1989. Payment for the BOSP component will be based upon services rendered but will not exceed \$163,300 for the contract period.

Massachusetts Halfway Houses, Inc.'s, compensation for services provided in the past three years is as follows; FY '87, \$175,000; and FY '88, \$281,640.

The contractor was selected based upon its ability to provide the services needed and is the designated service provider under the terms of the grant.

Sincerely,  
Robert C. Rufo,  
Sheriff.

#### Dental Services

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Dr. Leonard Shulman of Wayland, for on-site dental services to the detainees incarcerated at the Suffolk County Jail.

Under the terms of the contract, the contractor will perform dental services to the inmates incarcerated at the Jail and shall be on call on a twenty-four-hour basis for consultation with the Jail medical staff. In addition, the contractor shall provide at least sixteen hours of dental services per month and shall provide for an alternate dentist at the contractor's sole expense in the event he is unable to provide said services. The alternate selected by the contractor shall be subject to approval by the Sheriff. The contractor is also required to provide proof of malpractice insurance in form and amount satisfactory to the Sheriff.

Compensation under this contract shall not exceed \$24,840, at a rate of \$2,070 per month, which I have determined to be reasonable for the work to be performed. The term of this contract shall be from July 1, 1988, to June 30, 1989.

Dr. Shulman's compensation for services provided in the past year is as follows: FY '88, \$24,840.

Dr. Shulman is especially qualified to perform these services as he has had extensive dental care experience dealing with individuals in custody and in particular, individuals confined at the Suffolk County Jail. Dr. Shulman has served as the institutional dentist at the Suffolk County Jail for the past twenty years.

In view of the nature of the specialized services to be performed and the reasonable cost of these services, I believe that public advertising would serve no useful purpose.

Very truly yours,  
Robert C. Rufo,  
Sheriff.

#### High Resolution Monitor

Dear Mayor Flynn:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to OPTELEC USA, INC., located at Harvard, MA 01451, for providing a high resolution monitor for the severely visually impaired.

Under the terms of this contract, the contractor will provide the FDR Law Vision Reading Aid. The FDR is a closed circuit TV system that magnifies images from books or documents up to 45 times normal size onto a TV screen. OPTELEC is specially qualified to provide the equipment and is the sole vendor of this system. Compensation under this contract shall not exceed \$3,000, for the period June 28, 1988, to June 30, 1988.

This contract award letter is being submitted late due to the late approval and receipt of chapter 188 funds.

Because the contractor is a sole distributor and the cost is reasonable for the services, I believe that public advertising would serve no useful purpose. This is the first contract between this company and the School Committee of the City of Boston.

Very truly yours,  
Leo J. Burke,  
Business Manager.

#### TRANSPORTATION DEPARTMENT Support Services

Dear Mr. Mayor:

In response to an advertisement in the *City Record* on April 11, 1988, and an invitation to contract mailed by the Boston Transportation Department/Office of the Parking Clerk to Suffolk University Law School and New England School of Law, Richard Conway, 138 K Street, South Boston, has responded and has been deemed qualified to perform adjudicatory support services for the Boston Transportation Department/Office of the Parking Clerk.

Subject to judicial review, he will make final disposition on ticket disputes with guidelines established by law, interpret State Law and City Ordinances, and Boston Transportation Parking Rules and Regulations as required, and direct complainants requesting further service to appropriate Departmental personnel.

Therefore, I request your authorization for the award of a contract to Richard Conway in an amount not to exceed \$12,200, payable at an hourly rate of \$9, which is deemed to be reasonable, during the period August 8, 1988, to June 30, 1989.

Because of the professional nature of the services to be performed, the expertise of Richard Conway in this area, it is my determination that no public purpose would be served by further advertisement.

Very truly yours,  
Richard A. Dimino,  
Commissioner.

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Dr. Timothy Lyons, an individual located at Milton, for physician services at the Suffolk County Jail.

Under the terms of the contract, the contractor shall provide physician services seven days per week at the Suffolk County Jail, including, but not limited to, the services mandated by the order of the United States District Court in the case of *Inmates of Suffolk County Jail v. Kearney, et al.* In addition, the contractor shall be on call twenty-four hours per day for consultation by jail staff and shall provide for an alternate physician at the contractor's sole expense in the event he is unable to provide said consultation services. The alternate selected by the contractor shall be subject to approval by the Sheriff. The contractor shall provide a minimum of fifteen hours of physician services per week. The contractor is also required to provide proof of malpractice insurance in a form and amount satisfactory to the Sheriff.

Dr. Lyons is especially qualified to do this work as he has had extensive medical experience at various jails and in particular, the Suffolk County Jail. He is familiar with the jail's policies and procedures and has been instrumental in achieving the accreditation of the American Medical Association for the operation of the jail clinic.

## 'PARKLINK' COOKOUT COMBINES SUMMER OUTING WITH BASEBALL, HISTORY

Mayor Raymond L. Flynn and city officials, recently welcomed 150 youngsters from eleven Boston housing developments to the historic James Michael Curley House in Jamaica Plain. The outing, which included a tour of the Curley Mansion, a cookout, and a baseball talk by "Oil Can" Boyd, was part of "ParkLink," a new outreach program that makes summer parks activities accessible to youngsters from Boston Housing Authority developments.

ParkLink was launched this July with a \$43,000 donation from the Boston business community. Three city departments — Boston Housing Authority, Community Schools and Recreation, and Parks and Recreation — coordinate daily excursions for the children to events sponsored by the city, including sailing, sports, and concerts.

Mayor Flynn said, "What better way to uphold the spirit of Mayor Curley's legacy than by opening his house up to youngsters from every neighborhood in Boston? ParkLink finds a common ground where Boston kids can come together and enjoy the parks and special activities throughout the city each summer."

Parks Commissioner William B.oughlin said, "Thanks to the commitment of the business community and Mayor Flynn, ParkLink moved from a concept to a success in a very short time. Our summer programming is designed to include every Boston resident, but ParkLink goes one step further, by actually taking youngsters to the events, and then taking them home. It creates an accessibility that opens up new horizons for these kids."

Bill Doherty, Director of Community Schools, said his outreach workshops taxied over 1,500 BHA kids to events since the program was launched in July. "There was a high level of cooperation among the city departments, but the enthusiasm of the kids was the factor that made ParkLink work," Doherty said.

The highlight of the outing was Red Sox Pitcher Dennis "Oil Can" Boyd, who came as part of the Parks Department's "Sox Talk" program. Boyd talked about pitching, but also talked to the youngsters about sportsmanship and education. Boyd and other Sox players have appeared in Boston parks this summer to talk about youth issues and to teach baseball fundamentals. The "Sox Talk" program was also sponsored by WBZ-TV Channel 4 and Polaroid Corporation.

Also attending the ParkLink event were City Councillor Tom Menino, Curley Commission Chairman Francis Costello, and representatives from the business community.

### CLEAN-UP PROGRAM/ SPOTS STILL AVAILABLE

In spite of the heat this summer, many of Boston's residents have been hard at work outside cleaning up their neighborhoods. Already this season, almost 1,000 tons of debris has been removed from Boston's neighborhood streets through the Mayor's Office of Neighborhood Services' "Pickin' Up the Neighborhood" clean-up program.

The debris was removed by over 3,000 enthusiastic Boston residents and concerned citizens who have participated to date and who, in conjunction with the city, cleaned vacant lots, sidewalks, playgrounds, alleys and other public spaces in their neighborhoods.

The "Pickin' Up the Neighborhood" clean-up campaign was started last spring with the support of local business organizations. Over 135 cleanups were held throughout Boston's neighborhoods last year as part of the program. Almost 1,500 tons of debris were removed by over 7,000 volunteers.

According to Shirley Coyne, who coordinates the clean-up program for

Neighborhood Services, there are still plenty of spots available for those groups who would like to schedule a cleanup in their neighborhood. The city provides volunteers with T shirts, gloves and caps, tools, and manpower and trucks to remove the garbage collected. The program runs through the first snowfall.

"We encourage community groups and organizations throughout the city to sponsor neighborhood cleanups," said Don Gillis, director of the Mayor's Office of Neighborhood Services. "Not only do the cleanups beautify the neighborhood, but they also bring residents together to meet each other and work towards a common goal that we all appreciate."

Catherine Smith, a Dorchester resident and Codman Square Neighborhood Council member, worked with several neighborhood groups all over Dorchester to organize a cleanup in that neighborhood. "Our cleanup was fantastic," Catherine reported. "We had the full participation of both the city and the neighborhood residents who helped out. Neighborhood Services did a great job coordinating everything. We worked from early morning until late evening and the neighborhood looks great."

As of early July, this year's clean-up schedule shows signs of far exceeding last year's schedule. The tonnage of debris removed so far this year almost equals the total number removed last year. Additionally, the number of volunteers is already at over half of last year's total as are the number of cleanups planned — with two months still left to schedule.

For more information about how to set up a neighborhood cleanup, call Shirley Coyne at Neighborhood Services at 725-3485.

Barbara T. Martin, senior lecturer, Museum of Fine Arts. Thursdays, September 15, 22, 29, 8-9:30 p.m. Mabel Rouse Riley Seminar Room.

"Art is artificial," proclaimed Degas. "He conveys the truth by means of the lie." A close and exact observer, he sought to reconstruct, through meticulous calculation, the monetary and instantaneous effect, the characteristic angle, or the unexpected angle of vision. He created timeless images from candid moments, from the casual encounters of the streets, cafes and the theatres, and the intimate scenes of the salon, the study, and the boudoir.

This series is offered on the occasion of "Degas," a major exhibition of Degas's work in all media at the Metropolitan Museum of Art (September 27, 1988-January 8, 1989).

**THE OTHER SIDE OF LIFE**

**International Driving Laws**

Have you ever wondered how intoxicated drivers are dealt with in other places?

**Australia** — a local newspaper prints the driver's name under the heading "He's drunk and in jail."

**Malaya** — The driver is jailed and, if he's married, his wife is jailed, too.

**South Africa** — the driver receives a 10-year prison sentence, the equivalent of a \$10,000 fine, or both.

**Turkey** — Drunken drivers are taken 20 miles from town by the police and forced to walk back under escort.

**Norway** — Drivers are sentenced to three weeks in jail at hard labor and a one-year loss of license. For a second conviction within five years, the license is revoked for life.

**Finland and Switzerland** — A one-year jail sentence with hard labor is mandatory.

**Costa Rica** — Police remove license plates from the car.

**Russia** — The driver's license is revoked for life.

**England** — The driver receives a one-year license suspension, one year in jail, and a \$250 fine.

**Bulgaria** — A second conviction results in execution.

**El Salvador** — The first offense is the last: Execution by firing squad!

August 15, 1988.

Mr. Felix Arroyo,

On July 20, 1988, Mr. Felix Chmiel was provisionally appointed to the position of Director of Social Services (RC-17) for the Penal Institutions Department.

Mr. Chmiel will serve as the Fiscal Manager for the Penal Institutions Department and will be responsible for all aspects of the department's fiscal program to include contract management, budget planning and development, and coordination of all fiscal activities at the existing Suffolk County House of Correction, including the new, state-funded modular housing program and the new facility at South Bay.

Prior to Mr. Chmiel's appointment, he served with the United States Air Force for twenty-two years. During this time, he performed a wide variety of administrative/supervisory/managerial duties, including Superintendent of Law Enforcement at Williams Air Force Base, Arizona, where he was responsible for the entire Law Enforcement operation of this large training facility. From 1981 to

1984, he served as Director of Communicational Skills and finally Director of Education at the 1 Air Force NCO Leadership School — the military largest supervisory/managerial training facility Europe. During his tenure, Mr. Chmiel was responsible for the entire operation of the school, which included the recruitment and training of instructors, as well as lesson planning and course presentation. As the school's resource manager, he ensured that the multi-million dollar operation was in a highly professional and cost-effective manner.

From 1984 to 1987, Mr. Chmiel served as a First Sergeant in two Air Force squadrons. In these positions he provided executive level advice to the commander on all matters concerning the squadron's functions and personnel welfare. He searched fiscal requirements and prepared, submitted, and controlled a multi-million dollar budget.

Mr. Chmiel holds degrees in Criminal Justice and Resource Management and is pursuing a degree in Business Management.

Because of Mr. Chmiel's extensive experience, training, and skills, it is respectfully requested that his second-, third-, fourth-, fifth-, and sixth-year increments in the position of Director of Social Services be determined under Rule 15(f) of the Classification and Compensation Plan for officers and employees of Suffolk County, effective August 1988.

CONTRACTS AWARDED AFTER ADVERTISING ("Requests for Proposals") ("Requests for Qualifications")

The Mayor has approved the awarding of the contracts based on the following communications:

HEALTH AND HOSPITALS DEPARTMENT  
Diagnostic Kits and Equipment

Dear Sir:

An invitation for bids, Proposal No. 827, to purchase diagnostic kits with equipment to the Department of Health and Hospitals was advertised in *City Record* on May 16, 1988. Bids were published and read on June 2, 1988. Eighteen companies were solicited and nine companies responded to the invitation to bid. Three comparative awards were made as a result of the bid process.

A technically defective bid was received from a following vendor, who submitted the lowest acceptable bid meeting specifications at prices I consider to be reasonable, in that the vendor did not sign a copy of the bid that was filed with the City Auditor Whittaker Bioproducts, Inc., Maryland, \$9,000.30 days; F.O.B. shipping point.

Therefore, because it is in the best interest of the city, pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to reject the bids for items to be supplied by the above vendor and to award a contract, without further advertising, to the lowest responsive bidder. The contract amount is an approximate figure based on estimated volume. The contract period is from July 1, 1988, through June 1989.

Very truly yours,  
Judith Kurland,  
Commissioner.

### Supplying Temporary Personnel

Dear Sir:

An invitation for bids to supply temporary employment of medical technologists, phlebotomists and respiratory therapists to Boston City Hospital (as advertised in the *City Record* on May 16, 1988, and bids were publicly opened and read on June 1, 1988. Eleven companies were solicited to bid and three companies responded to the invitation to bid. A letter of award had been prepared requesting our Honor to award contracts to the three companies as a result of the public bid. In addition, another vendor, Temporary Clinical Specialists submitted a late bid, thus their bid is defective. Boston City Hospital wishes to avail itself of the temporary personnel that can be provided by this vendor.

In view of the above and because their prices are competitive I request your Honor's permission to reject this bid and award a contract, without further advertising to Temporary Clinical Specialists for the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$10,000.

Because the Biochemistry Division has only recently determined the contract and encumbrance amount for this award this contract is being processed late.

Very truly yours,  
Judith Kurland,  
Commissioner.

### POLICE DEPARTMENT

#### Building Repairs and Maintenance

Dear Mayor Flynn:

On June 20, 1988, your Honor approved the award of a contract which was publicly advertised in the *City Record* on April 25, 1988, to competent persons, engaged in building repairs and maintenance under the care and custody of the Boston Police Department. The qualified vendors entered to a contract for estimating periodically the cost of, and thereafter, upon the lowest responsible estimate, performing the work of miscellaneous repairs, (including: general construction, pest control, air conditioning repairs, building glass repairs, all lock repairs and general lock repairs, general repentry, overhead door repairs, oil burner repairs, plumbing, roof repairs, sign repairs, electric motor repairs and electrical repairs), during the period July 1, 1988, through June 30, 1989.

Your approval is requested to amend this contract to include the following qualified firm which declared their intent to enter into a contract with the city but due to a clerical error was omitted from the original award letter:

Contract No. 89-2765-00, vendor name and address: North Brighton Iron Works, 29 Brayton Road, Brighton; contract amount: \$35,000; encumbrance amount: \$500.

The effective date of this amendment shall be August 1, 1988, through June 30, 1989. In no event all payments to be made, nor the maximum liability of the city under this amendment, exceed \$5,000. This funding will be charged against appropriation 011-211-0211-PD02-0260.

Respectfully,  
Francis M. Roache,  
Police Commissioner.

### SCHOOL DEPARTMENT

#### Appliances, Kitchen Supplies

Dear Mr. Mayor:

In response to an advertisement published in the *City Record* on Monday, June 13, 1988, inviting interested, competent companies engaged in supplying small appliances, kitchen supplies and materials for FY89, to enter into a contract for estimating periodically the cost of, and thereafter,

upon the lowest responsible estimate, supplying small appliances, kitchen supplies and materials under the care and custody of various schools/departments, the following firms declared their intent to enter into a contract with the city under the above conditions:

CO 4690, Calico Industries, Inc., Connecticut, \$5,000; CO 4689, Anchor Equipment Co., Inc., New York, \$8,000; CO 4691, Eastern Bakers Supply Co., North Washington Street, \$5,000; CO 4692, Harbour Food Service Equip., Inc., No. Washington Street, \$7,000.

Your approval is hereby requested to award contracts to the firms listed above for the period August 31, 1988, through June 30, 1989, inclusive. In no event shall the payments to be made nor the maximum liability of the city under this contract for all firms exceed \$25,000.

The reason for late submission of these contracts is because of the time involved in obtaining proper signatures from the various vendors in order to properly process the contracts.

Very truly yours,  
Leo J. Burke,  
Business Manager.

### Walkie-Talkies

Dear Mr. Mayor:

In response to an advertisement published in the *City Record* on Monday, May 16, 1988, for purchase of walkie talkie (including holster and quiet call), the following bids were publicly opened and read on June 8, 1988:

4686, You-Do-It Electronics/YDI, Needham, \$30,000, as requested; 4685, Page-Com, Inc., Texas, \$25,000, as requested.

The two proposals submitted by You-Do-It Electronics and Page-Com, Inc. have been found to be defective because they were not filed with the Auditor.

Inasmuch as bids were mailed to six vendors who could meet our specifications, I request your permission to award contracts, without further advertisement, to the companies listed above as they were the only two respondents. A study was made initially of various products, and the brands provided by these two companies have been found to best suit the needs of the schools. The period of the contract is August 31, 1988, through June 30, 1989, at the above prices which I have determined to be reasonable.

Very truly yours,  
Leo J. Burke,  
Business Manager.

### Automotive Supplies, etc.

Dear Mr. Mayor:

In response to an advertisement published in the *City Record* on Monday, May 16, 1988, inviting interested competent persons engaged in supplying automotive/auto body supplies and related materials for Fiscal Year 1989, to enter into a contract for estimating periodically the cost of, and thereafter, upon lowest responsible estimate, supplying the materials requested, under the care and custody of the heads of various schools/department heads, the following firms declared their intent to enter into a contract with the city under the above conditions:

4671, Auto Body Supply Corp., Dorchester, \$7,000, as requested; 4672, Lappen Auto Supply Co., Dorchester, \$7,000, as requested.

Your approval is requested to award a contract to the firms listed above for the period August 31, 1988, through June 30, 1989, inclusive. In no event shall the payments to be made nor the maximum liability of the city under this contracts for all firms exceed \$14,000.

The reason for late submission of this contract is due to the time involved in obtaining signatures from the vendor in order to properly process the contract.

Very truly yours,  
John P. McDonough,  
Asst. Business Manager.

### Transportation Services

Dear Mr. Mayor:

In response to an advertisement published in the *City Record* on Monday, May 2, 1988, to provide transportation for field trips for students, the following bid was publicly opened and read on Tuesday, May 24, 1988:

4682, Andre Coachlines, Inc., Readville, \$100,000, as requested.

The proposal submitted by Andre Coachlines, Inc. the only bidder, has been found to be legally defective because it was not filed with the Auditor.

Bid proposals were mailed to six vendors and Andre Coachlines, Inc. was the only bidder responding to our advertised bid. Since this company has provided satisfactory service for the past three years, their drivers have been cleared by the Registry of Motor Vehicles, and they are the only company responding to our bid at a price I deem reasonable, I request your permission to award a contract, without further advertisement, for the period August 31, 1988, through June 30, 1989, inclusive, with the not to exceed figure of \$100,000.

The reason for late submission of this contract is due to the time involved in obtaining the insurance policy for this company in order to properly process the contract.

Very truly yours,  
John P. McDonough,  
Asst. Business Manager.

### CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of the contracts without advertising, based on the following communications:

#### ASSESSING DEPARTMENT Software License and Maintenance

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Xyplex, Inc., Concord, for software license and maintenance.

Under the terms of the contract, the contractor will provide Xyplex software updates, access to its support line and Xyplex system software license. This equipment is necessary in order to properly respond to the data currently being collected for the FY 1989 Revaluation.

Xyplex is uniquely qualified to perform these services because it is the original equipment manufacturer and licensed to service this equipment.

Compensation under this contract shall not exceed \$2,500, which I have determined to be reasonable for the services to be performed.

The term of this contract shall be from July 15, 1988, through June 30, 1989.

Because of the professional and technical nature of the services to be provided, and the expertise of the contractor, I believe that public advertising would serve no useful purpose.

Sincerely,  
Thaddeus J. Jankowski, Jr.,  
Commissioner.

### Utility Valuation Consultant

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to John Russell Associates, Inc., Wisconsin, for professional services as utility valuation consultant to the Assessing Department and attorneys assigned to represent the department in tax appeals.

Under the terms of the contract, the contractor will provide technical valuation assistance concerning regulated utilities taxes within the city, including the Boston Edison Company and Boston Gas Company. Under the terms of the contract, the contractor will submit to the Assessor opinions of the fair cash value of New Boston I and II and the city-wide personal property of Boston Edison in compliance with certain guidelines of the Department of Revenue for fiscal year 1989.

The contractor is uniquely qualified to perform this work because of his extensive training and expertise in utility tax and rate matters and has already acquired knowledge of the properties to be appraised through work performed during previous contracts with the city.

Compensation under the terms of this contract shall not exceed \$20,000, which I have determined to be reasonable for the work to be performed. The contractor shall be paid at the rate of \$125 per hour. The contractor is specifically authorized to charge the city reasonable expenses, including reasonable attorney's fees incurred in matters in which the city has an interest, and for travel and out of pocket expenses.

The term of this contract shall be from July 1, 1988, through June 30, 1989.

This contract is being processed late. End of the fiscal year activities and those associated with the upcoming year precluded timely processing of the contract documents. Due to the time sensitive nature of the revaluation for fiscal 1989, it was important to have the contractor commence work immediately.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Sincerely,  
Thaddeus J. Jankowski, Jr.,  
Commissioner.

### HEALTH AND HOSPITALS DEPARTMENT Tomographic System Maintenance

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to Siemens X-Ray, Inc., Needham, for the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$332,000.

Under this contract, Siemens X-Ray, Inc., will provide maintenance, to include parts, labor, travel and glassware, as well as extended preventive maintenance to the Whole Body Computed Tomographic System at University Hospital at a cost not to exceed \$150,000. Extended preventive maintenance will be provided to the Computed Tomographic System at Boston City Hospital at a cost not to exceed \$100,000. An additional \$70,000 will be set aside to pay for repairs, as needed, not covered by the above maintenance and preventive maintenance contracts.

Siemens X-Ray, Inc., will furnish service and parts, as needed, to the C-Arm Fluoro Unit located in the Dowling 8 Operating Room and the portable X-ray unit at Boston City Hospital in an amount not to exceed \$12,000.

Unadvertised contracts have been awarded to Siemens X-Ray, Inc., for the past three years in the following amounts: 1988 — \$42,500; 1987 — \$4,600; 1986 — \$3,000. In fiscal year 1987 and 1986 the contracts were for service to the C-Arm Fluoro Unit only.

Therefore, because Siemens X-Ray, Inc., is the manufacturer with personnel specially trained to perform repairs to the above equipment, and as the cost in my opinion, is reasonable, no benefit would inure to the city by publicly advertising for bids.

Sincerely,  
Lewis W. Pollack,  
Commissioner.

### JOBS AND COMMUNITY SERVICES Alternative Educational Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the Cardinal Cushing Center, a non-profit corporation, located at 1375 Washington Street, Boston, for the purpose of providing alternative educational services.

Under the terms of the contract, the contractor will operate a competency-based, bilingual, remedial educational and English-as-a-Second Language program for approximately 40 eligible City of Boston high school dropouts. In addition, counseling and job development and placement services will be provided. The contractor was selected based upon an evaluation of its proposal submitted in response to a publicly advertised request for proposals conducted by the Mayor's Office of Jobs and Community Services and advertised in the *Boston Globe* on January 10, 1988. Costs were determined to be reasonable after extensive analysis by JCS staff and outside readers. Other selection criteria include administrative capability, ability to target the appropriate population, and a review of the contractor's performance during prior contract periods where applicable.

Compensation under the terms of this contract shall not exceed \$95,000, payment being made from funds received under the Job Training Partnership Act and the Department of Public Welfare. The period of performance shall be from July 1, 1988, until June 30, 1989. This contractor has had contracts with this agency for this program for the previous three fiscal years at the following funding amounts: FY 86- \$85,000; FY 87- \$87,662; FY 88- \$80,000. The submission of this letter has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised RFP, I believe that further public advertising would serve no useful purpose.

Sincerely,  
Neil H. Gordon,  
Associate Director.

### POLICE DEPARTMENT Microfilm Equipment Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Bell & Howell, Inc., a corporation, located at Needham Heights, for the purpose of maintaining and servicing microfilm equipment used by the Boston Police Department.

Under the terms of the contract, the contractor will provide for two yearly inspections, cleanings and basic service calls of the Police Department's ABR 100 Recorder, ABR 120 Imprinter and our Image Search Reader Printer. This microfilm equipment is used by the Police Department to provide

copies of records to the public and to meet the informational needs of law enforcement agencies on a timely basis. It is important that the microfilm equipment be carefully maintained so that requests for information can be speedily answered.

Bell & Howell is specially qualified to do this work because the microfilm equipment was originally purchased from and installed by Bell & Howell. Thus this contractor has personnel, familiar with the repair of this equipment, readily available and also has swift access to replacement parts.

Compensation under this contract shall not exceed \$2,558, which I have determined to be reasonable for the service to be performed. The term of this contract shall be July 1, 1987, through June 30, 1988. Bell & Howell, Inc., has contracted with the Police Department for this maintenance in fiscal Year '87, for \$3,540; Fiscal Year '86 for \$3,540; and Fiscal Year '85 for \$2,443.12.

Because of the qualifications listed above, it is submitted that public advertising would serve no useful purpose. This letter is being submitted late due to administrative delays caused by personnel changes within the Police Department's Contract Division and late receipt of vendor documents.

Respectfully,  
Francis M. Roache,  
Police Commissioner.

### PUBLIC FACILITIES DEPARTMENT Design of Police Training Academy

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on May 12, 1988, I respectfully request your Honor's written permission to dispense with further public advertisement and amend a contract approved by your Honor on March 1, 1988, awarded to Todd Lee/Clark/Rozas Associates, Inc., with offices at 286 Congress Street, for the design of renovations to the Police Training Academy. The cost of this amendment shall not exceed \$12,740. The amended cost of this contract shall not exceed \$67,120 (including \$14,000 for Supplementary Services) which is a fixed fee of 13.28 percent based on an estimated cost of construction of \$400,000.

Said amendment is necessary due to the increased scope of service required of the designer. Under the terms of the amended contract, Todd Lee/Clark/Rozas Associates, Inc., shall provide additional services including replacement of roof, video studio and landscaping.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions, and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose in this particular instance.

Sincerely,  
Lisa G. Chapnick,  
Director.

### SCHOOL DEPARTMENT Telegram Services, etc.

Dear Mr. Mayor:

Your authorization is requested for the award of a contract, without public advertisement, to Western Union Electric Mail, Inc., Waltham, for providing mailgrams and telegram service via New England Telephone for the Teacher Placement Unit-Office of Personnel. The cost of this service for the period August 15, 1988, through June 30 1989, will not exceed \$3,025, a price I have determined to be reasonable.

Boston Public Schools will utilize corporate rates, with the electronic mail services. Western

Union is the sole vendor that offers same day and overnight telecommunications messages through New England Telephone, in addition to training of Boston Public School staff. At present, various departments are utilizing Western Union mailgrams and telegrams for teacher placement information and other urgent notifications at consumer rates. The corporate rate will enable all personnel of Boston Public Schools to access Western Union at a 75 percent savings.

Compensation to this vendor during the past fiscal year did not exceed \$2,500.

Very truly yours,

Leo J. Burke,  
*Business Manager.*

## CONSTRUCTION TO BEGIN ON JAMAICA PLAIN POLICE STATION

The Public Facilities Department (PFD) of the City of Boston has accepted and approved a bid from Fairview Construction Co., Inc., of Dedham, or a contract to build the new District 13 Police Station in Jamaica Plain. Construction of the full-service station, to be built at the corner of Green and Washington Streets, is scheduled to begin within the next month.

"Fairview has a great track record with us," said Leonard Jones, PFD's Deputy Director of the Construction and Repair Division. "They most recently completed renovations to the Clougherty and Mirabella Pools two months head of schedule, and we're looking forward to the same success with this project."

The \$3 Million Jamaica Plain station is part of Mayor Flynn's five-year 920 Million Capital Plan to rebuild Boston, and reflects the administration's commitment to restoring the neighborhood police stations that were closed because of Proposition 1-1/2 in 1980. Stations in East Boston and Brighton have been reopened, a ribbon-cutting for the new Mattapan station was held in early July, and the South Boston Neighborhood Police Station, currently under construction, is scheduled for a spring completion.

The site of the new station is currently occupied by Ruggiero's Market. Mr. Joseph Ruggiero will be moving his store to a newly constructed adjacent building. The old market will then be demolished. PFD has worked very closely with Mr. Ruggiero and with neighborhood residents to insure that the relocation of the market, as well as all details regarding design and construction of the new station, meet with their approval.

The new station will include a community room, a mechanics garage, and two ambulance bays to be staffed by the Department of Health and Hospitals. The building will be completely barrier-free (handicapped accessible) and will be topped by a large clock tower.

The Jamaica Plain station was designed by DiNisco Kretsch and Associates of Boston, whose work included the Quincy Police Headquarters currently under construction. Construction will take approximately one year to complete.

### FOUNDATIONS MAKE DONATIONS TO MIRA

For the past year, Action for Boston Community Development (ABCD), helped program startup and provided a base of operation for the Massachusetts Immigration and Refugee Advocacy Coalition (MIRA). This organization was formed in response to the controversial Immigration and Control Act of 1986. In its second year, MIRA exists by generous grants from the Polaroid Foundation, the Hyams Foundations, the Ford Foundation, and the Boston Foundation.

MIRA, the Spanish word for "Look," is designed to increase the public's understanding of this legislation and to ensure that the individual's rights are protected. MIRA encompasses a number of organizations such as labor unions, community agencies serving refugees and immigrants, civil liberties groups, legal advocates, the business and religious communities, and human rights advocates.

According to Muriel Heiberger the Executive Director of MIRA, "The purpose of MIRA is to educate the public at large and other institutions about the law and to ensure that the rights and benefits of individuals are protected in implementing this legislation."

The coalition will continue to focus its activities in Outreach and Public Education about IRCA and Monitoring and Oversight of IRCA implementation. MIRA will hold workshops, publish six issues of its bimonthly newsletter ("MIRA NEWS"), Ethnic Media Outreach, participation on local and state-

wide task forces, media work, and monitoring and oversight of IRCA implementation.

"MIRA is a coalition seeking to conserve the support of the refugee population to become legalized, as well as educating people about the legalization process. It focuses on both public education and advocacy," says Timothy Cross, Program Director, the Boston Foundation.

### MICHAEL E. GLYNN APARTMENTS DEDICATED

Mayor Raymond L. Flynn, in August, joined community residents in a dedication ceremony for thirty-two units of housing for handicapped and senior citizens at the John Boyle O'Reilly Elderly Housing Development on Dorchester Street in South Boston.

The project is the result of a joint effort between the City of Boston and the National Association of Government Employees (NAGE), using funds totaling \$250,000 which were provided by the Drucker Company and Peabody Construction through Boston's downtown linkage program, and a \$4.5 million-dollar grant from the Department of Housing and Urban Development. The project is the second collaboration between the City of Boston and NAGE. The first was the Medeiros Manor in Roxbury. The units have been created by renovating part of what was formerly the John Boyle O'Reilly Elementary School.

The Michael E. Glynn Apartments are named after the late Michael Glynn, a community activist who played a key role in raising support for the project in the South Boston community. Glynn was killed in a boating accident in 1986. In praising Glynn's efforts, Flynn compared him to the nineteenth century Irish-American patriot and editor of *The Pilot*, John Boyle O'Reilly. "There could be no more worthy a young man to share a public building with the name

of the great John Boyle O'Reilly than Mike Glynn," Mayor Flynn said. "Both were men who sought to appeal to all the higher instincts of all people and to serve as unifiers who recognized the basic humanity of all."

## ABCD ANNUAL COMMUNITY AWARDS DINNER

To celebrate the 14th Annual Community Awards Dinner of Action for Boston Community Development and its neighborhood network of Area Planning Action Councils, and Neighborhood Service Centers (NSCs), will join 1,500 people at the Sheraton Boston Hotel on Friday, October 28.

ABCD, the largest human services agency in New England, has provided extensive antipoverty programs for low-income Boston residents for over twenty-five years. Dedicated people from sixteen neighborhoods are honored annually for enhancing their communities through outstanding contributions of time, effort, and skill. Each award winner is chosen through ABCD's grassroots APACs, NSCs, and other delegate agencies.

The Award Dinner has become a Boston neighborhood tradition. It will be an evening of celebrity speeches, entertainment, fine dining, music, and dancing.

For ticket information, call 357-6000, X 302 or your local APAC/NSC. Don't miss out! Reserve your seat now!

## EMERGENCY FOOD ASSISTANCE PROGRAM

Action for Boston Community Development (ABCD) is, once again, in the process of gearing up for its September, 1988 Surplus Food Distribution. September's distribution is unique because, due to problems with funding for the Emergency Food Assistance Program (TEFAP), there will be only three food products offered at this distribution, instead of the usual four. New eligibility guidelines for the program are also being released. A printed notice in your publication regarding these changes would help in letting clients know why and how this distribution is different.

Registration and information for all neighborhoods starts now at local Area Planning Action Councils (APACS) and Neighborhood Service Centers (NSCs). Distribution runs from September 12 through 22.

Your continued support is greatly appreciated.

LISA M. HALLSTEIN,  
Interim Director, Public Information.

## ABCD's LEARNING CENTER

Persons who are sixteen years of age or older and in need of a high school diploma, a good job, or the opportunity to go onto college, ABCD's Learning Center can help. The Learning Center is part of ABCD's Center for Jobs, Education and Career Training and can provide students with basic skill training, GED preparation and job placement. The ABCD Learning Center can help build a better future. For more information, call 357-6000, x366.

#### XIII. HIGH COMMENDATION

On July 9, 1988, at approximately 2050 hours, Fire Fighter (Inspector) Isaac Hendricks of the Fire Prevention Division heard a commotion outside his home. He observed two male teenagers leaving a side yard saying they had been stabbed. One was staggering and bleeding profusely.

Fire Fighter Hendricks immediately grabbed towels and ran outside to administer first aid; his wife called 911 to summon help. Without regard for the dangers of infectious disease or attack from assailants who did not immediately flee the area, Fire Fighter Hendricks applied direct pressure to the severe wounds in an attempt to stop the hemorrhaging.

He was relieved by Engine Company 42 and Rescue Company 2. He did not have the benefit of rubber gloves and his hands were quickly soaked with the victim's blood and other bodily fluids.

The act was performed with great personal risk as he exposed himself to the possibilities of infectious disease and assault. Because of his quick, aggressive actions and without regard for his own personal safety in a life-threatening situation, reflecting great credit upon himself and the Boston Fire Department, the Fire Commissioner is pleased to highly commend Fire Fighter (Inspector) Isaac R. Hendricks and refers his case to the Board of Merit for further consideration.

#### XIV. COMMENDATIONS

The Fire Commissioner is pleased to commend Fire Fighter (Senior Man) Steven G. Mortlock, Fire Fighters Richard L. Besse and Stephen J. Byrne, of Ladder Company 4, for their assistance in the successful birth of a baby on August 5, 1988, 1102 hours, incident No. 29534, 40 Parker Hill Avenue, and makes this commendation part of their personnel folder.

Using of safety belts can save lives and prevent injuries. So buckle up the ones you love and buckle up yourself for their sake

NOTICE

The attention of all bidders is specifically directed to the City of Boston Supplemental Minority Participation and Resident Section contract provision of the specifications for the obligations of the contractor and subcontractors to take affirmative action in connection with employment practices in the performance of this contract.

Attention to All Bidders

I. Minority Business Requirements:

No bid for the award of this project will be considered acceptable unless the general contractor complies fully with the following requirements for Minority Business Enterprise Utilization.

Pursuant to the Supplemental Minority Participation Section of this contract, the general contractor must give satisfactory assurance that at least 10 percent of his bid price shall be expended for Minority Business Enterprise, if bid is over \$10,000. For the purpose of this paragraph, the term minority business enterprise means a business in which at least 51 percent of the beneficial ownership and control is held by one or more minority persons (Black, Hispanic, Asian-American, or American Indian).

Each general contractor must complete, sign, and file with his bid the Minority Business Utilization Form. The Minority Business Utilization Form shall be completed and signed by the minority business enterprise and the general contractor. Failure to submit a Minority Business Utilization Form with the bid proposal will result in the rejection of the bid.

The City of Boston Minority Business Directory lists all minority-owned businesses that have been certified as such by the City of Boston. A copy of this directory can be obtained from the Awarding Authority or the Minority Business Office, 15 Beacon Street, fifth floor, Boston, MA 02108, telephone number 720-4300. If a contractor wishes to use a Minority Business that is not listed in the directory, he must contact the Minority Business Office to obtain a copy and submit with his bid, a Minority Business Identification Statement. The dollar amount obligated to a non-certified (City of Boston) minority business will not count towards the minority business percentage requirements.

II. Workforce Requirements:

During the performance of this contract, the general contractor shall agree and shall require that his subcontractors agree to the following workforce requirements (labor).

1. *Minority Workforce:* The contractor and its subcontractors shall maintain a not less than 25 percent ratio of minority manhours to total employee manhours in each trade worked on the contract.

2. *Female Workforce:* The contractor and its subcontractors shall maintain a not less than 10 percent ratio of female employee manhours to total employee manhours in each trade worked on the contract.

3. *Boston Residents:* The contractor and its subcontractors shall maintain a not less than 50 percent ratio of Boston resident employee manhours to total employee manhours in each trade worked on the contract.

4. The workforce requirements of paragraphs (1), (2), and (3) above shall apply to each trade that appears on the list of "Classification and Minimum Wage Rates" as determined by the Commissioner of Labor and Industries under the provisions of chapter 149, sections 26 through 27G, of the General Laws of Massachusetts, as amended. If you have any questions pertaining to the applicability of these requirements, please call the Compliance Office at 720-4300.

NOTICE OF REQUIREMENT FOR AFFIRMATIVE ACTION TO ENSURE EQUAL EMPLOYMENT OPPORTUNITY (EXECUTIVE ORDER 11246)

The contractor's attention is called to the "Equal Opportunity Clause" and "Standard Federal Equal Opportunity Construction Contract Specifications" set forth in this part.

The goals and timetables for minority and female participation are expressed in percentage terms for the contractor's aggregate workforce in each trade on all construction work in the covered areas. (See pages EEO-1 and EEO-2 of the bid specifications for goals and timetables.)

These goals are applicable to all the contractor's construction work (whether or not it is federal or federally assisted) performed in the covered areas.

As used in this notice, and in the contract, the covered area is Arlington, Boston, Belmont, Brookline, Burlington, Cambridge, Canton, Chelsea, Dedham, Everett, Malden, Medford, Melrose, Milton, Norwood, Reading, Revere, Somerville, Stoneham, Wakefield, Westwood, Winthrop, Winchester, Woburn and the Islands of Boston Harbor, Massachusetts.

The contractor's compliance with the Executive Order and the regulations in 41 CFR Part 60-4 shall be based on its implementation of the Equal Opportunity Clause, specific affirmative action obligations required to meet the goals established for the geographical area where the contract is to be performed.

The hours of minority and female employment and training must be substantially uniform throughout the length of the contract in each trade, and the contractor shall make a good-faith effort to employ minorities and women evenly on each of its projects.

The transfer of minority or female employees or trainees from contractor to contractor or from project to project for the sole purpose of meeting the contractor's goals shall be a violation of the contract, the Executive Order and the regulations in 41 CFR Part 60-4. Compliance with the goals will be measured against the total workhours performed.

The attention of all bidders is specifically directed to the provisions of the contract documents, including, with limitation, the notice to all bidders (including subcontractors), and the provisions with respect to bonds, insurance, equal employment opportunity, minimum wages, time of performance, liquidated damages, and the requirements set forth in the specifications on supplemental equal employment opportunity, anti-discrimination and affirmative action program contract provisions, and to the requirements of mandatory compliance with section 3 of the Housing and Urban Development Act of 1968 and Executive Order 11246.

## MAYOR FLYNN SIGNS PENSION REFORM ORDER

Boston Mayor Raymond L. Flynn signed into law the City of Boston Pension Reform Order which was passed by the Boston City Council on August eventeenth.

The Pension Reform Order, which enacts the State Reform Pension Act section 22D of chapter 32 General Law, contains important pension reforms and improvements, and provides for the reduction of the retirement system's unfunded actuarial liability to zero by June 30, 2028. The direct resolution of the unfunded pension liability will add another major notch to the continuing improvement in the city's financial management which has resulted in four credit rating upgrades since 1985.

"Today marks the beginning of a promising new day for the employees and retirees of the City of Boston. I am very proud that the city is the first of the approximately 100 municipal and county retirement systems to exercise the 22D Option," said Mayor Flynn. "It will switch the city's retirement system to a funding system that will prefund pensions. This in turn will provide additional security for employee pensions and further stability with regard to the city's financial structure. We are pleased to provide leadership on such an important issue, and without hesitation we recommend this local option to other cities and towns across the state," he added.

The Pension Reform Order was designed to assure all city employees that the city will make good on its commitment to pay pension benefits. It will also improve the financial picture of the city by resolving, over a period of forty years, the unfunded pension liability issue.

Exercising this option is not expected to increase the city's annual pension assessment, as the order allows for state grants to help pay for his new commitment.

The city's Budget Director, Robert Dolek, said, "This order will allow for a broad range of reforms and improvements in the city's current pension system. It also makes Boston's retirement system eligible for substantial grants from the Commonwealth for a period of fifteen years."

Mayor Flynn took the opportunity to commend Rep. Kevin Blanchette (D-Lawrence) as a major sponsor of the bill "who worked tirelessly over a period of years to ensure passage of a substantive pension reform bill," as well as other key supporters including Gov. Michael Dukakis, Senate President William Bulger, Speaker of the House George Keever-

ian, Sen. John Brennan (D-Malden), union representatives, and members of the business community.

"I would also like to acknowledge City Councillor Maura Hennigan Casey who demonstrated outspoken support for the passage of this Pension Reform Act in the City Council," said Mayor Flynn. "Thanks to all their efforts, and to Sen. Pat McGovern who contributed an equitable formula for the distribution of state pension grants, municipal employees will be assured economic stability after their public service has ceased," said the Mayor.

### BOSTON'S KITE FESTIVAL, TWENTIETH ANNIVERSARY

Mayor Raymond L. Flynn was joined by over 10,000 people at Franklin Park to celebrate the city's 20th annual Kite Festival.

Sponsored by Boston's Parks and Recreation Department, this year's festival drew both area residents and people from greater Boston, according to Parks Commissioner William B. Coughlin.

"The Kite Festival has become an

annual tradition for many families in Boston and beyond," says Coughlin. "It's a great way for people to salute the summer, get outdoors, and meet new friends."

Free kites were distributed to children at the festival by Parks Department staff, and horse rides were offered by the Boston Park Rangers.

Over fifty vendors lined Circuit Drive with traditional, multi-ethnic foods for sale. In addition, local groups like the Big Brothers Association and the Voter Registration Committee were on hand to sign up members. Ibrahima World Beat, an international band, and Something to Consider, teen funk band, entertained with live music during the day, and clowns and stilt walkers roamed the grounds for the youngsters.

Parks Programming Director Paul Barrett said that the popular kite festival was shifted from Memorial Day weekend to Labor Day weekend this summer because of rain last May. "This festival will draw crowds whenever it is run," said Barrett, "because it is family-oriented, and everyone likes to get outdoors during the summer."

### CITY SELLS VACANT BUILDING

Six limited equity co-ops on Columbia Road in Dorchester will go on sale for as little as \$50,000 each under a program administered by the Public Facilities Department of the City of Boston. The co-ops will be created through the rehabilitation of a vacant building which was sold through PFD's Residential Development Program to developer Leonard Markir. The Residential Development Program offers tax-foreclosed properties to the public through a best-use proposal process.

"In the last two years, the Residential Development Program has converted

over 200 previously vacant and abandoned apartments into affordable rental or ownership units throughout the city," said Lisa G. Chapnick, Director of the Public Facilities Department. "Over 90 percent of these units were made available to low- or moderate-income residents."

Rehabilitation of the building was scheduled to begin in August. Each of the six co-ops will have two bedrooms and will be available for purchase after the rehabilitation is complete in approximately six months. PFD, in addition to selling the land for \$1, is contributing additional resources towards helping to write down the purchase price of each unit.

Leonard Markir is the owner of Design Environments, Inc. and has eighteen years of experience in architecture, construction, and real estate. He has overseen the construction of single-family houses on Cape Cod, as well as an 800-unit, residential complex in Washington, D. C. Markir has extensive property management experience in Boston's neighborhoods, and was recently designated as the developer for three vacant lots through PFD's Project 747 in the Fields Corner section of Dorchester.

For more information about available abandoned properties, interested parties may call PFD's Clearinghouse at 725-4102.

## SECOND LANGUAGE PROGRAM

The Director of the Office of Personnel Management, Felix Arroyo, has announced the continuation of the English as a Second Language Workplace Program.

The Program is funded through the Mayor's Office of Jobs and Community Services, Gateway Cities Program.

The language and workplace skill development program is for city employees who are non-native English speakers. The program is organized into twelve-week sessions, in which students meet three hours a week to better their reading, writing, speaking and listening skills. In addition, students develop their knowledge of local government, problem solving, as well as workplace and community issues. The first session of classes began in mid-

September. For further information please contact: Office of Personnel Management, Joan LaMachia, Coordinator/Instructor; Debra Sandler, Director of Special Projects; Boston City Hall, Room 612, 725-3360.

## MWRA HOSTS TOURS OF DEER ISLAND

The Massachusetts Water Resources Authority has announced that it will offer special educational tours of the Deer Island Treatment Facility to people interested in a firsthand look at existing facilities and plans to end the pollution of Boston Harbor.

Massachusetts Water Resources Authority Manager of Public Education Steve Hunt said, "To really understand the scope of the Boston Harbor cleanup program, you need to see Deer Island. Once you drive through Winthrop's tiny streets, past the prison, and see the twenty-year-old plant, you can better envision the amount of work to be done."

The tours, which last three hours, will be offered on Tuesdays and Thursdays at 9 a.m. and 1 p.m. The tours depart from the lobby of Building 36, 100 First Avenue in the Charlestown Navy Yard. Reservations are required in advance as group size is limited to eleven. Reservations can be made by calling 241-6046.

The tour traces the course that wastewater takes as it enters the plant. Visitors will take an outside tour of the sediment tanks and sludge digesters, the pilot compost program and the construction site of the \$25-million, roll-on, roll-off water transportation piers.

The MWRA suggests people attending the tour wear either rubber soled shoes or sneakers and dress in casual attire. The MWRA will provide transportation to and from Deer Island.

## FEDERAL FUEL ASSISTANCE FUNDING CUTS

Due to large funding cuts by federal and state governments, Action for Boston Community Development's (ABCD's) Fuel Assistance Program will run from November 1, 1988, through March 31, 1989, two months shorter than last year's program. Another major change as a result of the funding cuts, is a drastic cut-back in benefits for

low-income families and individual who rely on the program.

ABCD's Fuel Assistance Program is designed to financially aid needy families who might not otherwise be able to keep warm this coming winter.

ABCD will announce the new benefit scales and documentation requirements as soon as the state's Executive Office of Communities & Development/Office of Fuel Assistance (EOCD/FA) release these figures. ABCD Energy Director, Constance Carey urges those Brookline, Boston and Newton residents interested in receiving fuel assistance to watch for more information about how, when, and where to apply for the Fuel Assistance Program this year.

## CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

### HEALTH AND HOSPITALS DEPARTMENT Primary Care Services

Dear Sir:  
Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to enter into a contract, and thereby make a grant to the following Community Health Center in the amount indicated for the period July 1, 1988, through June 30, 1989. Grantee Corporation, Brigham & Women's Hospital; Neighborhood Health Center, Brookside Park Family Life Center, 3297 Washington Street, Jamaica Plain; Amount of Grant; \$134,000.  
The purpose of this grant is to enable the aforementioned participants to meet the responsibility placed upon them by the City of Boston Primary Care Districting Plan. The grant is subject to two conditions: First, that the city's contribution be matched by the particular grantee corporation by either providing funds or services equal to the city's grant; and secondly, that the Department of Health and Hospitals is satisfied that the health center and the grantee corporation are agreed on the program of primary health care service for which these funds shall be spent and their respective roles relative to the management of the program.

The Department of Health and Hospitals has had a contract with the Brookside Park Family Life Center to provide primary care services in Jamaica Plain for seventeen years. The health center provides high quality health services in a neighborhood that has almost no private physicians or other acceptable primary care services. Boston's network of neighborhood health centers provide needed services and have had a significant impact on the health of people in Boston's neighborhoods. Brookside Park Family Life Center has been awarded unadvertised contracts for the past three fiscal years in the following amounts: 1988 — \$134,000; 1987 — \$120,000; 1986 — \$100,000.

Therefore, because of the professional nature of the services to be rendered, because the aforementioned is particularly suited to provide these health care services, and because the cost to the city is reasonable, no useful purpose would be served by publicly advertising for bids.

Very truly yours,  
Lewis W. Pollack,  
Commissioner.

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to enter into a contract, and thereby make a grant to the following Community Health Center in the amount indicated for the period July 1, 1988, through June 30, 1989.

Grantee Corporation, Carney Hospital; Neighborhood Health Center, Bowdoin Street Health Center, Inc., Dorchester; Amount of Grant; \$60,750.

The purpose of this grant is to enable the aforementioned participants to meet the responsibility placed upon them by the City of Boston Primary Care Districting Plan. The grant is subject to two conditions: First, that the city's contribution be matched by the particular grantee corporation by either providing funds or services equal to the city's grant; and secondly, that the Department of Health and Hospitals is satisfied that the health center and the grantee corporation are agreed on the program of primary health care service for which these funds shall be spent and their respective roles relative to the management of the program.

The Department of Health and Hospitals has had a contract with the Bowdoin Street Health Center, Inc., to provide primary care services in Dorchester for seventeen years. The health center provides high quality health services in a neighborhood that has almost no private physicians or other acceptable primary care services. Boston's network of neighborhood health centers provide needed services and have had a significant impact on the health of people in Boston's neighborhoods. Bowdoin Street Health Center, Inc., has been awarded unadvertised contracts for the past three fiscal years in the following amounts: 1988 — \$45,750; 1987 — \$45,750; 1986 — \$25,750.

Therefore, because of the professional nature of the services to be rendered, because the aforementioned is particularly suited to provide these health care services, and because the cost to the city is reasonable, no useful purpose would be served by publicly advertising for bids.

Very truly yours,  
Lewis W. Pollack,  
Commissioner.

### INSPECTIONAL SERVICES DEPARTMENT Building Operation Services

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to the Niles Company, Inc., a corporation, located at 303 Congress Street, for maintenance service at 1010 Massachusetts Avenue.

Under the terms of the contract, the contractor will furnish reasonable building operation services, when needed, upon advance request of the tenant and with the approval of the landlord.

In accordance with 1010 Massachusetts Avenue's lease agreement the landlord will furnish such service through their own employees or independent contractor, this being the Niles Company, Inc.

Compensation under this contract shall not exceed \$10,000, which I have determined to be reasonable for the work to be performed. The term of this contract shall be from August 8, 1988, to June 30, 1989.

Because the Niles Company, Inc. manages the property at 1010 Massachusetts Avenue, Boston, for the owner, Boston Realty, and the reasonable

cost of these services, I believe that public advertising would serve no useful purpose.

Sincerely,  
Thomas McNicholas,  
Commissioner.

### JOBS AND COMMUNITY SERVICES

#### Employment Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to the South Boston Neighborhood House, a nonprofit corporation, located at 521 East Seventh Street, South Boston, for the purpose of providing youth employment services.

Under the terms of the contract, the contractor will operate a Rent-a-Kid program, providing employment services to approximately 100 area youths. The contractor was selected based upon an evaluation of its proposal submitted in response to a request for proposals conducted by the Mayor's Office of Jobs and Community Services and published in the *South Boston Tribune* on March 3, 1988. Costs were determined to be reasonable after extensive analysis by JCS staff. Other selection criteria include administrative capability and the ability to target the appropriate population.

Compensation under the terms of this contract shall not exceed \$15,000, payment being made from funds received under the Community Development Block Grant program. The period of performance shall be from June 13, 1988, until June 9, 1989. The submission of this letter has been delayed due to the length of the funding review process. This contractor has not had a contract with this agency for this program before this fiscal year.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of a proposal submitted in response to a publicly advertised RFP, I believe that further public advertising would serve no useful purpose.

Sincerely,  
Neil H. Gordon,  
Associate Director.

#### Child Care Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to Mission Possible, Inc., a nonprofit corporation, located at 1545 Tremont Street, Roxbury. Under the terms of the contract, the contractor will provide pre-school and after-school child care services to approximately fifty children residing in the Mission Hill community.

The contractor was selected based upon an evaluation of its proposal submitted in response to a publicly advertised request for proposals conducted by the Mayor's Office of Jobs and Community Services and advertised in the *Boston Globe* on January 10, 1988. Costs were determined to be reasonable after extensive analysis by JCS staff and outside readers. Other selection criteria include administrative capability, the ability to serve the targeted population, and a review of the contractor's performance during prior contract periods where applicable.

Compensation under the terms of this contract shall not exceed \$30,000, payment being made from the Community Development Block Grant program. The period of performance shall be from July 1, 1988, until June 30, 1989. This contractor has not had contracts with this agency for this program for any of the previous three fiscal years. This request has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly

advertised RFP, I believe that further public advertising would serve no useful purpose.

Sincerely,

Neil H. Gordon,  
Associate Director.

#### Graphic Design Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to Adams & Abbott, Inc., located at 55 Temple Place, for the purpose of providing professional services to the Mayor's Office of Jobs and Community Services.

Under the terms of the contract, the contractor will provide graphic design services to JCS on an as-needed basis. The contractor was selected based upon an evaluation of its proposal submitted in response to a publicly advertised request for proposals conducted by JCS and advertised in the *Boston Sunday Globe* on June 5, 1988 and the *City Record* on June 6, 1988. The costs proposed are competitive and reasonable. In addition, the firm was selected because it has done quality work for JCS in the past and is a certified minority business enterprise.

Compensation under the term of this contract shall not exceed \$4,000, payment being made from funds received under the Job Training Partnership Act (JTPA). The period of performance shall be from July 15, 1988, until June 30, 1989. The submission of this letter has been delayed due to the length of time involved in determining the availability of administrative funds.

As this is a negotiated contract for professional services at a reasonable cost, based upon an extensive review of proposals submitted in response to a publicly advertised RFP, I believe that further advertising would serve no useful purpose.

Sincerely,

Neil H. Gordon,  
Associate Director.

#### Adult Education Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to W. A. I. T. House, Inc., a non-profit corporation, located at 117 Mount Pleasant Avenue, Roxbury, for the purpose of providing adult education services.

Under the terms of the contract, the contractor will offer basic skills instruction and an External Diploma program to approximately twenty-five, low-income adults. The contractor was selected based upon an evaluation of its refunding proposal submitted to the Mayor's Office of Jobs and Community Services. Other selection criteria include the results of site monitoring visits conducted by JCS staff, an overall review of the contractor's performance during prior contract period, administrative capability, reasonableness of cost, and the ability to serve the targeted population.

Compensation under the terms of this contract shall not exceed \$33,000, payment being made from funds received from the State's Department of Public Welfare. The period of performance shall be from July 1, 1988, until June 30, 1989. This contractor has had contracts with this agency for the previous three fiscal years at the following funding amounts: FY 86- \$14,850; FY 87- \$83,833; FY 88- \$85,000. The submission of this letter has been delayed due to the length of time involved in the funding review process.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposals review, I believe that further public advertising would serve no useful purpose.

Sincerely,

Neil H. Gordon,  
Associate Director.

#### LIBRARY DEPARTMENT Books and Library Materials

Dear Mr. Mayor:

On behalf of the Boston Public Library of the City of Boston, I am respectfully requesting your approval to award a contract without advertising, to the Trustees of the Boston Public Library of the City of Boston, a corporation duly organized and existing under the laws of the Commonwealth of Massachusetts (See St. 1878, c. 114), for the purchase of books and certain other library bibliographical acquisition materials for the period September 1, 1988, through June 30, 1989, at a cost not to exceed \$2,188,000.

The library is now requesting that a contract be established between the City of Boston (Official) and the Trustees of the Boston Public Library of the City of Boston (Contractor), in the amount of \$2,188,000. This amount is available for the Library approved City Budget (011-110-0110-0390) for FY-89. The contract will allow the purchase of books and materials from publishers and dealers that can supply the required titles and quantities. In the past, the Library book purchasing operation involved over 3,000 individual book supply companies, and this supply network is still needed.

This contract has been discussed with the Law Department and the City Auditor, and has been agreed to as an acceptable approach to this unique purchasing situation.

The Trustees of the Boston Public Library will abide by the City of Boston contract procedures to the extent possible and this contract will have no effect on competition among book vendors.

In view of the circumstances outlined above, public advertising would serve no useful purpose.

During the prior three fiscal years (Fiscal Years 1986, 1987, and 1988), contracts for the purchase of books and certain other library bibliographical acquisition materials were awarded without advertising to the Trustees of the Boston Public Library of the City of Boston in the following amounts:

FY'88-\$2,159,185; FY'87-\$1,775,000; FY'96-\$1,001,381.

With the award of this contract for the period September 1, 1988, through June 30, 1989, the Trustees of the Boston Public Library of the City of Boston will now be able to order books and other library materials from the main supply source and the general public needs and interest will be served more efficiently.

Respectfully,

By Arthur Curley,  
Director and Librarian.

#### PARKS AND RECREATION DEPARTMENT Programs Financial Support

Dear Mr. Mayor:

I respectfully request your permission to dispense with inviting proposals by advertising in the *City Record*, and to award a contract to the Boston Park League, Inc., Boston, for the period July 15, 1988, through June 30, 1989.

It is our intention that this contract will allow the continued enhanced financial support which the Boston Parks and Recreation Department feels necessary to promote amateur baseball for all levels of skill in the City of Boston.

The contract will cover the daily operating cost of the league on a basis including fees for thirty umpires for 155 regular games and seventeen playoffs.

The Parks Department being the sole financial supporter of the operating cost of the league allows

the teams to procure their best available equipment for use by these players.

The Boston Park League, Inc., is sponsored by the Parks and Recreation Department for the second consecutive year. The league provides opportunities for area high schools and collegiate athletes to continue to compete in an extremely competitive baseball environment. These games are played in various neighborhoods of the City of Boston. Without our commitment of sponsorship the continued operation of the Sr. Park League would be in jeopardy.

Therefore, your permission is requested to dispense with inviting sealed bids by advertising in the *City Record*, pursuant to the authority granted under the City of Boston Code, St. 4, sec. 5. The sum to be paid will not exceed \$15,000, and will be charged to 011-300-0301-0290-PK04.

Sincerely,

William B. Coughlin,  
Commissioner

#### PUBLIC FACILITIES DEPARTMENT Playground Upgrading

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on May 12, 1988, I respectfully request your Honor's written permission to dispense with public advertisement and award a contract to Quincy School Community Council, with offices at 885 Washington Street, providing services to upgrade a small playground at 34 Oak Street in Chinatown under the Grassroots Program. This playground will be used by children in Quincy School Community Council's day care program and be open to the public after hours and on weekends.

Compensation under this contract shall not exceed \$12,000, which I have determined to be a reasonable cost for the services to be performed. The term of this contract shall be from July 15, 1988, through June 30, 1989. Funds for this contract shall come from those received under the Community Development Block Grant program.

The contractor was selected based upon an evaluation of the proposal submitted in response to a publicly advertised request for proposals conducted by the Public Facilities Department on July 20, 1987 in the *Boston Globe*. Costs were determined to be reasonable after extensive analysis by Public Facilities Department staff. Other selection criteria include a variety of bilingual education, cultural, social and recreational programs they provide to more than 3,000 children, teens and adults annually. They are Boston's primary Asian Multi-Service Center.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s.

Sincerely,

Lisa G. Chapnick,  
Director

#### Playground Area Project

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on May 12, 1988, I respectfully request your Honor's written permission to dispense with public advertisement and award a contract to Dimock Community Health Center with offices at Dimock Street, Roxbury, providing services converting a half-acre, wooded-site into a playground area for young children living in the AC

ny Homes Housing Development to use after  
purs and on weekends, under the Grassroots Pro-  
gram.

Compensation under this contract shall not ex-  
ceed \$25,000, which I have determined to be a rea-  
sonable cost for the services to be performed. The  
term of this contract shall be from July 15, 1988, to  
June 30, 1989. Funds for this contract shall come  
from those received under the Community Devel-  
opment Block Grant program.

The contractor was selected based upon an  
evaluation of the proposal submitted in response to  
publicly advertised request for proposals con-  
ducted by the Public Facilities Department on July  
1, 1987 in the *Boston Globe*. Costs were deter-  
mined to be reasonable after extensive analysis by  
Public Facilities Department staff. Other selection  
criteria include Dimock Community Health Cen-  
ter's operation of a comprehensive medical center  
for families, a major regional center for alcoholism  
programs, a health vocational training center, and  
day care and child development centers.

As this is a negotiated contract at a reasonable  
cost, based upon an extensive program and pro-  
posal review, I believe that further public advertis-  
ing would serve no useful purpose. I, therefore, re-  
quest permission to dispense with inviting sealed  
bids in the *City Record*, pursuant to authority  
granted under the City of Boston Code, St. 4, s. 5.

Sincerely,

Lisa G. Chapnick,  
*Director.*

#### Mechanical Engineering Services

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Com-  
mission on June 9, 1988, I respectfully request  
your Honor's written permission to dispense with  
further public advertisement and award a contract  
to Scorziello Associates, a Massachusetts organi-  
zation, with offices at Brookline, providing mechan-  
ical engineering services as a member of the De-  
sign Review Team for various projects. Scope of  
work will include site visits and preparation of re-  
view documentation through all phases of con-  
struction.

Compensation under this contract shall not ex-  
ceed \$48,000, which is a negotiated fee based on  
an hourly rate of \$60 per hour for principals, which I  
have determined to be a reasonable cost for the  
work to be performed. The term of this contract  
shall be from August 15, 1988, to June 30, 1989.

Following the advertisement of this project in the  
*Boston Globe* on April 11, 1988, and receipt of pro-  
posals, the contractor was selected on the basis of  
a rating system undertaken by the Public Facilities  
Design Selection Committee in accordance with  
G.L.C. 7, s. 38A 1/2 et seq. The committee evalu-  
ated three proposals submitted by the applicants  
and determined Scorziello Associates most quali-  
fied and competent to complete said design work.  
The numerical matrix rating for a firm reflects the  
combined score of each committee member's  
rating of this firm and thus the recommended firm  
is the lowest number. The numerical matrix rat-  
ing summary of the three finalists, in order of rank,  
is as follows:

Scorziello Associates, Brookline, 1; Francis J.  
Fisher, Jr., & Assoc., Inc., 150 Causeway Street,  
Boston, MA 02114, 2; Taskin, Inc., North Reading,

I believe Scorziello Associates is qualified to per-  
form the services required.

View of the technical and professional nature  
of the services, and the selection process used, it is

my judgment that further public advertising would  
serve no useful purpose in this instance.

Sincerely,

Lisa G. Chapnick,  
*Director.*

#### Leasing Certain Premises

Dear Mayor Flynn:

Under a delegation of its power from the Public  
Facilities Commission to the director of Public Fa-  
cilities, I hereby request your Honor's written au-  
thority to dispense with public advertising and au-  
thorize a lease for certain premises, deemed  
necessary and convenient by the director to be  
used as office space by the Code Enforcement Pro-  
gram.

The demised premises, located at 440 Commer-  
cial Street, Boston, consists of 2,500 square feet of  
office space on the second floor.

The term of the lease commences on July 1,  
1988, and expires on September 30, 1988, or upon  
thirty days written notice by the landlord. The  
monthly rent shall be \$3,750. The cost for the term  
of the lease is not to exceed \$11,250.

It is understood that the Code Enforcement Pro-  
gram will be occupying the aforementioned pre-  
mises, at 440 Commercial Street, on an interim ba-  
sis, while the Public Facilities Department makes a  
concerted effort to obtain a permanent space.  
Once this is accomplished, the Code Enforcement  
Program will be relocated immediately. I believe  
that three months are necessary to complete this  
task.

The submission of this request has been delayed  
due to the time required of the lessor to submit the  
lease.

Since the leased premises at 440 Commercial  
Street is both necessary and convenient, it is my  
judgment that public advertisement would serve no  
useful purpose and that this lease should be autho-  
rized.

Sincerely,

Lisa G. Chapnick,  
*Director.*

#### Asbestos Cleanup

Dear Mayor Flynn:

On May 9, 1988, the Public Facilities Depart-  
ment was notified that an emergency situation ex-  
isted at Boston City Hall. A contractor working on  
the roof with powered removal equipment created  
vibrations which caused material containing as-  
bestos to loosen and fall from the ceiling. The roof-  
ing project was immediately stopped.

This situation threatened the health of the public  
and the users of this building. We requested and  
received from the Division of Capital Planning and  
Operations a waiver to dispense with public adver-  
tising and to immediately clean up the offices on  
the 9th floor to prevent any further exposure to as-  
bestos. American Environmental Services, Inc. re-  
sponded to our call and worked through the night so  
the office personnel would be able to return in  
the morning to a safe environment.

Therefore, in accordance with Massachusetts  
General Laws chapter 30, section 39M, I request  
your Honor's written permission to dispense with  
public advertisement and award a contract to  
American Environmental Services, Inc., Braintree,  
in an amount not to exceed \$5,734.

Sincerely,

Lisa G. Chapnick,  
*Director.*

#### Hamilton House, Inc., Renovations

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Com-  
mission on April 14, 1988, I respectfully request  
your Honor's written permission to dispense with  
public advertisement and award a contract to  
Boston Hamilton House, Inc., a nonprofit organiza-  
tion, with offices at 25 Mount Ida Road, Dorchester,  
for renovations to its facility.

Under the terms of the contract, the contractor  
will replace and rebuild front and rear porches on  
all three levels of the building. Also, repair of the  
interior staircases and installation of new roof tar  
and gravel will be performed.

Compensation under this contract shall not ex-  
ceed \$30,000, which I have determined to be a rea-  
sonable cost for the services to be performed. The  
term of this contract shall be from May 1, 1988, to  
June 30, 1989. Funds for this contract shall come  
from those received under the Community Devel-  
opment Block Grant Program.

The contractor was selected based upon an eval-  
uation of the proposal submitted in response to a  
publicly advertised request for proposals con-  
ducted by the Public Facilities Department in De-  
cember of 1986 in the *Boston Globe*.

A selection committee, consisting of members of  
the Public Facilities Department's Development  
Division, evaluated proposals based on the follow-  
ing eligibility and selection criteria: community-  
based, nonprofit organization, low-moderate in-  
come census area; neighborhood location,  
readiness to start construction, and feasibility of  
project. The nonprofit organizations which met the  
eligibility and selection criteria are listed below:

Quincy School Community Council; North End  
Union, Inc.; Boston Hamilton House, Inc.

Costs were determined to be reasonable after  
extensive analysis by Public Facilities Department  
staff.

As this is a negotiated contract at a reasonable  
cost, based upon an extensive program and pro-  
posal review, I believe that further public advertise-  
ment would serve no useful purpose. I, therefore,  
request permission to dispense with inviting sealed  
bids in the *City Record*, pursuant to authority  
granted under the City of Boston Code, St. 4, s. 5.

The submission of this request has been delayed  
due to the time required of Boston Hamilton House,  
Inc. to submit a Certificate of Insurance.

Sincerely,

Lisa G. Chapnick,  
*Director.*

#### Providing Construction Loans

Re: The Boston Five Cents Savings Bank,  
Amendment to Contract C-13124-88, Aban-  
doned Housing Bank

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Com-  
mission on March 15, 1988, I respectfully request  
your Honor's written permission to dispense with  
public advertisement and amend a contract ap-  
proved by your Honor on December 28, 1987, to  
the Boston Five Cents Savings Bank, with offices  
at 10 School Street, Boston, for the purpose of pro-  
viding construction loans for the Abandoned Hous-  
ing Bank during the period October 1, 1987, to De-  
cember 31, 1988, at a cost not to exceed \$200,000.

Your approval is requested to amend this con-  
tract to provide for continuation of same services.  
The reason for this amendment is because the per-  
formance of the Abandoned Housing Bank is ex-  
ceeding our expectations. It has proven to be a  
very effective funding mechanism for converting

tax foreclosed property into affordable housing. In its first year (1987) it funded the renovation of nineteen buildings (forty-one units) and made loans in excess of \$1.75 million on projects worth \$2.7 million. Several factors contributed to this past high level of production and the bright prospect of an even better year in 1988 — projects went through the process more quickly than expected; sufficient Massachusetts Housing Finance Agency funds have been available for all projects as each was ready to go; buildings continued to come into city ownership at a fairly high rate — something no one expected; construction started very quickly and progressed rapidly so funds have been drawn down at a very fast rate.

At the present time there are between fifteen and twenty buildings that are good candidates to use the Abandoned Housing Bank. In order to keep the Abandoned Housing Bank in continuous operation until new contracts can be executed on January 1, 1989, additional subsidy funds need to be deposited into the banks presently participating in the program. These deposits will ensure that each building can be renovated into affordable housing without delay. These amendments will allow us to complete our 1988 projects and make a smooth transition in 1989.

The cost of this amendment shall not exceed \$200,000, which I have determined to be reasonable. The contract, as amended, shall not exceed \$400,000. The period of performance shall remain the same.

Because of the professional nature of the services to be provided, and the qualifications of the contractor, I believe that public advertising would serve no useful purpose in this instance.

The submission of this request has been delayed due to the time required of the contractor to return all necessary documents (eight weeks).

Sincerely,  
Lisa G. Chapnick,  
Director.

#### PUBLIC WORKS DEPARTMENT Roadway Engineering Services

Dear Mr. Mayor:

We respectfully request your Honor's permission to award a contract, without further advertising, to Fay, Spofford and Thorndike, Inc., a corporation, located at 20 Park Plaza, Boston, for engineering services for the reconstruction of various public roadways in the City of Boston.

The above services will include, but not be limited to: preliminary drawings, contract documents, and construction supervision.

Fay, Spofford and Thorndike, Inc. was selected as result of a lengthy process. First, advertisements for the reconstruction project were placed in the *City Record* on April 18, 1988, and the *Boston Globe* on April 17, 1988, inviting interested parties to submit a statement of qualifications. Twenty-one firms submitted qualifications. Of these twenty-one, seven were invited to submit detailed proposals: Barnes and Jarnis, Inc., Louis Berger and Associates, Inc., Edwards and Kelcey, Inc., Hayden/Wegman, Inc., Schoenfeld Associates, Inc., Storch Engineers, Inc.

The proposals were carefully evaluated by the Selection Committee composed of senior staff from my department. The committee considered factors such as cost, understanding of the work to be done, the proposed project personnel, previous corporate experience, and the proposed work schedule. The committee recommended the firm of Fay, Spofford and Thorndike, and I agree with the committee's recommendation.

Compensation under this contract is not to exceed \$298,840, an amount which we have determined to be reasonable.

The term of this contract shall be August 29, 1988, to August 29, 1990.

Fay, Spofford and Thorndike, Inc., has had three contracts (\$1,113,700) with this department for the previous three fiscal years, FY 88, FY 87, FY 86.

Because of the professional nature of the services, the quality of the firm and its proposal, and the reasonableness of the cost, your permission is requested to award this contract under the terms and the condition stated above.

Very truly yours,  
Joseph F. Casazza,  
Commissioner.

Dear Mr. Mayor:

The committee considered factors such as cost, understanding of the work to be done, the proposed project personnel, previous corporate experience, and the proposed work schedule. The committee recommended the firm of Edwards and Kelcey, Inc., and I agree with the committee's recommendation.

Compensation under this contract is not to exceed \$269,000, an amount which we have determined to be reasonable.

The term of this contract shall be August 29, 1988, to August 29, 1990.

Edwards and Kelcey, Inc., has had one bridge contract, \$52,617, with this department for the previous three fiscal years, FY 88, FY 87, FY 86.

Because of the professional nature of the services, the quality of the firm and its proposal, and the reasonableness of the cost, your permission is requested to award this contract under the terms and the condition stated above.

Very truly yours,  
Joseph F. Casazza,  
Commissioner.

Dear Mr. Mayor:

We respectfully request your Honor's permission to award a contract, without further advertising, to Schoenfeld Associates, Inc., a corporation, located at 12 Farnsworth Street, for engineering services for the reconstruction of various public roadways in the City of Boston.

The above services will include, but not be limited to: preliminary drawings, contract documents, and construction supervision.

Schoenfeld Associates, Inc. was selected as a result of a lengthy process. First, advertisements for the reconstruction project were placed in the *City Record* on April 18, 1988, and the *Boston Globe* on April 17, 1988, inviting interested parties to submit a statement of qualifications. Twenty-one firms submitted qualifications. The proposals were carefully evaluated by the Selection Committee composed of senior staff from my department. The committee considered factors such as cost, understanding of the work to be done, the proposed project personnel, previous corporate experience, and the proposed work schedule. The committee recommended the firm of Schoenfeld and Associates, Inc., and I agree with the committee's recommendation.

Compensation under this contract is not to exceed \$299,770, an amount which we have determined to be reasonable.

For the purpose of this paragraph, the term minority business enterprise means a business in which at least 51 percent of the beneficial ownership and control is held by one or more minority persons (Black, Hispanic, Asian-American, or American Indian).

Each general contractor must complete, sign, and file with his bid the Minority Business Utilization Form. The Minority Business Utilization Form shall be completed and signed by the Minority Business Enterprise and the general contractor. Failure to submit a Minority Business Utilization Form with the bid proposal will result in the rejection of the bid.

The City of Boston Minority Business Directory lists all minority-owned businesses that have been certified as such by the City of Boston. A copy of this directory can be obtained from the Awarding Authority or the Minority Business Office, at 15 Beacon Street, fifth floor, Boston, MA 02108, telephone number 720-4300. If a contractor wishes to use a minority business that is not listed in the directory, he must contact the Minority Business Office to obtain a copy and submit with his bid, a Minority Business Identification Statement. The dollar amount obligated to a non-certified (City of Boston) minority business will not count toward the minority business percentage requirements.

PRESIDENT, CITY COUNCIL

VOL. 80

NO. 39

## FEDERAL FUNDS FOR TRANSITIONAL HOUSING PROGRAMS

Boston Mayor Raymond L. Flynn has announced that the city has been awarded \$743,475 in federal funds for three transitional housing programs. The recipients of the Stewart McKinney Homeless Assistance funds are Bridge Over Troubled Waters, Bostonian Chambers and Renewal House. This third round of funding brings the total amount awarded to organizations serving the needs of Boston's homeless to over \$3 million.

"Transitional housing serves as a bridge to help homeless men, women, and children step from a life on the streets and in the shelters into a more independent, self-sufficient environment," said Mayor Flynn. "The housing facilities, training and counseling provided by these three programs are giving homeless people the tools they need to help establish secure and productive lives."

"Our Public Facilities Department provided technical assistance to the three grant applicants and submitted the applications to HUD as a city-sponsored package to maximize federal monies available to Boston," Mayor Flynn continued.

"It is evident that Mayor Flynn's commitment toward assisting the homeless has paid off handsomely," said Lisa G. Chapnick, director of PFD. "In this round of funding, the amount awarded to Boston agencies has doubled and the number of organizations providing services has tripled."

Bridge Over Troubled Waters, an agency serving adolescents in crisis, will use most of its \$264,400 award to complete the rehabilitation of two Brighton buildings that will contain six units of long-term transitional housing for adolescents from the agency's other residential facilities. These cooperative apartments will serve sixteen youths in an informal, supportive setting. The remainder of the funds will cover five years of operating costs.

Bostonian Chambers, a Dorchester-based, nonprofit human services agency, will apply its \$355,125 grant toward five years of operating costs for such services as mental health counseling and job training. The programs will serve twenty-four families at two transitional housing facilities for homeless women and children.

Renewal House, a short-term crisis shelter serving over 100 women and children each year, will rehabilitate a transitional housing facility in Dorchester with its \$123,950 grant. The new facility will serve four to five families in a long-term community living situation. The award will also provide operating costs for the facility. Last year, Renewal House was awarded \$45,000 from PFD through money acquired through Supplemental Assistance for Facilities to Assist the Homeless.

The Stewart McKinney Homeless Assistance Act was named for the late Connecticut representative, a champion for the homeless. The act was passed last year with the active support of Mayor Flynn, chairman of the U.S. Conference of Mayors Task Force on Hunger and Homelessness.

### HUNGER COMMISSION AND EMERGENCY FOOD NETWORK BREAK DOWN MAJOR BARRIER TO FEEDING THE CITY'S HUNGRY

In Boston, there is no lack of food to feed the hungry, nor lack of willingness to help the city's less fortunate residents. But recently, bureaucratic roadblocks threatened to cut off the supply of food donated to the city's emergency food network and to close soup kitchens and food pantries across the city. A grassroots effort led by the Mayor's Hunger Commission prevented

this crisis by drafting and lobbying for passage of a bill that smoothes the way for charitable food donations and eases licensing restrictions on pantries and kitchens. The law is a victory for the city's emergency food network.

In 1987, health inspectors began cracking down on nonprofit food kitchens and pantries, inspecting more frequently and demanding higher standards. The existing law required emergency food network participants to be licensed and to meet the same stringent codes large commercial kitchens are required to meet. The proposed licensing measure also demanded inspection of the private homes of people who donate food to emergency food distributors.

Jo-Ann Eccher, chairperson of the Mayor's Hunger Commission said the Emergency Food Network approached the Commission for help "because there seemed to be a step up of health inspectors coming in and inspecting food kitchens and pantries. The food kitchens were feeling harassed and didn't have the economic capability to meet the same standards as large commercial kitchens," Eccher said.

There was fear among the city's pantries and soup kitchens they would be put out of business because of the high costs of meeting licensing standards, or because families and individuals who normally donate food would be scared off, fearing liability. "Private donations are the lifeline of the emergency food network. The whole system would have collapsed if the food could not be brought in from outside," Eccher said.

Jane Alexander, director of Women's Lunch Place on Newbury Street said that "it is not fair to ask nonprofit soup kitchens and food pantries to have to meet restaurant standards."

Women's Lunch Place serves fifty to seventy guests each day in the basement of the Church of the Covenant on

(Continued on next page)

## Hunger Commission . . .

(Continued from previous page)

Newbury Street. Alexander says that one-third of the women who come to Women's Lunch Place live in marginal housing, another third spend their nights in shelters, and the last third live on the streets. "We feel there's no greater public health crisis in this city than hunger and homelessness. The fact is, people would be eating out of garbage cans if it weren't for nonprofit food pantries and soup kitchens. We see the absence of resources for the women we serve as a larger public health crisis," said Alexander.

At Women's Lunch Place the staff, volunteers and guests all eat the same food. Seven days out of the month the meal served by the kitchen is prepared by families and churches in suburban communities. Alexander says the stews, lasagna, and casseroles served on these days are among the guests' favorites.

When the city's pantry and soup kitchen operators brought the issue to the attention of the Mayor's Hunger Commission last April, Kristen J. McCormack, director of the Mayor's Office of Jobs and Community Services, advised the Commission to pursue legislation that would modify the existing code. A bill was drafted by the Mayor's Office of Jobs and Community Services and sponsored by Representative Mark Roosevelt (D-Boston).

Roosevelt, whose wife Catherine runs a weekly meals program on Beacon Hill for senior citizens, said "Technically, when we cooked a meal and brought it down to Hill House to be served, we were breaking the law. That was absurd," said Roosevelt.

In the meantime, Mayor Flynn was able to "get a moratorium on inspections for the Boston soup kitchens and pantries until the issue was resolved," said Jo-Ann Eccher. This helped take the pressure off the emergency food network until legislation could be drafted and introduced.

In April, the bill had a public hearing in front of the Commerce and Labor Committee. Kristen J. McCormack, director of the Mayor's Office of Jobs and Community Services, Ann McGuire, the Mayor's advisor on Homeless Issues both testified in favor of the bill as well as members of the Emergency Food Network.

After much debate the bill was reported favorably out of the Committee and approved by the House of Representatives and later by the Senate. In July, it was signed into law by Governor Michael Dukakis. On October 23, the bill now known as chapter 183 of the Acts of 1988, goes into effect. It was the first major bill sponsored by Rep. Roosevelt to be signed into law and it was a genuine victory for Boston's Hunger Commission and emergency food network.

"People who run nonprofit food pantries and soup kitchens deserve our admiration and our assistance. Every day they are feeding hungry and poor people who are too often forgotten. All residents of this city are entitled to eat in places that meet minimum standards of cleanliness and we are confident that the city's soup kitchens and pantries meet these standards," said Mayor Flynn.

Derek Coelho, an employee of the St. Francis House, a Boston homeless shelter which runs a soup kitchen said that the legislation is important because "it is a necessary safeguard to ensure people feel free to donate food to the shelter. The hunger problem is not a problem of a lack of food. It has to do with redistributing extra food. People are concerned with liability and be-

ing sued. This law is saying that the law provides safeguards," said Coelho.

"This legislation represents a positive and compassionate response to the people in need who are served by the city's food pantries and soup kitchens. It removes some of the barriers to distributing food where it is needed and lifts the fear from the city's emergency food distributors that they'll be put out of business trying to meet the same standards as for-profit kitchens," said Kristen McCormack.

The contract shall be in effect during the period from September 6, 1988, to May 26, 1989, and shall occur at a cost not to exceed \$24,000, which I have deemed to be reasonable. On March 25, 1988 the School Committee approved all of the FY'89 chapter 636 proposals for the sum of \$6,022,377.

The contractor will provide the Kodaly music instruction (reading, writing, singing, inner hearing, memory skills needed for musical literacy) to every child in the James Michael Curley and Hale Elementary Schools, grades K through 5, twice weekly, plus chorus.

The contractor is uniquely qualified to provide the above services because: the contractor has organized appropriate resources to enable the Boston School Department to qualify for funding under chapter 636 (1974 Amendments to the 1965 Racial Imbalance Act) in the category of cultural institutions; the institution has specifically designed services in conjunction with school personnel to meet the interest of U.S. District Court Judge W. Arthur Garrity, Memorandum and Orders Modifying Desegregation Plan (*Morgan v. McDonough*, Civil Action No. 72-911-G); further, the services have been reviewed and approved by appropriate personnel at the Department of Education.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing such services, it is my determination that the public interest would not be served by public advertisement for bids.

This agreement is to be executed, without an appropriation of funds, under provisions of General Laws, chapter 44, s. 53A and is subject to the receipt of funds under grant from chapter 636.

Compensation to this vendor over the past three fiscal years in the form of unadvertised contracts is as follows: 1986 — \$3,000; 1987 — \$0; 1988 — \$0.

Very truly yours,  
Laval S. Wilson,  
Superintendent.

The contract shall be in effect during the period from September 1, 1988, to June 30, 1989, and shall occur at a cost not to exceed \$50,000, which I have deemed to be reasonable. On March 25, 1988 the School Committee approved all of the FY'89 chapter 636 proposals for the sum of \$6,022,377.

The contractor will provide the following services:

Another area of training will equip parents to serve effectively in Parent Information Centers.

nel to meet the interest of U.S. District Court Judge W. Arthur Garrity, Memorandum and Orders Modifying Desegregation Plan (*Morgan v. McDonough*, Civil Action No. 72-911-G); further, the services have been reviewed and approved by appropriate personnel at the Department of Education.

Very truly yours,  
Laval S. Wilson,  
Superintendent.

### Puppets and Drama Program

Dear Mayor Flynn:

On behalf of the Boston Public Schools, I request your authorization for the award of a contract to the Loon and Heron Theatre, Inc., located at Brookline. The contract shall be in effect during the period from September 1, 1988, to June 30, 1989, and shall occur at a cost not to exceed \$29,633, which I have deemed to be reasonable. On March 25, 1988, the School Committee approved all of the FY'89 chapter 636 proposals for the sum of \$6,022,377.

The contractor will provide the following services:

At sixteen elementary schools in District A, a team of two artists/teachers will work once a week for fifteen weeks with a total of thirty-two first-grade classes. The program is divided into two cycles, working in eight schools in the fall and eight schools in the spring. Classes will focus on how puppets and drama can enhance basic skills in reading, speaking, listening and writing.

The contractor is uniquely qualified to provide the above services because: the contractor has organized appropriate resources to enable the Boston School Department to qualify for funding under chapter 636 (1974 amendments to the 1965 Racial Imbalance Act) in the category of Cultural Institutions; the institution has specifically designed services in conjunction with school personnel to meet the intent of U.S. District Court Judge W. Very truly yours,  
Laval S. Wilson,  
Superintendent.

## COURT HOUSE COMMISSION

### Security Procedures, etc.

I respectfully request your permission to dispense with public advertising and to award a contract to Harold W. Sparrow, Jr., an individual located at 23 Lisbon Street, Malden, for security management of the Suffolk County Courthouse Complex and security staff.

Under the terms of this contract, Mr. Sparrow will supervise and evaluate court house security practices/procedures performed on the evening night shifts; make recommendations for improvements; provide inservice training to security personnel and implement operational changes. Harold W. Sparrow, Jr., is uniquely qualified to perform this work because of his previous experience in law enforcement and investigative/security areas.

Mr. Sparrow's educational background is extensive. In 1964, he earned a bachelor of science degree in Administrative Law from Boston State. Mr. Sparrow also attended Howard University Law School for a short time. In addition, Mr. Sparrow has successfully completed a number of training courses relative to law enforcement, including the United States Treasury Department's Narcotic Abuse Training Program, the State Police Training School for Local Police Officers and a number of federal law enforcement training programs.

Professionally, Mr. Sparrow's record is equally extensive. He served in the United States Navy and was assigned to the Pentagon for the Chief of Naval Operations for Communications and Intelligence. Mr. Sparrow was also employed as a police officer for both the Malden and the Metropolitan Police Departments. During his tenure as a police officer, Mr. Sparrow worked with the State Police out of the Attorney General's Organized Crime Unit.

Compensation under this contract shall not exceed \$21,105.72, which I have determined to be reasonable for the work to be performed.

The term of this contract shall be August 15, 1988, through June 30, 1989.

In view of the professional nature of the services to be performed and the critical need to continue improvement of the Court House security in the aftermath of two arson fires on January 30 and 31, 1988, I believe that public advertising would serve no useful purpose.

Very truly yours,  
Stephen J. Carroll,  
Superintendent.

## TREASURY DEPARTMENT

### Staff Analyst Services

Dear Mr. Mayor:

In response to an advertisement in the City Record on April 18, 1988, Patrick J. O'Toole, Jr., 147 Cottage Street, Norwood, has responded and has been deemed qualified to provide professional services as staff analyst for the Treasury Department. Mr. O'toole has not worked for the Treasury Department in the past, therefore, contract(s) for FY'88, FY'87, and FY'86 are not applicable.

Under the terms of the contract, the contractor will be responsible for research/analysis of accounts in tax title/tax possession, general systems analysis, particularly cash flow, and handling special projects as assigned, with particular emphasis on credit balance accounts.

Therefore, I request your authorization for the award of a contract to Patrick J. O'Toole in an amount not to exceed \$17,000, payable at an hourly rate of \$11, which is deemed to be reasonable, during the period August 1, 1988, through June 30, 1989.

Sincerely,

## CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

### HEALTH AND HOSPITALS DEPARTMENT

#### Genetic Diagnostic Testing

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I hereby request your Honor's permission to amend the contract with Trustees of Boston University, Center for Human Genetics, 80 East Concord Street, for the period July 1, 1987, through June 30, 1988, at a cost not to exceed \$51,500.

This amendment will increase the contract sum by \$15,000, thereby increasing the city's total liability under this contract, as so amended, to an amount not to exceed \$66,500.

Under this contract, Trustees of Boston University, Center for Human Genetics performs genetic diagnostic testing services for Boston City Hospital. This amendment is necessary because of unanticipated increase in the volume of testing required.

In view of the above, because of the special nature of these services, and because the cost, in my opinion, is reasonable, I recommend approval of this amendment.

Very truly yours,  
Lewis W. Pollack,  
Commissioner.

## PUBLIC FACILITIES DEPARTMENT

### Dock Square Garage Design

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on April 28, 1988, I respectfully request your Honor's written permission to dispense with further public advertisement and amend a contract approved by your Honor on September 14, 1987, awarded to Vollmer Associates, with offices at 6 St. James Avenue, Boston, MA 02116, for the design of structural repairs to decking of roof over the Dock Square Garage at Boston City Hall. The cost of this amendment shall not exceed \$28,992. The amended cost of this contract shall not exceed \$103,992. The amended term of this contract shall be extended to July 29, 1989.

Said amendment is necessary due to the increased scope of service required of the designer. Under the terms of the amended contract Vollmer Associates shall provide additional services due to an in depth evaluation of existing conditions which revealed much more extensive corrective work is required than originally anticipated. Additional services shall include removal and replacement of brick paving and concrete subbase as well as waterproofing the top of the City Hall Dock Square Garage.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer, with all existing conditions, and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose in this particular instance.

Sincerely,  
Lisa G. Chapnick,  
Director.

### Xerox Reproductions, etc.

Dear Mayor Flynn:

In response to the Finance Commission's comments August 16, 1988, I submit the following back-up information for an amendment to contract number 2980-88 with Copy Quik, Inc. of Cambridge, for making and delivering Xerox reproductions and blueline prints, autositives, and sepias during the period of July 1, 1987, through June 30, 1988.

The concern of the Finance Commission in regard to this amendment is that it was submitted late, and that the additional services should have been bid.

This amendment was originally processed as a change order and was subsequently rejected by the Law Department to be processed as an amendment. Later, when the amendment process was initiated and the documents were sent to the vendor, the documents were held from April 12, 1988, until July 16, 1988. In addition, the funding for this amendment was appropriated through the operating budget of the Public Facilities Department resulting in further delay because it was necessary to include this contract on the FY'88 reserve letter. The development of this reserve letter added additional lag time of three weeks.

The Finance Commission also expressed concern that this amendment was not processed through the sealed bid process.

Copy Quik, Inc. provides a crucial service to this department. The plans and specifications provided by Copy Quik, Inc. are needed by contractors and contain all necessary and pertinent information that they need to accurately bid. The Public Facilities Department had to order and keep on hand sufficient number of contract specifications as regulated by M.G.L. c. 149, s. 44B, and M.G.L. c. 30, s. 39M. In addition, the Public Facilities Department

ad been awarded a challenge grant to support urban design programs by the state which had a significant amount of printing needs associated with it at had to be met by this contract. Finally, Public Facilities Department's Project 747 which promotes vacant lot development in the city also had extensive printing needs that had to be satisfied. An interruption of Copy Quik, Inc.'s services would have been a serious detriment to all of the above-mentioned programs and functions.

In light of the above, I urge you to approve the award of this contract as I believe that it is both expedient and appropriate to do so.

Sincerely,

Lisa G. Chapnick,  
Director.

Dear Mayor Flynn:

I respectfully request your Honor's written permission to dispense with public advertising and award a contract, approved by your Honor on September 15, 1987, for making and delivering Xerox reproductions and blue-line prints, autotypes, and sepia prints during the period of July 1, 1987, through June 30, 1988, at a cost of \$41,925.

Your Honor's approval is requested to amend this contract in the amount of \$78,075, to provide for printing of additional specifications and blue-line drawings due to a much higher than anticipated volume of construction contracts advertised to solicit bids. Furthermore, because of budgetary constraints 30 percent of the Public Facilities Department's general bids were rejected and subsequently re-advertised during this contract period which required extensive reprinting of plans and specifications. To date, bids on twenty-two Public Facilities Department construction projects have been rejected and rebid between two and five times. This has resulted in a marked increase in the use of Copy Quik, Inc.'s services.

These plans and specifications are needed by contractors and contain all necessary and pertinent information that they need to accurately bid. The Public Facilities Department must continue to order and keep on hand a sufficient number of contract specifications as regulated by M.G.L. c. 149, § 44B and M.G.L. c. 30, s. 39M. In addition, the Public Facilities Department has been awarded a challenge grant to support urban design programs by the state which has a significant amount of printing needs associated with it that must be met by this contract. Finally, Public Facilities Department's Project 747 which promotes vacant lot development in the city also has extensive printing needs that must be satisfied.

This contract, as amended shall not exceed \$20,000.

Because of the nature of the services to be provided, and the qualifications and satisfactory performance to date of the contractor, I believe that further public advertising would serve no useful purpose.

Sincerely,

Lisa G. Chapnick,  
Director.

#### Design Services

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on May 12, 1988, I respectfully request your Honor's written permission to dispense with public advertising and amend a contract approved by your Honor on September 3, 1987, to Force/Lamb Associates for the purpose of design services in support of various small scale Community Development Block Grant programs, including Neighborhood Commercial Development Bank,

Physical Improvements Program and Buildable Lots, during the period August 1, 1987, to June 30, 1989, at a cost not to exceed \$20,000.

Your approval is requested to amend this contract to provide for further services necessary to complete ongoing and new projects. This amendment will cover the second cycle of the two-year contract. The original contract amount was based on costs for the first cycle. Due to the nature of this contract, costs were projected on a yearly basis. The cost of this amendment shall not exceed \$20,000, which I have determined to be reasonable. The contract, as amended, shall not exceed \$40,000. The period of performance shall remain the same.

The submission of this request has been delayed due to the time required of the contractor to submit all necessary documents.

Because of the professional nature of the services to be provided, and the qualifications of the contractor, I believe that public advertising would serve no useful purpose in this instance.

Sincerely,

Lisa G. Chapnick,  
Director.

PRESIDENT, CITY COUNCIL

VOL. 80

MONDAY, OCTOBER 3, 1988

NO. 40

## MAYOR FLYNN IN OUTREACH TO SOUTH BOSTON JOB-SEEKERS

Mayor Flynn led South Boston's manufacturers and his Administration's employment specialists through South Boston neighborhoods to bring the Boston for Boston jobs campaign to residents of that community. The Mayor spearheaded similar successful door-knocking efforts in Roxbury and Mission Hill this spring.

Accompanied by manufacturing employers, community agencies and staff from the Mayor's Office of Jobs and Community Services (OJCS) and the City's Economic Development and Industrial Corporation (EDIC), the Mayor went from door-to-door in the Mary Ellen McCormack family development encouraging residents to participate in the Marine Industrial Park Job Fair, Thursday, September 22, at St. Brigid's Gym in South Boston.

More than forty employers in printing, food processing, electrical and medical manufacturing and other growing Boston industries sought workers at the Job Fair to fill some 200 positions paying between \$6.50 and \$15 per hour. Most of the firms are located in the South Boston area, including many based at EDIC's Marine Industrial Park.

"We have a definite need for new employees and we're very excited to be a part of this effort," said Josh Polkoff, President of Harbor Medical Devices, a Marine Industrial Park tenant.

"With this effort we're letting people in Boston's neighborhoods know that there are solid, well-paying jobs in light manufacturing available," said the Mayor. "With the cooperation of employers, City staff, and career training agencies, we hope to open up new horizons for the City's residents."

"The Boston for Boston partnership is setting a precedent for companies doing business in Boston," said Kristen McCormack, Director of the Mayor's Office of Jobs and Community Services. "We have demonstrated that hiring Boston residents for Boston jobs makes good business sense and allows neighborhood residents to share in the City's prosperity."

The door-knocking outreach effort and the Job Fair are combined efforts of OJCS — the City's outreach, training and placement agency —

and EDIC — the City agency that developed and operates the Marine Industrial Park, home to some 150 companies.

"While Boston's downtown service and finance economy continues to thrive, light manufacturing industries in the City's neighborhoods are also growing and offering good career opportunities for City residents," said Marilyn Swartz Lloyd, Director of EDIC. "By working together, the public and private sectors can help industries grow and ensure that the jobs they create are accessible to Boston's people."

### CITY RECEIVES FUNDING FOR ROXBURY PARK

The City of Boston's Public Facilities Department (PFD) has been awarded a \$1 million grant from the State's Department of Environmental Management (DEM) to transform two vacant lots at the intersection of Dudley Street and Blue Hill Avenue in Roxbury into the Dudley Town Commons.

"A town common on this site will serve not only as a gateway to the Dudley neighborhood, but will stand as an important symbol of a revitalized community," said Lisa G. Chapnick, Director of PFD.

The Dudley Town Commons project is the only inner-city town common to receive funding under DEM's City and Town Common program. The idea for the town commons was developed in

conjunction with the Dudley Street Neighborhood Initiative, a community group which has been instrumental in organizing support for the project.

"The City and Town Commons program has grown to be a popular and highly competitive program," said DEM Commissioner James Gutensohn. "Signs of investment can be seen near most of the projects that are under way or that have been completed."

The commons will replace unsightly vacant lots with trees, walks, fountains, an amphitheater and a "history wall" art project, adapting the traditional New England town common to reflect history and heritage of Roxbury. The City will also use funds from Mayor Flynn's \$920 million Capital Improvement Plan for necessary road and sidewalk repairs in the Dudley area. Work on the Dudley Town Commons is expected to begin next fall.

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to Murphy, DeMarco and O'Neill, P.C., located at 4 Faneuil Hall Marketplace, for legal services rendered to the Mayor's Office of Consumer Affairs and Licensing.

Under the terms of the contract, Murphy, DeMarco and O'Neill P.C. will represent the city in the litigation entitled, *Highland Tap of Boston, Inc. v. The City of Boston Licensing Division, et al* (C.A. No. 42026 (1987)). Counsel will consult with the Corporation Counsel on a periodic basis as may be required and obtain his approval prior to commencing significant actions in this case. Murphy, DeMarco and O'Neill, P.C. is uniquely qualified to provide these services because of its expertise in constitutional and civil rights matters.

Compensation under this contract will be at the rate of \$125 per hour and shall not exceed \$20,000, which I deem to be reasonable for the work performed.

The term of this contract shall be from July 27, 1988, to June 30, 1989. Because of the professional nature of the service to be performed, I believe that public advertising would serve no useful purpose. This request is late due to the fact that the individual who handles contracts went out on pregnancy leave earlier than scheduled and the assigned back-up staff person resigned.

Murphy, DeMarco and O'Neill, P.C. has had a contract with this department for the previous fiscal year. FY 88, in the amount of \$57,000.

Sincerely,  
Diane J. Modica,  
Commissioner.

area youths, provide pre-employment training, job matching, and follow-up services. The contractor was selected based upon an evaluation of its re-funding proposal submitted to the Mayor's Office of Jobs and Community Services. The period of performance shall be from July 1, 1988, until June 30, 1989. The submission of this letter has been delayed due to administrative oversight. The contractor has had one previous contract with JCS for this program during FY 88 in the amount of \$15,500.

The Urban League received authorization from the DPW to begin the program as of January 1, 1988.

As this is a negotiated contract at a reasonable cost, based upon recommendations made by the DPW to JCS, I believe that public advertising would serve no useful purpose. Sincerely,  
Neil H. Gordon,

Sincerely,

Neil H. Gordon,  
Associate Director.

LAW DEPARTMENT  
Legal Services

Dear Mr. Mayor:

I respectfully request your Honor's permission to award a contract to Merrick & Louison, a law firm located at 88 Broad Street.

Under the terms of the contract, Attorneys Nancy Merrick and Douglas Louison will provide legal services which will include, as necessary, all pretrial discovery, motions and trials of the following cases:

*Allen Curry v. Thomas Hammond, et al*, Suffolk Superior Court, No. 59905;

*Long Guang Huang v. Francis Kelly*, U. S. District Court, No. 87-0110-WF;

*Brian Partello v. Ralph Henry and City of Boston*, U. S. District Court, No. 86-1880-MC;

*Kevin Purvis v. John Parlon, et al*, U. S. District Court, No. 84-0984-WD;

*Alberto Vasallo v. Two Unnamed Officers, et al*, U. S. District Court, No. 87-2837-K.

Nancy Merrick and Douglas Louison are uniquely qualified to do this work because they are former assistant corporation counsels specializing in the defense of civil rights actions, and because they have been actively involved in handling each of these cases while assistant corporation counsels with the Law Department. They have recently left the Law Department to begin their own practice. Although most of the cases that had been assigned to them were reassigned to other attorneys in the Law Department, it is necessary for Ms. Merrick and Mr. Louison to continue their representation in the above-pending cases because of the

complex legal issues involved. Further, the continuity of counsel is essential to the successful defense of all these matters.

Compensation under this contract shall not exceed \$80,000, at a rate of \$90 per hour. Ms. Merrick and Mr. Louison's rates have been determined based upon the equivalent hourly rate they were earning with the Law Department, plus reasonable costs for overhead and expenses. These rates represent a substantial discount of rates Ms. Merrick and Mr. Louison will charge other clients. I have determined these rates to be reasonable for the work to be performed.

The term of this contract shall be from July 1, 1988, to June 30, 1989.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purposes.

Very truly yours,

Joseph I. Mulligan, Jr.,  
Corporation Counsel.

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to Attorney Kathleen M. Fitzgerald of the law firm of Matroni, Dimauro, Fitzgerald, Liebel and Carhart with offices at Springfield.

Under the terms of the contract, Attorney Fitzgerald will provide legal services which will include as necessary all pretrial discovery, motions, trial preparation and trials of the following cases:

*John Jackson v. Loman McClinton, Jr., et al*, U.S. District Court, C.A. No. 87-1364-T;

*Herbert Murphy, Adm. of the Estate of John Damann v. City of Boston*, Norfolk Superior Court, C.A. No. 84-1879.

*Patricia Schenck, Admx. of the Estate of Phillip Schenck v. City of Boston*, U.S. District Court, C.A. No. 84-607-T.

Kathleen M. Fitzgerald is uniquely qualified to perform these services because she is a former assistant corporation counsel specializing in civil litigation, and she has been actively involved in handling each of these cases. She has recently left the Law Department to join the law firm of Matroni, Dimauro, Fitzgerald, Liebel and Carhart. Although most of the cases that had been assigned to her were reassigned to other attorneys in the Law Department, it is necessary for Attorney Fitzgerald to continue her representation in the above-pending cases because of the complex legal issues involved, the necessity to insure continuity of counsel, and the fact that the above cases will be tried in the near future.

Compensation under this contract shall not exceed \$16,750, to be paid at the rate of \$75 per hour plus reasonable expenses. These rates represent a substantial discount of rates Attorney Fitzgerald will charge other clients. I have determined this rate to be reasonable for the work to be performed.

The term of this contract shall be from August 2, 1988, through June 30, 1989.

Because of the professional services to be performed and the specialized expertise and experience of Attorney Fitzgerald, I believe that public advertising would serve no useful purpose.

Very truly yours,

Joseph I. Mulligan,  
Corporation Counsel.

Land Use Consultant

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to Jerold Kayden, an individual located at Lin-

coln Institute of Land Policy, Cambridge, for his services as an expert land use consultant and attorney.

Under the terms of the contract, Jerold Kayden will serve as an expert witness and testify on behalf of the City of Boston in the cases of *National Amusement vs. City of Boston*, Land Court, Civ. Action 123588. In addition, he will act as a consultant in framing the issues and strategy for trial, preparation for trial, and post-trial brief in this matter.

Jerold Kayden is uniquely qualified to do this work because he is a land use expert and attorney; he is of counsel in the law firm of Warner and Stackpole, and he is on the faculty of the Lincoln Institute of Land Policy.

Compensation under this contract shall not exceed \$20,000 to be paid at the rate of \$200 per hour, which I have determined to be reasonable for the work to be performed.

The term of this contract shall be July 1, 1988, June 30, 1989.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Very truly yours,

Joseph I. Mulligan,  
Corporation Counsel.

Because of the professional nature of the services to be provided and the contractor's inability to provide such services I believe that public advertising would serve no useful purpose. This is the first agreement between the Mayor's Office and this contractor.

Sincerely,

Robert Consalvo,  
Operations Director

PUBLIC FACILITIES DEPARTMENT

Dwellings Rehabilitation

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on July 14, 1988, I respectfully request your Honor's written permission to dispense

public advertisement and award a contract to the Urban Edge Housing Corporation, a nonprofit corporation, with offices at 2010 Columbus Avenue, Roxbury. Under the terms of the contract, the Urban Edge Housing Corporation will be provided the funds to set up a line of credit, as required by the Massachusetts Housing Finance Agency, to secure permanent financing on the completed rehabilitation of dwelling units at 21-23 Dixwell Street, Roxbury. These units are owned by the Urban Edge Housing Corporation. A prior contract, between the Urban Edge Housing Corporation and the Public Facilities Department, provided funds for the rehabilitation of these units. A new contract necessary due to unforeseen costs and a new scope of services.
